PEPSIN

AN ARTIFICIAL DIGESTIVE Fluid, or Gastric Juice A GREAT DISPEPSIA CURER!

Prepared from Rennet, or the fourth Stomach of the Ox, after directions of Baron Lie big, the great Physiological Chemist, by J. S. Houghton, M. D., No. 11, North Eighth Street, Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspensia, Jaundice, Liver Complaint, Constipution, and Debility curing after Nature's own method, by Nature's own agent, the Gastric Juice.

II alf a teaspoonful of this Fluid, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

Digestion - Digestion is chiefly performed in the stomach by the aid of a fluid which freely exudes from the inner coat of that organ, when in a state of health, called the Gastric Juice. This fluid is the Great Sovent of the Food, the Purifying, Preserving and Stimuating Agent of the stomach and intestines. Without it there will be no digestion -- no conversion of food into blood, and no nutrition of the body; but rather a foul, torpid, painful, and destructive condition of the whoe digestive apparatus. A weak, haf dead, or inju red stomach produces no good Gastric Juice, and hence the disease, distress and debility which ensue.

Pepsin and Rennet .-- Pepsin is the chief element, or great digesting principle of the Gastric Juice. It is found in great abundance in the soid parts of the human stomach after death, and sometimes causes the stomach to digest itself, or cat itself up. It is also found in the stomach of animals, as the ox, calf, &c. It is the material used by farmers in making cheese, called Rennet, the effect of which has long been the special wonder of the dairy. The curdling of mik is the first process of digestion. Rennet possesses astonishing power. The stomach of a calf will curdle nearly one thousand times its own weight of milk. Baron Liebig states that, "One part of Pepsin dissolved in sixty thousand parts of water. will digest meat and other food." Diseased stemachs produce-no-good-Gastric-Juice, Rennet or Pepsin. To show that this want may be perfectly supplied, we quote the following

Scientific Evidence!-Baron Liebig, in his celebrated work on Animal Chemistry, Confining themselves exclusively to this says: "An Artificial Digestive Fluid may be readily prepared from the mucous membrane of the stomach of the Call, in which various articles of food, as ment and eggs, will be softened, changed, and digested, just in the same manner as they would be in the buman stomach."

> "Food and Diet," published by Wilson & Co., New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authoriies than Dr. Pereira Dr. John W. Draper, Professor of Che-

be performed—but it is now universally admitted that it may be." Professor Dunglison of Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals are well known. "In all ca-

As a Dyspepsia Curer .- Dr. Houghton's preparation of Pepsin has produced the most marvellous effects, curing cases of Debility, Emacation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the very verge of the grave. It is impossible to give the details of cases in the limits of this advertisement - but authenticated certificates have been given of more than 200 Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures
