Hope's Express.

Among the various Expresses that have recently extended their operations, and entered upon a new field of enterprise, we know none which is more hopeful than Hope's New Jersey and Pennsylvania Express, via Central Rail Road of New Jersey.

This road extends from New York to Easton, Pa., and runs through a splendid country—affording an avenue to the interior of Pennsylvania hitherto closed up. The superiority of this market for buying and selling goods is bringing a large amount of trade here, which formerly went to Philadelphia. The advantage of Hope's Express, by which merchandise of all descriptions can be forwarded promptly, when fully realized on the above route, will insure a complete success and prosperity. A. D. HOPE has made arrangements with the Central R. R. Co. and various Stage proprietors to sell Tickets through to Wilkes-Barre, Mauch Chunk, Reading, &c., at reduced fares.

Office of Hope's Express, in Allentown, at the Variety Store of AARON WINT, who will attend to the forwarding of all packages.

January 5, 1-1y

EMPORIUM OF FASHION!

Edward Stetter,

Takes this method to inform his friends and the public in general, that he has opened a new and fashionable

TAILORING ESTABLISHMENT, in Allentown, in the new building of Mr. Peter Weikel, corner of Market Square and Allen street, where he will be ready to receive those who may favor him with their custom, to whom he will feel grateful.

He is in the regular receipt of the Fashion Plates, after which he cuts and makes up; he superintends himself, and can therefore stand good for the work he turns out, and his prices will be cheaper than at any other establishment in town.

He returns his thanks to his old customers, and feels confident that the durability of his work and the moderate prices will induce a further continuance of their support.

November 24, 1852. 1-3m

Illustrated Magazine of Art.

In monthly Parts—25 cts. each.

Every arrangement has been made to produce a work of unparalleled magnificence, regardless of cost.

The editor, Mr. Cressel, has published a similar work in England during the past year under the title of "Illustrated Exhibitor and Magazine of Art," the circulation of which has averaged 60,000 each number.

Encouraged by the success which has attended this enterprise, he has resolved to present to the American public a magazine of still higher pretensions—one, indeed, which will prove the pictorial wonder of the age. Each number will consist of sixty-eight pages, royal octavo, printed on the finest paper. The illustrations will be entrusted to the first artists of the world.—Six monthly parts will form a handsome volume.

The work will be so conducted as to embrace the greatest variety of matter in its various departments, upon each of which the highest literary talent will be employed. The following is a brief outline of the plan of the Magazine:—

I. The Historical Department will abound with picturesque representations of the most remarkable events which have occurred in this and other countries; accompanied with interesting anecdotes and details from the pens of the most eminent writers of the day. This department will contain several splendid engravings, designed by the first artists of the world, engraved in the highest style of modern art.

II. The Men and Women of the Age. This department will consist of beautifully executed portraits of the leading characters of the age, especially of those who figure on the stage of humanity as the world's benefactors. Each portrait will be accompanied by an interesting biographical sketch.

III. The wonders of Natural History, Botany, and other sciences, will be developed in choice Engravings of Beasts, Birds, Fishes, Insects, Forest Trees, Flowers, Geological and Fossil specimens, &c., with accompanying descriptions.

IV. The triumphs of Architectural Art, will be displayed in exquisitely finished representations of Cathedrals, Churches, Palaces, and other models of ancient and modern Architectural Art.

V. The works of the Great Master, selected from the principal Galleries of Art in the world. In general the portrait of the Master will be given, accompanied with a highly finished, engraved copy of his chef-d'œuvre.

VI. The scientific portions will be rendered highly interesting by the familiar explanations, and the numerous diagrams, which will accompany each subject.

VII. Manufactures.—The principal Manufacturing processes in use will be fully explained by minute details, and an abundance of beautiful engravings.

IX. Ladies Work Table Department will contain a rich variety of elegant and original patterns for various kinds of useful and ornamental work, with ample directions for copying them.

X. The Literary department, independently of the various articles accompanying the illustrations, will comprise original and interesting narratives, contributed by the most popular writers of the day, with numerous illustrations.

In addition to the numerous and beautiful engravings incorporated in the letter-press, each number will contain four splendid engravings, and printed in a very superior manner upon superfine plate paper.

In every respect the *Illustrated Magazine of Art* will be decidedly superior to any pictorial magazine of the day. The paper, the typography, the engravings, the literary articles, will far surpass its successful predecessors published in England, upon which such high eulogiums have been pronounced by the whole public press. Six of the monthly portions, when completed, will form a volume, which, for interest, or originality, value and beauty, will defy composition. It will not only be an interesting family book, but a rich ornament for the drawing-room table, and a pleasant companion in the study.

TERMS \$3 a year; to clubs of three or more \$2 50.

If paid in advance for twelve months, it will be sent postage free to any part of the Union.

Agents Wanted in every town throughout the United States.

Any person receiving the first number, and canvassing with the same, will be certain of securing a large number of subscribers. No just conception can be formed of the elegance and beauty of the work from merely reading a printed prospectus. The illustrations contained in each number will entail a cost, in drawing and engraving, of \$2,500 of \$3,000.

All communications relating to the work, to be addressed to

ALEXANDER MONTGOMERY,
Publisher, 17 Spruce street, New York.
March 23, 1853. 1-4w

WANTED.

A good Cooper, with a family, to work himself and employ others to work for him in making Flour Barrels. None but good workman need apply, but to a good workman constant work and good pay will be guaranteed.

PRETZ, GUTH & CO.

January 2, 1853. 1-4w

Remedy for Consumption.

At Bethlehem, Pa., there can be had a certain and effectual remedy for Consumption, and all complaints of a Pulmonary nature. Also medicines which will cure Rheumatism, acute, chronic or inflammatory. Persons afflicted with any of the above complaints, by addressing a line to the undersigned, stating their case, or asking information respecting the medicine which promises so much, will be cheerfully answered and the desired information given.

HENRY GANGWER, Druggist,
March, 30, 1853. 1-6w

Portable Gas.

GAS has been acknowledged, from the time of its first introduction, to be the best material for light, its use being attended with no danger or trouble. But to bring it to the consumers by miles of conducting pipes and meters, makes it an article of luxury only attainable by a part of the community in large cities, who reside within the range of the main pipes. And even then, its high price exceeds all other burning material; and the greater part of the citizens cannot enjoy the benefit of gas light even by paying any price, not to mention the many accidents which happen by the use of turpentine and alcohol light. If the great expense of miles of main pipes could be avoided, gas would not cost half the price it now does.

Every man would burn it; and it would be promotive of family happiness, as the spirit of education and science has reached almost every house. The wife would enjoy the company of her husband, and be entertained by a fine story—from a book or newspaper; every corner might be occupied by children learning their lessons; ladies at the piano would not dispense with a gas light, if once used, and all this can be done with one gas-light, at the cost of half a cent an evening.

To effect this, gas must be made portable. Experiments have been made to compress it from 13 to 1 part in volume, but it was found impossible to regulate the pressure, and was very dangerous on account of the liability to explosion. But by a far safer and more simple apparatus in every consumer's cellar—a tub with water, a tin or sheet iron kettle, 10 or 15 feet of pipe, and a burner in the lower story put up in a proper manner—every man can light up two rooms; and in the same manner the whole house may be lighted from the cellar. The gas-wagon stops at the front door, the manufacturer runs an India-rubber pipe through the cellar-hole or door, attaches it, and fills the apparatus without any trouble or notice to the consumer.

In this manner, a small capital invested will enable almost any community, village, or town to erect a concern to supply gas at a price lower than any other burning material can be furnished. All who take an interest in the subject, or would like to have gas works erected in this manner, will please address

W. F. DANOWSKY M. D.,
March 9, 1853. 1-3m

Co-Partnership Notice.

The subscribers have entered into Co-partnership on the 3d instant, in the Livery Business, under the firm of HOFFMAN and SEGFRIED. Their establishment is found in William street, a few doors below Pretz, Guth & Co's store. They are prepared with handsome vehicles of every description, and safe horses, and will be prepared at all times to attend and accommodate those who may favor them with their custom.

THOMAS P. HOFFMAN,
JESSE SEGFRIED.

Allentown, January 12. 1-7w

BALE HOTEL.

The subscriber respectfully informs his friends and the public generally, that he has taken the newly erected three story brick tavern of Jesse Grubb, in the Borough of Allentown, called

THE EAGLE HOTEL.

The House is known as one of the most spacious and convenient in the State—nearly 44 rooms. He therefore feels assured that he can accommodate satisfactorily all who may favor him with a call.

His TABLE shall at all times be supplied with the best of the season and the market afford, and the BAR with the choicest Wines and Liquors.

The Beds and Bedding, together with all his furniture being entirely new, the patrons of this house may rely upon finding those two great essentials—cleanliness and comfort.

The Stabling is large and commodious, and as he will have no kind and attentive Ostlers a due regard will be had to the proper entertainment of the House as well as his master.

In short, the subscriber intends to spare neither pains nor expense to keep his house in the best manner, and he therefore respectfully invites the public to give him a liberal share of patronage.

BOARDERS will be taken on reasonable terms, and as the rooms are spacious and well adapted to their wants, they can be accommodated in a satisfactory manner. Families from town or county accommodated with Boarding.

JAMES W. ESBACH,
Allentown, Nov. 24, 1852. 1-3m

C. M. Runk, Attorney at Law.

Has resumed the practice of his profession in Allentown.

He may be consulted in the German and English languages.

August 12, 1852. 1-1y

Doctor William J. Romig.

Having returned to Allentown, offers his professional services to his friends and the public: Office at his residence, in Hamilton street, south side, first corner below Pretz, Guth & Co's Store, in Allentown.

Country merchants and others, are hereby notified, that the far famous Pills of Doctors William A. Wright, and Benjamin Brandreth, are constantly kept for sale at the office of the "Lehigh Register" by the dozen boxes at wholesale prices.

July 6, 1-6m

PEPSIN!

AN ARTIFICIAL DIGESTIVE Fluid, or Gastric Juice!

A GREAT DISPEPSIA CURE!

Prepared from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., No. 11, North Eighth Street, Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, curing after Nature's own method, by Nature's own agent, the Gastric Juice.

Half a teaspoonful of this Fluid, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours out of the stomach.

Digestion.—Digestion is chiefly performed in the stomach by the aid of a fluid which freely exudes from the inner coat of that organ, when in a state of health, called the Gastric Juice. This fluid is the Great Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the stomach and intestines. Without it there will be no digestion—no conversion of food into blood, and no nutrition of the body; but rather a foul, torpid, painful, and destructive condition of the whole digestive apparatus. A weak, bad fed, or injured stomach produces no good Gastric Juice, and hence the disease, distress and debility which ensue.

Pepsin and Rennet.—Pepsin is the chief element, or great digesting principle of the Gastric Juice. It is found in great abundance in the solid parts of the human stomach after death, and sometimes causes the stomach to digest itself, or eat itself up. It is also found in the stomach of animals, as the ox, calf, &c. It is the material used by farmers in making cheese, called Rennet, the effect of which has long been the special wonder of the dairy. The curdling of milk is the first process of digestion. Rennet possesses astonishing power. The stomach of a calf will curdle nearly one thousand times its own weight of milk. Baron Liebig states that, "One part of Pepsin dissolved in sixty thousand parts of water, will digest meat and other food." Diseased stomachs produce no good Gastric Juice, Rennet or Pepsin. To show that this want may be perfectly supplied, we quote the following

Scientific Evidence!—Baron Liebig, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Wilson & Co., New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira

Dr. John W. Draper, Professor of Chemistry in the Medical College of the University of New York, in his "Text Book of Chemistry," page 356, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Professor Duglison of Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

As a Dyspepsia Curer.—Dr. Houghton's preparation of Pepsin has produced the most marvellous effects, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the very verge of the grave. It is impossible to give the details of cases in the limits of this advertisement—but authenticated certificates have been given of more than 200 Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent.

It is a great Nervous Antidote, and from the astonishingly small quantity necessary to produce healthy digestion, is believed to act upon

Electro-Magnetic Principles!—There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives instant relief! A single dose removes all the unpleasant symptoms, and it only needs to be repeated, for a short time, to make these good effects permanent, purity of blood and vigor of body, follow at once. It is particularly excellent in cases of Nausea, Vomiting, Cramps, Soreness of the pit of the Stomach, distress after eating, low, cold, state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Price one dollar per bottle. One bottle will often effect a lasting cure.

PEPSIN IN POWDERS, Sent by Mail, Free of Postage. For convenience of sending to all parts of the country, the Digestive matter of the pepsin is put up in the form of Powders, with directions to be dissolved in diluted alcohol, water, or syrup, by the patient. These powders contain just the same matter as the bottles, but twice the quantity for the same price, and will be sent by mail, free of Postage, for one dollar sent (postpaid) to Dr. J. S. Houghton, No. 11 North Eighth street, Philadelphia, Pa.

Six packages for five dollars. Every package and bottle bears the written signature of J. S. Houghton, M. D., Sole Proprietor.

Agents wanted in every town in the United States. Very liberal discounts given to the trade. Druggists, Postmasters, and Booksellers are desired to act as agents.

August 9 1-1y

Exchange Office.

The undersigned respectfully inform the public, that they have on the 1st day of January, 1853, entered into partnership, under the firm of William H. Blumer & Co., and opened an Office at the Odd Fellows' Hall, in the Borough of Allentown, where they are prepared to attend to all manner of Bank business between Allentown and Easton, and will transmit money, in the shape of Drafts, to all parts of the United States securely, with the utmost speed and promptness.

Having also made arrangements with Foreign business houses, of the same kind, they are enabled to make payments in every part of Europe, and draw money from the same source, by means of Power of Attorney, the writing of which will be attended to at their office.

For monies deposited with them for a special time, they will pay interest.
