News from Utah.

We have dates from polygamon Utah, 40 days later. The many-wived had a meeting on the last day of January and expressed themselves favorable to the immediate construction of a Pacific Railroad. Col. Babbitt was dispatched two days after to bear the resolutions to Washington. The immigration to the Salt Lake country during the year has been not less than 10,000. A of taxes still due \$16.989. The Legislature, to procure a supply of fuel for the Saints, offers a reward of \$1000 to any resident who will discov. er a good coal mine not less than a foot and a half thick, and within forty miles of the Capital. The same body has enacted that all questions of law shall be decided by the Court; that no laws shall be cited during a trial except United States and Utah laws, and that no decision or so forth, nt any trial, shall be held as a precedent on any other trial! They have adopted a new alphabet having 28 letters in it, which are intended to represent as many sounds. It will be used in the Schools so soon as they can get type for it, though it is not intended to abolish immediately our vencrable old alnhabet.

The clergy tell some hard stories. One of them speaking of California, says: "A saint of God may put all the advantages of climate, timber, soil, trade and money together in the world, and he could not live under that Government." One tells about laving hands on a child so sick that they thought it dead, and it breathed again and was playing in the streets the next day. One (an Elder,) writing from Bombay, says that he, by a prayer, changed a terrible storm at sea into a great calm; and then cured cholera, blindness, acquitted. and palsy by laying hands on the patients; and several of them tell stories that are not equalled clse where than in the advertisements of quack pills and panaceas. Brigham is in as good spirits as ever, talks very plainly to the saints for their lakewarmness about bringing in their tithes and suggests that the last revelation he has had for them was a command that the lazy fellows who go scouring over the country hunting and loafing, should bring in their horses and some 500 voke of oxen, to the treasury of the temple.

Col. Bahbitt started for the East. He had been out but a week, when suddenly he came upor the exploring party of Col. Frement. The fearless explorer had lost seven of his men by star vation and exposure. When Babbitt came up he found them subsisting on a dog and a single pint of flour. One had dropped dead from his horse that night, poor fellow, riding to the last minute. They had just waded out of snow six feet deep, and were in a foot of snow when over. taken. The whole party numbered fifteen-eight of them Indians. Thinking to find game plenty, they had taken but little flour; but game was not disposed to give up, however. He took course. Col. Babbitt brings letters from him to .Col Beston, and memoranda from the lost Gunuison.

Wife Wanted to go to Mississippi. The editor of the New York Brother Jonathan has received a lover from a gentleman in Mississippi (a planter in good circumstances,) who desires that he shall insert in his behalf an advertisement for a wife, and we comply with his request. He describes himself as a wid wer 35 years old, 5 feet 9 inches high-weighs 140 to 150 pounds-black hair, inclined to be gray -is a man of good education, and has studied law and medicine. He has an only child, a daughter-pretty looking, smart and interesting; he says "she is the sweetest little girl in the world." domestic woman, accustomed to household duties, and who could love and respect her husband above all things, and be willing that he should rule the household, would find in the advertiser a gentle and agreeable companion. He is willing to give proofs of his attachment and devotion to his first wife, who died less than a year ago. He is of the Baptist persuation, and would prefer a lady of the same religion, as it is necessary his daughter should be brought up in the fear of the Lord. As regards property, he wants none for himself, but it would be desirable that his wife should possess something in her own right to be used by herself as she pleases. It is hoped that no lady will answer this advertisement unless she, too, is in earnest, and possesses a good share of the above described qualifications. All letters must be post-paid, and addressed under cover to B. H. DAY, 48 Beekman, street, New York, by whom they will be promptly forwarded to the advertiser. They can be sent sealed, ready for direction; or Mr. Day will forward the gentleman's address to parties who prefer to send their letters direct to him in Mississippi.

Secreted Passengers for California .- The steam. ers Northern Light and North Star, which sailed from New York on Wednesday, found, on reach, ing the Highlands, a number of passengers on board who had not paid their passage, and probably had no intention of doing so, as they were found stowed away among the freight. Nineteen of this description were sent ashore in the pilot boat. It is said a portion appeared to be quite respectable, and among them were three ladies, one of whom said she was seeing some friends off, and the steamer started before she could get ashore.

Government Clerks.-There are employed in the different Executive Departments 737 clerks, who are divided into four classes as follows: The first class receiving \$900; the second class \$1,200; the third class \$1,500; and the fourth class\$ 1,800 per annum.

Unsuccessful Attempt to Murder.

We learn from the Vernon Transcript, that Mr. Paul Guiger, a worthy citizen of the town of Vernon, while on his way from Syracuse to Man. lius, in Onondaga county, the first of last week observed a man to be coming out of the woods which skirted the road, swinging carelessly a a pocket hankerchief which seemed to contain | der. both of Lower Macungy. some weight in the end. He therefore took his knife out of his pocket, and finding it in order kept it in

his hand. The fellow walked quite fast, still swinging his hankerchief, and as he gained upon him, Mr. G. stepped aside and let him pass. Immediately after the fellow slackened his pace, so much so that with very slow walking, Mr. G. found he was gaining upon him again. He therefore was in the act of passing him again, when the fellow with a sudden jerk of the handkerchief, struck at Mr. G., hitting him upon the back side of the neck, evidently aiming at his head. Mr. G., im. mediatly on feeling the blow, fetched his hand containing the knife around suddenly, and struck the fellow upon the back of the neck, inflicting a frightful would and killing him instantly.

Mr. G. hurried to the next house, informing he inhabitants of what he had done, and giving himself up to the authorities. They found upon the person of the fellow, two revolvers and a slung shot in the handkerchief. A coroner's inquest was held, and the circumstances corroborating the statement of Mr. G., he was honorably

Revolutionary Veteron .- The Springfield Republican publishes an interesting statement respecting a venerable survivor of the Battle of Bunker Hill, resident in the town of Worthington, Mass. His name is Samuel Follett. He was born in Attleborrough, Bristol county, in this State, in the year 1727, and consequently was but 17 years of age at the battle of bunker Hill, and is now in his 97th year. He was living in the town of Swanzey, N. H., at the time of the first enlistment in the regiment commanded by Col Reed, of Fitzwilliam. He joined the army paged 2 years. twice afterwards during the Revolution, once under Captain Harrington, of Holden, and again under Captain Grout, of Worchester.
