which freely exudes from the inner coat of

the Gastric Juice. This fluid is the Great

Pepsin and Rennet .-- Pepsin is the chief

element, or great digesting principle of the

Gastric Juice. It is found in great abun-

dance in the soid parts of the human sto-

mach after death, and sometimes causes the

stomach to digest itself, or eat itself up. It

is also found in the stomach of animals, as

the ox, calf, &c. It is the material used by

farmers in making cheese, called Rennet, the effect of which has long been the spe-cial wonder of the dairy. The curdling of mik is the first process of digestion. Ren-

net possesses astonishing power. The sto-

mach of a calf will curdle nearly one thou-

sand times its own weight of milk. Baron

Liebig states that, "One part of Pepsin
