Stuttering and Stammering CURED!

THE undersigned would respectfully announce to the citizens of Lehigh and the adjoining counties, that he has located himself in New York for the purpose of EFFECTUALLY CURING persons who are troubled with

STUTTERING OR STAMMERING. So confident is he of success, that no pay will be required until the utmost satisfaction is given. His method is so easy, that any child five years old may understand it, and yet so efficient, that he will forfeit One Thousand Dollars to any person who will stammer and apply to it.

Dr. J. V. Wyckoff,
No. 37 Chambers St., New York.

P. S. For further testimony as to the efficacy of his method; he refers to the Medical Faculty of New York, who witnessed the application upon a gentleman, who was an inveterate stammerer, and had been operated upon by other Physicians, without the least benefit, and astonishing as it may seem, Dr. Wyckoff cured him in 20 minutes, that he was able to speak and read with ease, without hesitancy or semblance of Stammering.

The Doctor also has over One Hundred Certificates of cures performed, among which are several medical gentlemen.

Another Scientific Wonder! PEPSINI! AN ARTIFICIAL DIGESTIVE Fluid, or Gastric Juice!

A GREAT DYSPEPSIA CURE!
Prepared from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., No. 11, North Eighth Street, Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, curing—after Nature's own method,—by Nature's own agent, the Gastric Juice.

Half a teaspoonful of this Fluid, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

Digestion.—Digestion is chiefly performed in the stomach by the aid of a fluid which freely exudes from the inner coat of that organ, when in a state of health, called the Gastric Juice. This fluid is the Great Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the stomach and intestines. Without it there will be no digestion—no conversion of food into blood, and no nutrition of the body; but rather a foul, torpid, painful, and destructive condition of the whole digestive apparatus. A weak, half dead, or injured stomach produces no good Gastric Juice, and hence the disease, distress and debility which ensue.

Pepsin and Rennet.—Pepsin is the chief element, or great digesting principle of the Gastric Juice. It is found in great abundance in the solid parts of the human stomach after death, and sometimes causes the stomach to digest itself, or eat itself up. It is also found in the stomach of animals, as the ox, calf, &c. It is the material used by farmers in making cheese, called Rennet, the effect of which has long been the special wonder of the dairy. The curdling of milk is the first process of digestion. Rennet possesses astonishing power. The stomach of a calf will curdle nearly one thousand times its own weight of milk. Baron Liebig states that, "One part of Pepsin dissolved in sixty thousand parts of water, will digest meat and other food." Dissipated stomachs produce no good Gastric Juice, Rennet or Pepsin. To show that this want may be perfectly supplied, we quote the following:

Scientific Evidence!—Baron Liebig, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Wilson & Co., New York, page 35, states the same fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. John W. Draper, Professor of Chemistry in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "it has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

As a **Dyspepsia Curer.**—Dr. Houghton's preparation of Pepsin has produced the most marvelous effects, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Constipation, supposed to be on the very verge of the grave. It is impossible to give the details of cases in the limits of this advertisement—but authenticated certificates have been given of more than 230 **Renmarkable Cures**, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent.

Brandreth's Pills, FOR THE CURE OF Consumption, Coughs, Colds, &c., TO THE PUBLIC!

THOSE who are suffering from remitting or Intermittent Bilious Complaints, should read the following, and be guided thereby:

Cause of Pain.—Pain is the consequence of the exertion of the organ or part where it is present to throw off morbid or corrupt humors, for no pain can exist but from the presence of those matters which are of an unhealthy character. When we have pain in the head, in the bowels, or in any other part of the body, it only proves the presence of matters which the blood is trying to remove, and it is this struggle which is the occasion of pain. To be bled, only removes the anguish in proportion as the amount of life is reduced, and the same may be said of all lulling or soothing remedies. Not so with Brandreth's Pills; they at once go to the assistance of the blood in aiding it to discharge bad humors, to conquer the Death Principle. To relieve pain in this way does not leave any bad effects, The Life Principle is not reduced, nor are the teeth destroyed; but all the organs are cleansed and their health insured.

The above Pills are for sale by the dozen or single box at the Register Office in Allentown.
