Wm. S. Weil, No. 30, West Hamilton Street, ALLENTOWN.

Inform his friends and the public in general that he has lately removed his establishment to the three story building, on the North side of West Hamilton street, No. 39, a few doors East of Hagenbuch's Hotel, where he is at present opening, and will always keep on hand, a large and beautiful assortment of new and

Fashionable Jewelry, Violins, Violin Strings, Buttons of all descriptions, French and Domestic Suspensers, Whalebone, Combs of all kinds, plain and ribbed Percussion Caps, Linen and Cotton Tapes, Hooks and Eyes, Stay Bindings, Laces, Edging, Bobinet, Col-lars of all descriptions, Ladies Dress Trimmings, Knitting Pins, German Pine, Patent Thread, Needles, Spool Cotton of different make, all kinds of Fancy Soaps, and Perfumery, Razors and Razor Straps, Pocket Knives, Scissors, Lead Pencils, Slate Pencils, Britannia & best Silver Plated Spoons, and Sewing Silks.

He also just received 100 cases of his superior friction Matches, which are so extensively known throughout this county and which he will sell as cheap if not cheaper than they can be bought elsewhere.

The friends of Music will take notice that he sells Musical instruments either by the dozen or by the piece.

Country Merchants will bear in mind, that he will always keep on hand a large assortment of the above mentioned articles and many more which are too tedious to mention in this catalogue.

The above articles will be sold wholesale at prices as cheap as they can be purchased either in Philadelphia or New York, and to convince his country friends of this fact it is only necessary for them to call and examine his stock of goods and price them.

Mr. Weil, hopes by punctual attendance to business, and by adopting the motto, of "small profits and quick sales" he will secure a liberal share of public patronage.

WILLIAM S. WEIL, April 20, 1853.

Pelton's System of Geography Splendid Outline Maps.

This system of teaching Geography is rapidly becoming introduced in all the schools throughout the country. The series consists of seven maps, each covering about fifty square feet, boldly delineated, brilliantly colored, varnished and mounted, and forming the most magnificent, as well as the most useful part of the furniture of the school room.

Pelton's Key to Hemispheres.

This is intended for the use of pupils commencing the study, and a good knowledge of the Geography of the world may be obtained from it.

Pelton's Key to Full Series.

Containing a minute description of each state and country, the political and physical features of the earth, &c., forming a complete epitome of the whole subject. Where these keys are used in connection with the maps, no other work is necessary in the hands of the pupil, and their cost is about one third the usual price of a Geography and Atlas.

Wherever this system has been tried, it has excited the admiration of all who witnessed it, and we might fill a volume with the testimonials received in its favor. We append but one.

READING, March 1853.

Believing the introduction of Pelton's system of teaching Geography by the use of his series of Outline Maps, into the schools of our city, would enable the pupils to acquire a better, more lasting, and more practical knowledge of that science, than is generally acquired, and in one fourth of the time usually devoted to that study, the undersigned, Teachers in Reading, most cheerfully recommend it to the Directors of the different wards, for their adoption.

Portable Gas.

GAS has been acknowledged, from the time of its first introduction, to be the best material for light, its use being attended with no danger or trouble. But to bring it to the consumers by miles of conducting pipes and meters, makes it an article of luxury only attainable by a part of the community in large cities, who reside within the range of the main pipes. And even then, its high price exceeds all other burning material; and the greater part of the citizens cannot enjoy the benefit of gas light even by paying any price, not to mention the many accidents which happen by the use of turpentine and alcohol light. If the great expense of miles of main pipes could be avoided, gas would not cost half the price it now does. Every man would burn it and it would be promotive of family happiness, as the spirit of education and science has reached almost every house. The wife would enjoy the company of her husband, and be entertained by a fine story from a book or newspaper; every corner might be occupied by children learning their lessons; ladies at the piano would not dispense with a gas light, if once used, and all this can be done with one gas-light, at the cost of half a cent an evening. To effect this, gas must be made portable. Experiments have been made to compress it from 13 to 1 part in volume, but it was found impossible to regulate the pressure, and was very dangerous on account of the liability to explosion. But by a far simpler and more simple apparatus in every consumer's cellar—a tub with water, a tin sheet iron kettle, 10 or 15 feet of pipe, and a burner in the lower story put up in a proper manner—every man can light up two rooms; and in the same manner the whole house may be lighted from the cellar. The gas-wagon stops at the front door, the manufacturer runs an India-rubber pipe through the cellar-hole or door, attaches it, and fills the apparatus without any trouble or notice to the consumer.

In this manner, a small capital invested will enable almost any community, village, or town to erect a concern to supply gas at a price lower than any other burning material can be furnished. All who take an interest in the subject, or would like to have gas works erected in this manner, will please address.

Good Horses and Safe Vehicles!

Attention. Livery Establishment.

THE subscribers take this method to inform their friends and the public in general, that they have entered into partnership in the Livery Business, in the stable formerly owned by George Beisel. They have an entire new stock of

HORSES, CARRIAGES, &c.

Their Horses are gentle and all good travellers; their vehicles mostly new and of the latest style, and such as have been used are repaired and repainted in the best manner. They continue the business at the old stand in William street, in the Borough of Allentown.

They will always be prepared to furnish their customers at the shortest possible notice with safe and gentle horses, good carriages and careful drivers if requested.

Families can be suited at all times with vehicles to their particular taste.

Their charges are reasonable, and in order to continue their high credit they heretofore gained of being the "best livery establishment in Allentown," they will leave nothing undone to keep on hand the best and safest horses, the neatest and most splendid carriages, and sober and careful drivers.

Their charges are very reasonable and hope by strict attention to business to satisfy all those who may favor them with their custom.

PEPSIN!

AN ARTIFICIAL DIGESTIVE Fluid, or Gastric Juice! A GREAT DISPEPSIA CURER!

Prepared from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., No. 11, North Eighth Street, Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, curing after Nature's own method, by Nature's own agent, the Gastric Juice.

Half a teaspoonful of this Fluid, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours out of the stomach.

Digestion.—Digestion is chiefly performed in the stomach by the aid of a fluid which freely exudes from the inner coat of that organ, when in a state of health, called the Gastric Juice. This fluid is the Great Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the stomach and intestines. Without it there will be no digestion—no conversion of food into blood, and no nutrition of the body; but rather a foul, torpid, painful, and destructive condition of the whole digestive apparatus. A weak, flat head, or injured stomach produces no good Gastric Juice, and hence the disease, distress and debility which ensue.

Pepsin and Rennet.—Pepsin is the chief element, or great
