Good Horses and Safe Vehicles!

Allentown Livery Establishment.

THE subscribers take this method to inform their friends and the public in general, that they have entered into partnership in the Livery Business, in the stable formerly owned by George Beisel. They have an entire new stock of

HORSES, CARRIAGES, &c.

Their Horses are gentle and all good travellers; their vehicles mostly new and of the latest style, and such as have been used are repaired and repainted in the best manner. They continue the business at the old stand in William street, in the Borough of Allentown.

They will always be prepared to furnish their customers at the shortest possible notice with safe and gentle horses, good carriages and careful drivers if requested.

Families can be suited at all times with vehicles to their particular taste.

Their charges are reasonable, and in order to continue their high credit they heretofore gained of being the "best livery establishment in Allentown," they will leave nothing undone to keep on hand the best and safest horses, the neatest and most splendid carriages, and sober and careful drivers.

Their charges are very reasonable and hope by strict attention to business to satisfy all those who may favor them with their custom. T. P. HOFFMAN, JESSE SIEGFRIED.

EMPORIUM OF FASHION!

Edward Stetter,

Takes this method to inform his friends and the public in general, that he has opened a new and fashionable TAILORING ESTABLISHMENT, in Allentown, in the new building of Mr. Peter Weikel, corner of Market Square and Allan street, where he will be ready to receive those who may favor him with their custom, to whom he will feel grateful.

He is in the regular receipt of the Fashion Plates, after which he cuts and makes up; he superintends himself, and can therefore stand good for the work he turns out, and his prices will be cheaper than at any other establishment in town.

He returns his thanks to his old customers, and feels confident that the durability of his work and the moderate prices will induce a further continuance of their support.

November 24, 1852.

Illustrated Magazine of Art.

In monthly Parts—25 cts. each. Every arrangement has been made to produce a work of unparalleled magnificence, regardless of cost.

The editor, Mr. Cressel, has published a similar work in England during the past year under the title of "Illustrated Exhibitor and Magazine of Art," the circulation of which has averaged 60,000 each number.

Encouraged by the success which has attended this enterprise, he has resolved to present to the American public a magazine of still higher pretensions—one, indeed, which will prove the pictorial wonder of the age. Each number will consist of sixty-eight pages, royal octavo, printed on the finest paper. The Illustration will be entrusted to the first artists of the world. Six monthly parts will form a handsome volume.

The work will be so conducted as to embrace the greatest variety of matter in its various departments, upon each of which the highest literary talent will be employed. The following is a brief outline of the plan of the Magazine:—

I. The Historical Department will abound with picturesque representations of the most remarkable events which have occurred in this and other countries; accompanied with interesting anecdotes and details from the pens of the most eminent writers of the day. This department will contain several splendid engravings, designed by the first artists of the world, engraved in the highest style of modern art.

II. The Men and Women of the Age. This department will consist of beautifully executed portraits of the leading characters of the age, especially of those who figure on the stage of humanity as the world's benefactors. Each portrait will be accompanied by an interesting biographical sketch.

III. The wonders of Natural History, Botany, and other sciences, will be developed in choice Engravings of Beasts, Birds, Fishes, Insects, Forest Trees, Flowers, Geological and Fossil specimens, &c., with accompanying descriptions.

IV. The triumphs of Architectural Art, will be displayed in exquisitely finished representations of Cathedrals, Churches, Palaces, and other models of ancient and modern Architectural Art.

V. The works of the Great Master, selected from the principal Galleries of Art in the world: In general the portrait of the Master will be given, accompanied with a highly finished, engraved copy of his chef-d'œuvre.

VI. The scientific portions will be rendered highly interesting by the familiar explanations, and the numerous diagrams, which will accompany each subject.

VII. Manufactures. The principal Manufacturing processes in use will be fully explained by minute details, and an abundance of beautiful engravings.

VIII. Ladies Work Table Department will contain a rich variety of elegant and original patterns for various kinds of useful and ornamental work, with ample directions for copying them.

X. The Literary department, independently of the various articles accompanying the illustrations, will comprise original and interesting narratives, contributed by the most popular writers of the day, with numerous illustrations.

In addition to the numerous and beautiful engravings incorporated in the letter-press, each number will contain four splendid engravings, and printed in a very superior manner upon superfine plate paper.

In every respect the Illustrated Magazine of Art will be decidedly superior to any pictorial magazine of the day. The paper, the typography, the engravings, the literary articles, will far surpass its successful predecessors published in England, upon which such high eulogiums have been pronounced by the whole public press. Six of the monthly portions, when completed, will form a volume, which, for interest, or originality, value and beauty, will defy composition. It will not only be an interesting family book, but a rich ornament to the drawing-room table, and a pleasant companion in the study.

TERMS \$3 a year; to clubs of three or more \$2 50. If paid in advance for twelve months, it will be sent postage free to any part of the Union.

Agents Wanted in every town throughout the United States. Any person receiving the first number, and canvassing with the same, will be certain of securing a large number of subscribers. No just conception can be formed of the elegance and beauty of the work from merely reading a printed prospectus. The illustrations contained in each number will entail a cost, in drawing and engraving, of \$2,500 of \$3,000.

All communications relating to the work, to be addressed to ALEXANDER MONTGOMERY, Publisher, 17 Spruce street, New York. March 23, 1853.

WANTED.

A good Cooper, with a family, to work himself and employ others to work for him in making Flour Barrels. None but good workman need apply, but to a good workman constant work and good pay will be guaranteed.

PRETZ, GUTH & CO. January 2, 1853.

Remedy for Consumption.

At Bethlehem, Pa., there can be had a certain and effectual remedy for Consumption, and all complaints of a Pulmonary nature. Also medicines which will cure Rheumatism, acute, chronic or inflammatory. Persons afflicted with any of the above complaints, by addressing a line to the undersigned, stating their case, or asking information respecting the medicine which promises so much, will be cheerfully answered and the desired information given.

HENRY GANGWER, Druggist. March 30, 1853.

PEPSIN!

AN ARTIFICIAL DIGESTIVE Fluid, or Gastric Juice! A GREAT DISPEPSIA CURER!

Prepared from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., No. 11, North Eighth Street, Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, curing after Nature's own method, by Nature's own agent, the Gastric Juice.

Half a teaspoonful of this Fluid, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours out of the stomach.

Digestion.—Digestion is chiefly performed in the stomach by the aid of a fluid which freely exudes from the inner coat of that organ, when in a state of health, called the Gastric Juice. This fluid is the Great Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the stomach and intestines. Without it there will be no digestion—no conversion of food into blood, and no nutrition of the body; but rather a foul, torpid, painful, and destructive condition of the whole digestive apparatus. A weak, bad, or injured stomach produces no good Gastric Juice, and hence the disease, distress and debility which ensue.

Pepsin and Rennet.—Pepsin is the chief element, or great digesting principle of the Gastric Juice. It is found in great abundance in the solid parts of the human stomach after death, and sometimes causes the stomach to digest itself, or eat itself up. It is also found in the stomach of animals, as the ox, calf, &c. It is the material used by farmers in making cheese, called Rennet, the effect of which has long been the special wonder of the dairy. The curdling of milk is the first process of digestion. Rennet possesses astonishing power. The stomach of a calf will curdle nearly one thousand times its own weight of milk. Baron Liebig states that, "One part of Pepsin dissolved in sixty thousand parts of water, will digest meat and other food." Diseased stomachs produce no good Gastric Juice, Rennet or Pepsin. To show that this want may be perfectly supplied, we quote the following:

Scientific Evidence!—Baron Liebig, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Wilson & Co., New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. John W. Draper, Professor of Chemistry in the Medical College of the University of New York, in his "Text Book of Chemistry," page 356, says, "it has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Professor Duglison of Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach, and from animals are well known. "In all cases," "he says" "digestion occurred as perfectly in the artificial as in the natural digestions."

As a Dyspepsia Curer.—Dr. Houghton's preparation of Pepsin has produced the most marvellous effects, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the very verge of the grave. It is impossible to give the details of cases in the limits of this advertisement—but authenticated certificates have been given of more than 200 Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent.

It is a great Nervous Antidote, and from the astonishingly small quantity necessary to produce healthy digestion, is believed to act upon

Electro-Magnetic Principles!—There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives instant relief! A single dose removes all the unpleasant symptoms, and it only needs to be repeated, for a short time, to make these good effects permanent, purity of blood and vigor of body, follow at once. It is particularly excellent in cases of Nausea, Vomiting, Cramps, Soreness of the pit of the Stomach, distress after eating, low, cold, state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Price one dollar per bottle. One bottle will often effect a lasting cure.

PEPSIN IN POWDERS.

Sent by Mail, Free of Postage. For convenience of sending to all parts of the country, the Digestive matter of the pepsin is put up in the form of Powders, with directions to be dissolved in diluted alcohol, water, or syrup, by the patient. These powders contain just the same matter as the bottles, and twice the quantity for the same price, and will be sent by mail, free of Postage, for one-dollar sent (postpaid) to Dr. J. S. Houghton, No. 11 North Eighth street, Philadelphia, Pa.

Six packages for five dollars. Every package and bottle bears the written signature of J. S. Houghton, M. D., Sole Proprietor.

Agents wanted in every town in the United States. Very liberal discounts given to the trade. Druggists, Postmasters, and Booksellers are desired to act as agents.

August 9

EAGLE HOTEL.

The subscriber respectfully informs his friends and the public generally, that he has taken the newly erected three story brick tavern of Jesse Grim, at the north west corner of Market Square, in the Borough of Allentown, called

THE EAGLE HOTEL.

The House is known as one of the most spacious and convenient in the State—none more so out of Philadelphia—and contains 44 rooms. He therefore feels assured that he can accommodate satisfactorily all who may favor him with a call.

His TABLE shall at all times be supplied with the best the season and the markets afford, and the Bar with the choicest Wines and Liquors.

The Beds and Bedding, together with all his furniture being entirely new, the patrons of this house may rely upon finding those two great essentials—cleanliness and comfort.

The Stabling is large and commodious, and as he will have none but kind and attentive Ostlers a due regard will be had to the proper entertainment of the House as well as his master.

In short, the subscriber intends to spare neither pains nor expense to keep his house in the best manner, and he therefore respectfully invites the public to give him a liberal share of patronage.

BOARDERS will be taken on reasonable terms, and as the rooms are spacious and well adapted to their wants, they can be accommodated in a satisfactory manner. Families from town or county accommodated with Boarding.

JAMES W. ESBACH. Allentown, Nov. 24, 1852.

Hope's Express.

Among the various Expresses that have recently extended their operations, and entered upon a new field of enterprise, we know none which is more hopeful, than Hope's New Jersey and Pennsylvania Express, via Central Rail Road of New Jersey.

This road extends from New York to Easton, Pa., and runs through a splendid country—affording an avenue to the interior of Pennsylvania hitherto closed up. The superiority of this market for buying and selling goods is bringing a large amount of trade here, which formerly went to Philadelphia. The advantage of Hope's Express, by which merchandise of all descriptions can be forwarded promptly, when fully realized on the above route, will insure a complete success and prosperity. A. D. Hope has made arrangements with the Central R. R. Co. and various Stage proprietors to sell Tickets through to Wilkesbarre, Mauch Chunk, Reading, &c., at reduced fares.

Office of Hope's Express, in Allentown, at the Variety Store of AARON WINT, who will attend to the forwarding of all packages.
