Another Scientific Wonder! PEPSIN. AN ARTIFICIAL DIGESTIVE

The subscriber, Druggist in the Borough Fluid, or Gastric Juice A GREAT DISPEPSIA CURER!

Prepared from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., No. 11, North Eighth Street, Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipution, and Debility, curing after Nature's own method, by Nature's own agent, the Gastric Juice.

CV Half a teaspoonful of this Fluid, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

Digestion. - Digestion is chiefly performed in the stomach by the aid of a fluid which freely exudes from the inner coat of ration it eradicates the system from the that organ, when in a state of health, called effects produced by unskillful treatment. It the Gastric Juice. This fluid is the Great has already produced some astonishing Solvent of the Food, the Purifying, Preservcures, and of cases where the patient has ling and Stimulating Agent of the stomach been confined to the house for years, and and intestines. Without it there will be no those that got abroad only with the use of digestion -- no conversion of food into blood, from one to six Bottels. Certificates of foul, torpid, painful, and destructive condiand residence of the person ordering put on cures can be shown from the most respect- tion of the whole digestive apparatus. A weak, half dead, or injured stomach produces no good Gastric Juice, and hence the disease, distress and debility which ensue.

Pensin and Rennet .-- Pepsin is the chief element, or great digesting principle of the Clastric Juice. It is found in great abun-COMPANY of Philadelphia. OFFICE, No. 1633 CHESTLY STREET James I. Selfridge & Co. dance in the solid parts of the human stomach after death, and sometimes causes the dance in the solid parts of the human stostomach to digest itself, or cat itself up. It is also found in the stomach of animals, as the ox, call, &c. It is the material used by Contentission Plerchants, farmers in making cheese, called Rennet, the effect of which has long been the special wonder of the dairy. The cardling of milk is the first process of digestion. Rennet possesses astonishing power. The stomach of a calf will curdle nearly one thousand times its own weight of milk. Baron Laebig states that, "One part of Pepsin dissolved in sixty thousand parts of water, will digest ment and other food." Diseased stomachs produce no good Gastric Juice. Rennet or Pepsin. To show that this want may be perfectly supplied, we quote the following

Scientific Evidence!-Baron Liebig, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid may be readily prepared from the mucous membrane of the stomach of the Cult, in which various articles of food, as ment and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Wilson & Co., New York, page 25, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Peréira

Dr. John W. Draper, Professor of Chemistry in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "it has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Professor Dunglison of Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examina-tion of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and Treaton bink, co. par from animals are well known. "In all ca-95 | ses," "he says" "digestion occurred as perfeetly in the artificial as in the natural di-

gestions." As a Dyspepsia Curer .- Dr. Houghton's preparation of Pepsin has produced the most marvellous effects, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the very verge of the grave. It is impossible to give the details of cases in the limits. of this advertisement - but authenticated certificates have been given of more than 200 Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but per-
