It is found in great abundance in the soid parts of the human stomuch after death, and sometimes causes the stomach to digest itself, or cat itself up. It is also found in the stomach of animals, as the ox, calf, &c. Scientific Evidence!-Baron Liebig, in his celebrated work on Animal Chemistry. says: "An Artificial Digestive Fluid may be readily prepared from the mucous mem-brane of the stomach of the Call in which various articles of food, as ment and eggs. will be softened, changed, and digested, just in the same manner as they would be in the

human sto:nach.'' Dr. Pereira, in his famous treatise on 'Food and Diet," published by Wilson & Co., New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authori-

ties than Dr. Pereira Dr. John W. Draper, Professor of Chemistry in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "it has been a question whether artificial digestion could be performed-but it is now universally ad-

His experiments with Dr. Beaumont, on the Gastric Juice, obplained from the living human stor Trenton bank. co. par from animals are well known. "In all cases,""he says" "digestion occurred as perfectly in the artificial as in the natural di-

As a Dyspepsic Curer .- Dr. Houghton's preparation of Pepsin has produced the most marvellous effects, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the very verge of the grave. It is impossible to give the details of cases in the limits of this advertisement - but authenticated certificates have been given of more than 200 Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures 35 were not only rapid and wonderful, but per-

A single dose removes all the unpleasant symptoms, and it only needs to be repeated, for a short time, to make these good effects permanent, purmy of blood and vigor of body, follow at once.
