

age with De Grange. A suit was brought for this purpose in the civil courts of the Territory, and judgement was obtained against De Grange. In the meantime, Clark had advanced in years and honors. The gallant youth of 1802 had become the ambitious politician and millionaire. As the popular man of a powerful party, he was sent a delegate of the Territory to Congress. Here he soon forgot the poor Creole girl, and began to meditate a more brilliant marriage connection. The object of this aspiration was the lovely Miss Caton, of Maryland, a grand-daughter of Charles Carroll, of Carrollton, who afterwards became the Marchioness of Walsley. She was a great belle, and Clark's fine manners distinguished position, and great wealth, no doubt, rendered him quite a desirable match for so brilliant and accomplished a beauty. They were engaged; but some stories of his enemies caused a sudden termination of their relations. On hearing of his courtship of Miss Caton, the unfortunate Zulime again went to Philadelphia to procure proofs of her marriage with Clark. But alas! Clark it was alleged, under the influence of a reckless ambition, had made way with those proofs; poor Zulime again found herself the victim of man's treachery. In a feeling of desertion and helplessness, alone among strangers, whose language and habits were foreign to her, she accepted the hand of Dr. Gardette, who generously and magnanimously, relying on her truth and sincerity, united his fate and fortune with hers. From that period her life flowed smoothly on in the discharge of her duties as a wife and mother.

Shortly after her marriage with Gardette, Clark had suffered his severe rebuff from the lovely Miss Caton. In a spirit of true penitence, he hurried to Philadelphia, saw Zulime, and declared his determination to proclaim their marriage. But it was too late. She informed him that she was Mrs. Gardette. Clark was deeply distressed at this, and exhibited a sincere penitence. He sought to atone for his desertion of the mother, by kindness to the daughter, who was born in 1806, of this secret marriage. This was Myra Clark. She was placed in charge of an intimate friend of Clark, Colonel Davis, who raised and educated her as his own daughter. It was not until she had reached maturity that Myra discovered the secret of her history. Since then, as Mrs. Whitney and as Mrs. Gaines, she has prosecuted her claim to the property of Daniel Clark, as his lawful heir, with a zeal, earnestness, and energy, which have rarely been equalled in the annals of litigation. The difficulty has been to establish the marriage between Zulime and Daniel Clark. Certainly, a mystery has long hung over this case, which only the dead could rise from their graves and satisfactorily determine.

The once lovely Zulime, passing through so many reverses and misfortunes, returned in her old age, to New Orleans—her old home—and passed a peaceful and happy life, in the family of her son, respected and beloved for her many virtues. She died at the age of seventy-eight, the youngest of her family—two of her sisters having attained their ninetieth year.

The Premium Reports.

A large space of our paper this week is taken up by the reports of the different awarding committees of the "Lehigh County Agricultural Society's Fair." It is at this time more anxiously looked for than any thing else we might give, and will too be read with more interest. We are sorry, however, that so many articles have escaped the notice of the committees. The large number of spectators, made it a very difficult matter for the committees to come together. Next year a different mode must be adopted in order to do full justice to exhibitors.

Barn Destroyed by Fire

On Monday evening, the 31st instant, shortly after Mr. George Rosenberger, a resident of Hanover township, Lehigh county, between Rittersville and Bethlehem, had left his place, on a visit to a neighbors' house, his barn was destroyed by fire, together with a large quantity of hay, grain &c. A very valuable horse, that was in the stable burned to death. Suspicion rests upon a stranger, who had been looking about the premises, and had threatened to fire the property of Mr. Rosenberger. Since writing the above we learn, that a German is lodged in Jail, charged with the crime. Next court will examine into the facts of the case, and if guilty ought to be severely punished. The property we believe was not insured. The loss must be very considerable.

Capital for the Young.

It is a consolation for all right-minded young men in this country, that though they may not be able to command as much pecuniary capital as they would wish to command in business themselves, yet there is a moral capital which they can have, that will weigh as much as money with people whose opinion is worth having. And it does not take a great while to accumulate a respectable amount of this capital. It consists in truth, honesty and integrity; to which may be added decision, firmness, courage and perseverance. With these qualities, there are few obstacles which may not be overcome. Friends spring up and surround such a young man almost as if by magic. Confidence flows out to him, and business accumulates on his hands faster than he can ask it. And in a few short years such a young man is far in advance of many who started with him, having equal talents and larger pecuniary means are long our young friend stands foremost the honored, trusted, and loved. Would that we could induce every youthful reader to commence life on the principle that moral capital is the main thing after all!

No. 11. The exhibition in the Poultry department is very full and satisfactory, showing a vast improvement since our last annual meeting. No. 12.—We the undersigned Committee on Dairy and Honey, beg leave to report as follows:

The articles of Butter, Cheese and Honey, we

are sorry to say was not what we had reason to expect. In a section of country where the soil is rich, with a proportionate part of high and low land, excellent meadows, all so well adapted for this particular branch of home industry, it ought to be more extensively introduced. We expected at least to meet with the products of a number of competitors, at regards the article of Butter, there being but one display we award.

To Joseph Wint, of Upper Saucon, a premium of one dollar for a prime article of butter.

These we are sorry to say none was exhibited, another year however, will induce some to become competitors in this article.

No. 13.—We the undersigned Committee on Fruit, do respectfully report as follows:

The Fruit on exhibition is of a high character and very creditable, although the varieties are not so numerous as might have been expected. There were very few Fall and Winter apples on exhibition, which is to be regretted, as they are a very desirable and useful commodity for family use. We would respectfully recommend to the farmers of this county to pay more attention to that branch of Horticulture. The committee is however aware that some very superior apples and other Fruits are cultivated to some extent in our county, but find, that growers evince a timidity to exhibit their fruit, to which we would strongly urge them, as none but salutary benefits for the public in general would thereby be obtained.

After a careful examination of the fruits on exhibition, we award the following Premiums:

232. Golden Pippin Apple, first Premium, Jacob Ruhe.—Do. Second best display of Apples, Diploma, Jacob Ruhe.—150. Isabella Grapes, Quality No. 3,
