Another Scientific Wonder! PIEPSIN!

AN ARTIFICIAL DIGESTIVE Fluid, or Gastric Juice!

A GREAT DISPEPSIA CURER! Prepared from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., No. 11, North Eighth Street, Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, curing after Nature's own method, by Nature's own agent, the Gastric Juice.

Digestion. - Digestion is chiefly perwith Brandreth's Pills; they at once go to formed in the stomach by the aid of a fluid which freely exudes from the inner coat of discharge bad humors, to conquer the Death that organ, when in a state of health, called the Gastric Juice. This fluid is the Great Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the stomach, and intestines. Without it there will be ny digestion -- no conversion of food into block. and no nutrition of the body; but rather a foul, torpid, painful, and destructive condition of the whole digestive apparatus. A weak, half dead, or injured stomach produces no good Gastric Juice, and hence the

disease, distress and debility which ensue. Pepsin and Rennet .-- Pepsin is the chief element, or great digesting principle of the Gastric Juice. It is found in great abundance in the solid parts of the human stomach after death, and sometimes causes the stomach to digest itself, or eat itself up. It is also found in the stomach of animals, as the ox, calf, &c. It is the material used by farmers in making cheese, called Rennei, the effect of which has long been the spe-cial wonder of the dairy. The curdling of milk is the first process of digestion. Rennet possesses astonishing power. The stomach of a calf will curdle nearly one thousand times its own weight of milk. Baron Liebig states that, "One part of Pepsia dissolved in sixty thousand parts of water, will digest meat and other food." Diseased stomachs produce no good Gastric Juice, Rennet or Pepsin. To show that this want may be perfectly supplied, we quote tho

Scientific Evidence!-Baron Liebig, in is celebrated work on Animal Chemistry. says: "An Artificial Digestive Fluid may be readily prepared from the mucous menibrane of the stomach of the Call, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the unnan stomach."

Dr. Pereira, in his famous treatise on Food and Diet," published by Wilson & Co., New York, page 35, states the same great fact, and describes the method of preuration. There are few higher authoriies than Dr. Pereira

Dr. John W. Draper, Professor of Chenistry in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "it has been 1 question whether artificial digestion could ne performed—but it is now universally adnitted that it may be." Professor Dunglison of Philadelphia, in

is great work on Human Physiology, devotes more than fifty pages to an examina-ion of this subject. His experiments with Dr. Benumont, on the Gastric Juice, obained from the living human stomach and from animals are well known. "In all cases," "he snys" "digestion occurred as perfeetly in the artificial as in the natural digestions." As a Dyspepsia Curer .- Dr. Houghton's

preparation of Pepsin has produced the most marvellous effects, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the very verge of the grave. It is impossible to give the details of cases in the limits of this advertisement - but authenticated certificates have been given of more than 200 Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but per-

manent. It is a great Nervous Antidote, and from the astonishingly small quantity necessary to produce healthy digestion, is believed to
