**Great Attractions!** AT THE New Dry Goods Store

In Catasaugua.

Recollect-"A Penny Made is a Penny Saved."

### Getz & Gilbert,

Adopt this method to inform their friends and the public in general, that they have lately opened a New Store, next door to "Laubach's Hotel" in the Village of Catasauqua, Hanover township, Lehigh county, where they are now prepared to exhibit and dispose to their customers an entire new and well selected stock of

Bry Goods, Groceries, & C. at prices lower than ever before offered by any establishment in this place.

Their Fall and Winter stock has been

Cloths, Cassinners, Satimets, Flannels, Gloves and Hosciry, besides Delaines, Alapaceas, Lusters, Ginghams, Plain and Figured Poplins, Muslins and Prints, Books, &c.,

To which they invite the attention of their friends and the public generally, confident that the fullest-suisfection, both in price and quality, will be given to all who may favor them with a call.

The highest prices will be paid in exchange for County produce.

As young beginners they invite all, ortat and small, rich and poer. high and leave to their establishment, and require to thems dves the advantages of their Winter purchases, by these means they propose securing to themselves a run of goed cuctomerse. Nov. 13.

**PEPSIN!** AN ARTIFICIAL DIGESTIVE Fluid, or Gastric Juice ' A GREAT DISPEPSIA CURER! Prepared from Rennet, or the fourth Stomach of the Ox, after directions of Baron Lie

1996 - 1 The Ca

and the state of the

big, the great Physiological Chemist, by J. S. Houghton, M. D., No. 11, North Eighth Street, Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility curing after Nature's own method, by Nature's own agent, the Gastric Juice. D Half a teaspoonful of this Fluid, infused in water, will digest or dissolve, Five Pounds of Roast-Beef in about two hours, out of the stomach.

**Digestion.** - Digestion is chiefly performed in the stomach by the aid of a fluid which freely exudes from the inner coat of that organ, when in a state of health, called the Gastric Juice. This fluid is the Great Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the stomach and intestines. Without it there will be no digestion -- no conversion of food into blood and no nutrition of the body; but rather a foul, torpid, painful, and destructive\_condition of the whole digestive apparatus. A weak, half dead, or injured stomach produces no good Gastric Juice, and hence the disease, distress and debility which ensue. Pepsin and Rennet .--- Pepsin is the chief element, or great digesting principle of the

Gastric Juice. It is found in great abundance in the solid parts of the human stomach after death, and sometimes causes the stomach to digest itself, or eat itself up. It is also found in the stomach of animals, as the ox, calf, &c. It is the material used by farmers in making cheese, called Rennet, the effect of which has long been the spe-cial wonder of the dairy. The curdling of milk is the first process of digestion. Rennet possesses astonishing power. The stomach of a calf will curdle nearly one thousand times its own weight of milk. Baron Liebig states that, "One part of Pepsin dissolved in sixty thousand parts of water, will digest meat and other food." Diseased stomachs produce no good Gastric Juice, Rennet or Pepsin. To show that this want may be perfectly supplied, we quote the following Scientif's Evidence !- Baron Liebig, in

his celebrated work on Animal Chemistry, says: "An Artifical Digestive Fiuid may prepared to make insurances on every descripbe readily prepared from the mucous menibrane of the stomach of the Call, in which various articles of food, as ment and eggs, will be softened, change do and digested, just in the same manner as they would be in the

human stomach." Dr. Pereira, in her 6 neus treacise on great fact, and describes the method of prefaration. There are few higher authori-

ties than Dr. Pereira Dr. John W. Draper, Professor of Chemistry in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "it has been a question whether artificial digestion could prepared to accommodate them on the low-est terms. be performed—but it is now universally ad-mitted that it may be."
