Improved Chain Pumps, ALLENTOWN LEHIGH COUNTY. The undersigned takes this method to inform the public generally, that he continues to manufacture the new and Improved

Chain Pumps with Iron Curb,

for which he has just got out a new patern and is now prepared to fill orders for same. A constantly increasing demand for these Pumps, resulting in part from the great improvements we have lately effected in their construction, affords, substantial evidence of their superior adaptation to the pubic wants. We, therefore, nave no hesitation in saying that they give better satisfaction to purchasers, are more economical, and do their work more rapidly and with less expenditure of labor than any other Pumps in use. Their operation gives motion to the water, and thus effectually prevents it from becoming stagnant and impure. They are made so as to be readily put in

operation, even by experienced hands can be put together at the Factory or be sent away in parts, as customers prefer; and they can be easily and chenply trans-

PEPSIN

AN ARTIFICIAL DIGESTIVE Fluid, or Gastric Juice A GREAT DISPEPSIA CURER !

Prepared from Rennet, or the fourth Stomach of the Ox, after directions of Baron Lie. big, the great Physiological Chemist, by J. S. Houghton. M. D., No. 11, North Eighth Street, Philadelphia, Pa. This is a truly wonderful remedy for In-digestion, Dyspensia, Jaundice, Liver Complaint, Constipation, and Debility,

curing after Nature's own method, by Nature's own agent, the Gastric Juice. F Half a teaspoonful of this Fluid, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours;

Digestion. - Digestion is chiefly per

offned in the stomach by the aid of a fluid

which freely exudes from the inner coat of

that organ, when in a state of health, called

the Gastric Juice. This fluid is the Great

Sovent of the Food, the Purifying, Preserv

ing and Stimuating Agent of the stomach and intestincs. Without it there will be no

digestion -- no conversion of food into blood;

and no nutrition of the body; but rather, a

foul, torpid, painful, and destructive condi-

tion of the whoe digestive apparatus. A

weak, haf dead, or inju red stomach produ-

ces no good Gastric Juice, and hence the

Pepsin and Rennet .- Pepsin is the chief

element, or great digesting principle of the

Gastric Juice. It is found in great abun-

dance in the sold parts of the human sto-

mach after death, and sometimes causes the

stomach to digest itself, or eat itself up. It

is also found in the stomach of animals, as

the ox, calf, &c. It is the material used by

farmers in making cheese, called Rennet,

the effect of which has long been the spe-cial wonder of the dairy. The curdling of mik is the first process of digestion. Ren-

net possesses astonishing power. The sto-

mach-of-a-calf will curdle nearly one thou-

sand times its own weight of milk. Baron

Liebig states that, "One part of Pepsin

dissolved in sixty thousand parts of water,

will digest ment and other food." Diseased

stomachs produce no good Gastric Juice,

Rennet or Pepsin. To show that this want

may be perfectly supplied, we quote the

Scientific Evidence!-Baron Liebig, in

his celebrated work on Animal Chemistry,

says: "An Artificial Digestive Fluid may

be readily prepared from the mucous mem-

brane of the stomach of the Call, in which

various articles of food, as ment and eggs,

will be softened, changed, and digested, just
