AN ARTIFICIAL DIGESTIVE

The subscriber now offers at private sale Fluid; or Gastric Juice A GREAT DISPEPSIA CURER! Prepared from Rennet, or the fourth Stomach of the Ox, after directions of Baron Lie.

big, the great Physiological Chemist, by J. S. Houghton. M. D., No. 11, North Eighth Street, Philadelphia, Pa. This is a truly wonderful remedy for In-digestion, Dyspensia, Jaundice, Liver Complaint, Constipation, and Debility. curing after Nature's own method, by Nature's own agent, the Gastric Juice. Half a teaspoonful of this Fluid, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours,

out of the stomach. Digestion. - Digestion is chiefly, per-formed in the stomach by the aid of a fluid which freely exudes from the inner cont of that organ, when in a state of health, called the Gastric Juice. This fluid is the Great Sovent of the Food, the Purifying, Preserving and Stimuating Agent of the stomach and intestines. Without it there will be no digestion -- no conversion of food into blood, and no nutrition of the body; but rather a foul, torpid, painful, and destructive condition of the whoe digestive apparatus. A weak, haf dead, or injured stomach produces no good Gastric Juice, and hence the

disease, distress and debility which ensue.

Pepsin and Rennet.—Pepsin is the chief element, or great digesting principle of the Gustric Juice. It is found in great abundance in the soid parts of the human stomach after death, and sometimes causes the stomach to digest itself, or eat itself up. It is also found in the stomach of animals. as the ox, calf, &c. It is the material used by farmers in making cheese, called Rennet, the effect of which has long been the special wonder of the dairy. The curdling of mik is the first process of digestion. Rennet possesses astonishing power. The stomach of a calf will curdle nearly one thousand times its own weight of milk. Baron Liebig states that, "One part of Pepsin dissolved in sixty thousand parts of water, will digest meat and other food." Diseased stomachs-produce-no-good-Gastric-Juice, Rennet or Pepsin. To show that this want may be perfectly supplied, we quote the

following Scientific Evidence!-Baron Liebig, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs. will be softened, changed, and digested, just in the same manner as they would be in the

human stomach." Dr. Pereira, in his famous treatise on Food and Diet," published by Wilson & Co., New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira Dr. John W. Draper, Professor of Che-

mistry in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "it has been a question whether artificial digestion could be performed-but it is now universally admitted that it may be." Professor Dunglison of Philadelphia, in his great work in Human Physiology, devotes more than fifty pages to an examina-

tion of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obware Br. Comp.failed tained from the living human stomach and from animals are well known. "In all cases," "he says" "digestion occurred as perfectly in the artificial as in the natural digestions." As a Dyspepsia Curer .- Dr. Houghton's preparation of Pepsin has produced the most marvellous effects, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the very verge of the grave. It is impossi-
