AN ARTIFICIAL DIGESTIVE Fluid, or Gastric Juice " A GREAT DISPEPSIA CURER !!

Prepared from Rennet, or the fourth Stomach of the Ox, after directions of Baron Licbig, the great Physiological Chemist, by J. S. Houghton, M. D., No. 11, North Eighth Street, Philadelphia, Pa. This is a truly wonderful remedy for In-

digestion, Dyspepsia, Jaundice, Liver

Complaint, Constipution, and Debility,

curing after Nature's own method, by

"Half a teaspoonful of this Fluid, infused

in water, will digest or dissolve, Five

Pounds of Roast Beef in about two hours,.

Digestion. - Digestion is chiefly per-formed in the stomach by the aid of a fluid

which freely exudes from the inner coat of

that organ, when in a state of health, called

the Gastric Juice. This fluid is the Great Solvent of the Food, the Purifying, Preserv-

ing and Stimulating Agent of the stomach

Pepsin and Rennet .-- Pepsin is the chief

element, or great digesting principle of the

Castric Juice. It is found in great abun-dance in the solid parts of the human sto-

much after death, and sometimes causes the

stomach to digest itself, or eat itself up. It

is also found in the stomach of animals, as

the ox, calf, &c. It is the material used by

farmers in making cheese, called Rennet,

the effect of which has long been the spe-

cial wonder of the dairy. The curdling of milk is the first process of digestion. Ren-

net possesses astonishing power. The sto-

much of a calf will curdle nearly one thou-

sand times its own weight of milk. Baron

Luchig states that, "One part of Pepsin

dissolved in sixty thousand parts of water,

will digest meat and other food." Diseased

stomachs produce no good Gastric Juice,

Rennet or Pepsin. To show that this want

may be perfectly supplied, we quote the

his celebrated work on Animal Chemistry,

says: "An Artificial Digestive Fluid may

be readily prepared from the mucous mem-

brane of the stomach of the Call, in which

various articles of food, as meat and eggs,

will be softened, changed, and digested, just

in the same manner as they would be in the

Dr. Pereira, in his famous treatise on "Food and Dier," published by Wilson &

Co., New York, page 35, states the same

great fact, and describes the method of pre-

aration. There are few higher authori-ties than Dr. Pereira

mistry in the Medical College of the Uni-

versity of New York, in his "Text Book of

Chemistry," page 386, says, "it has been

a question whether artificial digestion could

be performed-but it is now universally ad-

Professor Dunglison of Philadelphia, in
