Prospectus for the Globe,

The Congressional Newspaper.

The approach of Congress calls for the enewal of my proposals and preparations. o spread its debates before the public.— The success which has bitherto attended

eration in every movement at the next session, and there will scarcely be a measure introduced, or a speech made, that will not have some bearing on that all-absorbing question. If national questions of the respective parties are called together to nominate the candidates of each, the Congress which precedes these conventions always seizes the occasion, by anticipation, to discuss, in connection with public measures the merits of the men looked to give them flect in the administration. If the people, hen, would have their share in the choice of their first functionaries, they ought to study well the character of candidates as leveloped by themselves, their friends, and heir enemies in Congress. The Capitol will be the rostrum from which the people of the United States will be addressed on' the subject of the Chief Magistracy, and the important tropics connected with it, and the legislation of the country there will become the theme of discussion in every State Legislature, of every county, town and vilage meeting, throughout the Union. How the Gastric Jujce. This fluid is the Great" important, then, does it become, that full and Solvent of the Food, the Purifying, Preservimpartial reports should be obtained of the ing and Stimulating Agent of the stomasky action of a body which will give a impulse to the Republic in a new career, and which will, in a very great degree, influence the public mind in the choice of the Chief Mag-

the Presidency will form a leading consid-

istrate who is to carry out the will of the 10 people as constitutionally expressed. The undersigned has made preparations commensurate with the increased impor-

tance of the duty he has undertaken as the only reporter and publisher of the complete debates and proceedings of both Houses of Congress. The coming session will probably be extended nine months, and the reports will not be comprised in less than 3500 royal quarto pages of brevier and nonpareil type-making 4 volumes of near 900pages each. The reports for the last long session made 3896 royal quarto pages, and were bound in four volumes, averaging 974 royal quarto pages each.

I will publish in the Appendix for the next session all laws that may be passed during the session, which has not been done heretofore. Although this will increase in no small degree the expense of the publica-.30 tion, the subscription price will be the same that it has been for several years past.

The Daily Globe will be published du-61 ing the session on a superfine double royal 41 sheet. It will contain the debates as taken down by the reporters, and as altered by the speakers, whonever they make any alterations; the currant news of the day, and mis-10 cellaneous matter. The main object for publishing the daily paper is, to enable -50 members to see their remarks, in i', and al-80 ter them if they shall think proper before 75 they are published in the Congressional Globe and Appendix.

The Congressional Globe is made up of the daily proceedings of the two House of Congress, and printed on a double royal paper, with small type, in quarto form, each number containing sixteen royal quarto pages. The speeches of the Members, in this first form, are sometimes concensed-the full report of the prepared speeches being reserved for the Appendix. All resolutions, motions, and other proceedings, are given in the form of the Journals, with the yeas and nays on every important question.

The Appendix is made up of the President's Annual Message, the Reports of the principal Officers of the Government that accompany it, and all Speeches of Members this undertaking it is hoped will continue, of Congress, written out or revised by them-

Another Scientific Wonder! PEPSIN AN ARTIFICIAL DIGESTIVE

Fluid, or Gastric Juice ' A GRÉAT DISPEPSIA CURER!

Prepared from Rennet, or the fourth Stomach of the Ox, after directions of Baron Lie big, the great Physiological Chemist, by J. S. Houghton. M. D., No. 11, North Eighth Street, Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility curing after Nature's own method, by Nature's own agent, the Gastric Juice."

Half a teaspoonful of this Fluid, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours,out of the stomach.

Digestion. - Digestion is chiefly performed in the stomach by the aid of a fluid which freely exudes from the inner coat of that organ, when in a state of health, called" and intestines. Without it there will be no digestion --- no conversion of food into blood, and no nutrition of the body; but rather a foul, torpid, painful, and destructive condition of the whole digestive apparatus. A weak, half dead, or injured stomach produces no good Gastric Juice, and hence the disease, distress and debility which ensue.

Pepsin and Rennet .- Pepsin is the chief element, or great digesting principle of the Gastric Juice. It is found in great abundance in the solid parts of the human stomuch after death, and sometimes causes the stomach to digest itself, or eat itself up. It is also found in the stomach of animals, as the ox, calf, &c. It is the material used by farmers in making cheese, called Rennet, the effect of which has long been the special wonder of the dairy. The cardling of milk is the first process of digestion. Rennet possesses astonishing power. The stomach of a calf will curdle nearly one thousand times its own weight of milk. Baron Liebig states that, "One part of Pepsin dissolved in sixty thousand parts of water, will digest meat and other food." Diseased stomachs produce no good Gastric Juice, Rennct or Pepsin. To show that this want may be perfectly supplied, we quote the following

Scientific Evidence!-Baron Liebig; in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human sto:nach.'

Dr. Pereira, in his famous treatise on Food and Diet," published by Wilson & Co., New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira

Dr. John W. Draper, Professor of Chemistry in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "it has been a question whether artificial digestion could be performed-but it is now universally admitted that it may be."

Professor Dunglison of Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examina-tion of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals are well known. "In all cases," "he says" "digestion occurred as perfectly in the artificial as in the natural digestions." As a Dyspepsia Curer .- Dr. Houghton's preparation of Pepsin has produced the most marvellous effects, curing cases of Debility, Emacuation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the very verge of the grave. It is impossible to give the details of cases in the limits of this advertisement - but authenticated certificates have been given of more than 200 Remarkable Cures, in Philadelphia. New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent. It is a great Nervous Antidote, and from he astonishingly small quantity necessary to produce healthy digestion, is believed to act upon . Electro-Magnetic Principles !--- There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives. instant relief! A single dose removes all the unpleasant symptoms, and it only needs to be repeated, for a short time, to make these good effects permanent, purity of blood and igor of body, follow at once. It is particularly excellent in cases of Nausea, Vomiting, Cramps, Soreness of the pit of the Stomach, distress after eating, low, cold, state of the Blood, Heaviness, Lowness of Spirits, Despondency, Einaciation, Weakness, tendency to Insanity, Suicide, &c. Price one dollar per bottle. One bottle will often effect a lasting cure. PEPSIN IN POW DERS. Sent by Mail, Free of Postage, Forceonvenience of sending to all parts of the coun-; try, the Digestive matter of the pepsin is put up in the form of Powders, with directions to be dissolved in diluted alcohol, water, or syrup, by the patient. These powders contain just the same matter as the ubscriptions should reach here by the 15th | bottles, but twice the quantity for the same price, and will be sent by mail, free of Postge, for one dollar sent (postpaid) to Dr. J. Houghton, No. 11 North Eight street, Philadelphia, Pa. Six packages for five dollars. Every package and bottle bears the written signa--. ture of J. S. Houghton, M. D., Sole Proprictor. B Agents wanted in every, town in the United States. Very liberal, discounter gives von to the trade. Druggister Postmasters.

August 8

good travellers ; their vehicles most and of the latest style, and such a been used are repaired and repainte best manner. They continue the t at the old stand in William street, in "rough of Allentown.

They will always be prepared to their customers at the shortest possible notice with sure and gentle horses, good carriages and careful drivers if requested. ----

Families can be suited ot all times with ve hicles to their particular tastes.

Their charges are reasonable, and in order to continue the high credit it has heretofore gained of being the "best livery establishinent in Allentown," they will leave nothing undone to keep on hand the best and safest horses, the neatest and most splendid carriages, and sober and careful drivers.

Their charges are very reasonable and hope by strict attention to business to satisfy all those who may favor them with their custom.

HOFFMAN & COMPANY. September 18, 1851. ¶-3m

Baker's Improved Churn. With Double Spiral Wheel.

So numerous are the Churns, that we had almost come to the conclusion, that all were but mere modifications without any essential improvement and under these impressions we slightly examined this Churn .-Closer investigation, however, has led us to a different conclusion. As the most simple and the least observable improvement is often the most important, appears to be the case here. Mr. Baker's Churn is simple, dutable and not liable to get out of repair, easily worked, secures a constant supply of pure air, displacing the gas as it is created, and produces thorough and rapid agitation of the creain. The mechanical construction of the Paddles is such as to be the most perfect in bringing the Butter together in five to twenty minutes,

The good qualities of the Churn, have been fully established, as it has been tested in trials with other Churns, and has brought butter in far less time, and in much greater quantity and of a better quality.

The simplicity of construction renders the cleaning of this Churn less laborious than any other now, in use. They may be examined and purchased from the subscriber, at his workshop; near Siegersville, North Whitehall township, Lehigh county,

on very reasonable terms. J. CULBERTSON. Siegersville August 14; 9-6 ¶--6w |

Brandreth and Wrights Pills,

Country merchanis and others, are hereby notified, that the far famous Pills o Doctors William A. Wright, and Benjamin Brandreth, are constantly kept for sale at the office of the "Lehigh Register" by the dozen boxes, at wholesale prices. July 5.

The subscriber, Druggist in the Borough of Bethlehem, Northampton county, adopts this method to inform sufferers of a Rheumatic complaint, be it Inflamatory, Chronic or Acute, that he prepares an article of medcine, that will effect a certain cure of this wide spred and painful disease. It is put up in Quart bottels, each bottle accompani-

ed by a box of Ointment. The liquid to be taken internally, and the ointment externally. The genuine article can be had only by the undersigned, a practical Druggist and Chemist, and originator of the medicine. Price two dollars per bottle, or six bottles or ten dollars—which will be sent to invalids in any part of the county, free of charge.

All orders must be accompanied with the Cash, or they will receive no attention. This medicine needs no puffing, it speaks or itself, while perfectly harmless in its operation it cradicates the system from the effects produced by unskillful treatment. It as already produced some astonishing cures, and of cases where the patient has been confined to the house for years, and those that got abroad only with the use of Crutches, were set at liberty by the use of from one to six Bottels. Certificates of cures can be shown from the most respectble citizens.

IT'None is genuine without his written ignature in blue ink.

All of which will be sold at the most reasonable prices. Recollect the place. March 6. ¶---Iy

JOB PRINTING.

Neatly executed from the "Register" Office. ed remains to be seen. The succession to

ry of the proceedings and discussions of the the Congressional Globe and usually makes body on which the destiny of the Republic about the same number, of pages during a i session. The adoption of Congress has given the

Hobe an official character as the reporter of all that is said and done in the body .--members of all parties. The press, too, of y with which the duty thus confided has en performed.

depends.

The great celerity with which the letter the telegraph their hurried accounts and small type-brevier and views of the debates of Congress, renders more important than ever the full and exact

official reports of the Congressional Globe, The hasty, and in many instances ex parte relations by telegraph of what occurs in be miscarred, or lost in the mails; but sub-Congress supercede, for the most part, the exact reports taken down by reporters, and their papers carefully, for fear that I should which formerly, and in a shape more or less abbreviated, went the rounds of the press. Now the telegraph accounts, with all their imperfections and variety of colorings, take the run of the country, and no press but the official of Congress ever publishes the full debate with the proceedings of both Houses unmutilated. Indeed, no newspaper can give them, and have room for advertisenents and the miscellaneous matter essential to their existence. While, therefore, the telegraph administers to the enger appetite of the public for Congress news, and meets the necessities of the political press, by furnishing a rapidly-written epitome suit- they are, they will then, no doubt, command ed to the tastes of its patrons, perfect imformation of what passes in Congress is greatly diminished. The circulation of the of-ficial reports has been, to some extent; cut 25 back volumes.

off by the crude and diversified accounts which, flying along the electric wires; satisfies curiosity, and it is almost in vain that truth puts on his boots to follow. Still there are a great many men of leisure and thought who like to see what is actually said and done in Congress, and to judge for themelves, rather than to receive impressions altogether from galvanic batterics. There are others, too, who, for the sake of future, willingly patronize a work which preserves. n full record of the doings of the great mov ng and controlling power of the Republic If there ever was a time when the action of Congress should be looked to and thoroughly studied, by the patriolic of all partics, it certainly approaches with the next Congress. The Government takes a new departure with the next session; and how

During the first month of six weeks of a session, there is rarely more business done than will make two numbers a week—one of This sanction has been voted at every sub- Congressional Clobe and one of the Appencessive session for many years, and by dix; but during the remaining of the session, there is usually sufficient matter for two Ill parties has borne testimony to the fideli- or three numbers of each every week. The next session will be musually interesting :

therefore, I calculate that the Congressional Globe and Appendix together will make at writers for the distant press circulate through least 3,500 large quarto pages, printed in nonpareil. Complete indexes to both will be furnished at the end of a session.

I will endeavor to print a sufficient number of surplus copies to supply all that may scribers should be very particular to file not be able to supply all the lost numbers. If subscribers shall not be satisfied with the work, the money paid by them for it will be refunded to them whenever they return the numbers which may have been received by them.' I will give subscribers the subscription price for any of the previous volumes of the Congressional Globe and Appendix' except for the last session, and will thank any person that will let we have them. I have a few copies of the back volumes of the Congressional Globe and Appendix for sale at \$5 a volume bound, which it is probable will be disposed of soon ; and when at least \$10 a volume, as they cannot be reprinted for less than that sum. There are

TERMS .- For one copy of the Daiy Globe during the session . <\$5.00 For one copy of the Congression-I Globe during the session, 3.00 Eor one copy of the Appendix

during the session, 3 00 The money may be remitted by mail at my risk. Bank notes current where a subriber resides will be received at par .of December, at furthest, to insure all the numbers,

The prices for these papers are so low that I cannot afford to credit them out ; therefore no person need order them unless the.

money accompanies the order. JOHN C. RIVES. Washington City, Qci. 17, 1861.

JOB PRINTING it is to work out the airangements made to of very desciption, neatly executed at the and Booksellers are desired as agents. "Register" affice.
