

# PHOENIX COACH MANUFACTORY, Allentown, Pa.

THE UNDERSIGNED HAVE LATELY entered into partnership in the fashionable

## COACH MAKING

business, in all its various branches, at the old stand, where the same business was followed by Joseph Kramer, in South Allen street. They have prepared themselves with materials to manufacture all kinds of

**Fashionable Vehicles,** from a one-horse buggy to a four-horse coach, or in any style that may suit the fancy of the customer.

The acknowledged ability of the partners, in Building, Painting and Priming, is a sufficient guarantee that their vehicles will stand the test for beauty and durability of any manufactured in Pennsylvania.

Old vehicles repaired at the shortest notice and at very moderate prices. Their work will be warranted to be durable.

Thankful for the many favors heretofore received, they feel assured that no one will favor the firm now, will go away dissatisfied.

## Baker's Improved Churn. With Double Spiral Wheel.

So numerous are the Churns, that we had almost come to the conclusion, that all were but mere modifications without any essential improvement and under these impressions we slightly examined this Churn.—Closer investigation, however, has led us to a different conclusion. As the most simple and the least observable improvement is often the most important, appears to be the case here. Mr. Baker's Churn is simple, durable and not liable to get out of repair, easily worked, secures a constant supply of pure air, displacing the gas as it is created, and produces thorough and rapid agitation of the cream. The mechanical construction of the Paddles is such as to be the most perfect in bringing the Butter together in five to twenty minutes.

The good qualities of the Churn, have been fully established, as it has been tested in trials with other Churns, and has brought butter in far less time, and in much greater quantity and of a better quality.

The simplicity of construction renders the cleaning of this Churn less laborious than any other now in use. They may be examined and purchased from the subscriber, at his workshop, near Siegersville, North Whitehall township, Lehigh county, on very reasonable terms.

J. CULBERTSON, Siegersville August 14, 1851.

## ARNOLD'S PATENT SASH LOCK.

The subscribers take this method to inform the citizens of Allentown, and the surrounding country, that they have lately purchased the right of

**Arnold's Patent Sash Lock** for Lehigh county. This Lock, for simplicity goes ahead of any thing in the way of Sash Locks ever got up, and is even superior to the Sash Weights, and at less than one-fourth the cost.

As an evidence of its simplicity and durability we would only mention, that it has taken the premiums of all the Fairs, where it has been exhibited for competition. Of this number is the "New York State Fair" of 1849 and 1850, "State Fair of Maryland" in 1850, and Fair of the American Institute" in 1850. ## Another Scientific Wonder! PEP SIN AN ARTIFICIAL DIGESTIVE Fluid, or Gastric Juice!

A GREAT DISPEPSIA CURE!

Prepared from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., No. 11, North Eighth Street, Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, curing after Nature's own method, by Nature's own agent, the Gastric Juice.

Half a teaspoonful of this Fluid, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

Digestion.—Digestion is chiefly performed in the stomach by the aid of a fluid which freely exudes from the inner coat of that organ, when in a state of health, called the Gastric Juice. This fluid is the Great Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the stomach and intestines. Without it there will be no digestion—no conversion of food into blood, and no nutrition of the body; but rather a foul, torpid, painful, and destructive condition of the whole digestive apparatus. A weak, half dead, or injured stomach produces no good Gastric Juice, and hence the disease, distress and debility which ensue.
