

Laying of a Corner Stone.

On Thursday afternoon last, the Corner Stone of the New Methodist Episcopal Church was laid in Bethlehem, between Market and Church Streets. The Ceremony commenced at 4 o'clock P. M. Rev. Mr. Campman, of the Moravian Church, being present, opened with prayer, after which a very able and impressive sermon was preached by Rev. Mr. Ryan of Philadelphia. The audience was not large yet the amount collected and subscribed on the occasion was about \$500, which gratifying result may be attributed to the impression made upon the minds of all present by Mr. Ryan, and the manner in which he made the appeal for pecuniary aid. The Church is on a beautiful site, and will be a plain, neat and comfortable edifice. It will probably be finished or ready for dedication early in the fall.—Valley Times.

Nebraska and Kansas.

Dr. Bascom, late editor of the Ohio State Journal, is now travelling through Nebraska and Kansas, and is writing a series of interesting letters to the Journal. We clip the following from one of them: "Before we passed the Kansas, we came upon an encampment that attracted attention. It turned out to be a grand hunting camp from the plains. Sir George Gore, an English Baronet, has taken it into his head that it will be fine sport to hunt Buffalo, &c., on our great western plains. So he packed up his trunks, &c., and started for a regular summer campaign. He brought the most magnificent pack of dogs that were ever in this country. Between forty and fifty dogs, mostly greyhounds and stag-hounds, of the most beautiful breeds, compose this part of the expedition. He had a large carriage, and probably a dozen large wagons to transport provisions, &c. These require five yoke of oxen to each wagon. These, with the horses, men, &c., made up quite an imposing company. Sir Geo. is a fine-built, stout, light-haired, and resolute looking man. But there are other things besides fun in such a trip, and it will try the manner of stuff of which he is made before he returns.

Repital of the Kansas-Nebraska Bill.

A large meeting was held at Lewisburg, Uni. on county, in this State, on the 7th inst., to consider the course to be pursued in our present national crisis. It was composed of members of both the great political parties, Francis Wilson, U. S. (Dem.) was chosen President; the Hon. Eli Sizer, Messrs. Geo. Miller, Thomas Hayes Peter Deavers, William Wilson and J. Kedis Vice Presidents; and Messrs. C. E. Welch and S. F. Lydall, Secretaries. A series of strong resolutions were passed. They all tend to one point—a repeal of that portion of the Kansas and Nebraska bill which abrogates the eighth section of the Missouri Compromise Act. No candidate for Congress can secure the suffrages of this meeting unless distinctly pledged to forward, by every constitutional means, such repeal. Spirited and able addresses were made by both Whigs and Democrats.—Ind. Whig.

GLEANINGS.

17 We have 25,000 miles of railway in the Union, and \$200,000,000 invested to them. 18 Mankind may be divided into two classes those who cheat and those who can't. 19 The Duke of Wellington's funeral cost the English government \$400,000. 20 A Cincinnati paper states that several thousand barrels of swine's blood is used in that city every year, for the manufacture of sweet wine. A Cool Sport.—The Troy Whig of Wednesday, says: "On Monday last snow lay on the Green Mountains, east of Burlington. The peaks of the mountains were white for miles. Persons not yet decided where to go during the summer season, need not be long in deciding to what quarter to take up their course."

Gold From California.—The San Francisco Commercial Advertiser of the 15th ult., gives the total amount of the shipments of gold from California by steamer to the Atlantic States for one year in round numbers as fifty-four millions of dollars! This does not include the amounts sent to other parts of the world by sailing vessels nor does it take into consideration the amount carried home by individuals privately. Withdrawal of Bigler.—The Lebanon Courier states upon good authority, that serious efforts are being made by the leading "Democracy" of the State, to get Bigler off the track for governor. They admit that he is a doomed man, if he stays a candidate, and to save the party from a route they desire to try a new man. The plan is, to get President Pierce to give Bigler a foreign mission, and thus enable him to retire from the campaign and keep up appearances. It makes very little difference whether Bigler withdraws or not. The party is sure of defeat next fall.

School Houses.—In erecting School Houses it is the duty of Directors, first to adopt their plans and specifications, and then to let the construction of them, to a competent, responsible person. But in no case should they let the building of a house to an incompetent or irresponsible contractor.—Who are competent and responsible, is a proper question for the decision of the directors. For any gross abuse of their powers in this regard they may be removed from office in the manner prescribed by the 9th section of the school law.

An Infernal Machine.—On the night of the 4th, Mr. Benjamin Hilderman, of West Chester, came near being made the victim of an explosive machine, constructed somewhat similar to the one which did such fatal damage recently to the Allison family, in Cincinnati. He found a small box lying in his shop apparently containing something valuable, but his suspicions having been aroused that it could be there for no good purpose, he examined the box very closely, and proceeded cautiously to remove the end, instead of drawing the lid, by which the design of its projector was completely frustrated. In the box, were 2 lb. of powder, its sides were covered with wettersand, and matches and a small tub full of powder were so disposed that on drawing the lid the matches would ignite, and cause an explosion. No clue to the rascal who devised this "infernal machine," has been obtained.

Arrival of the Asia.

New York, July 12, P. M. The Royal Mail Steamship Asia, with Liverpool dates to the 1st inst., (being three days later than the previous advices,) arrived at her dock at Jersey City, a few minutes past 8 o'clock, this evening.

There is no news of startling importance from the seat of war. The LIVERPOOL MARKET FOR BREADSTUFFS was depressed, and flour had further declined one shilling, but partially recovered at the end of the week, and the market closed heavy.

The fleet of Admiral Sir Charles Napier was anchored within twenty-five miles of Cronstadt. The allied squadron had been ordered to blockade the Russian ports on the White Sea, on the 1st of August.

The Austrians in the course of ten days will have an army of three hundred thousand men stationed on the frontiers of Dalmatia to Bukovina.

Three British ships shelled Boomsund on the 21st. A large number of buildings were burned, and much other property destroyed. The embarkation of the French troops at Varna still continued.

The French and English had 60,000 men between Varna and Shumla. It is stated that in the encounter at Silistria between Russians and Turks, the latter lost fourteen hundred and the former fifteen hundred men.

Turkey has consented to open her ports to the Greek flag. The Pontion bridge at Kalarasch, was destroyed by a storm, and five hundred Russians troops were drowned.

A telegraphic dispatch from Vienna states that the Czar's answer to the last note of Austria, had not yet been received.

Mehemid Pasha, at the head of 20,000 men was marching to the relief of Rassa. Advices from Greece state that a large body of Turkish troops were marching on Tricassion.

ENGLAND.—The crops throughout England are represented to be in a very prosperous condition. The conclusion of the fishery treaty between the United States and Great Britain has been officially announced in Parliament.

In the House of Lords the Canada bill has passed through committee. In England, the position Austria has just taken is looked upon with great distrust.

Many believe that the object of Austria is to take possession of the Turkish Principalities in order to aid the Czar in carrying out his designs. The course of Austria is closely watched, however, both by England and France.

FRANCE.—There is very little news of importance from France. Considerable rain had fallen doing much damage to the vintage. Prince Charles Lucien Bonaparte was thrown from his horse, and had his leg fractured.

The Very Latest.

By Telegraph from London to Liverpool. The Czar has left St. Petersburg for the South. The allied Expedition against Crimea is actively fitting out. About two hundred transports are being prepared at Varna and Balchick. All the Austrian vessels of war have been ordered to leave Trieste for the East. The flight of the Russians from the Principalities is fully confirmed. The Czar is about to personally inspect the fortresses in the Black Sea. A new Austrian loan of three hundred and fifty millions is to be raised. The word on the fortifications of St. Petersburg is being carried on incessantly. The French papers deny that Russia evacuated the Principalities out of respect to Austria, but she preferred a peaceable evacuation to being out by the combined forces of England and France.

Those People.—The Tribune, in replying to a correspondent who asks after the "Know Nothings," says: "All we know of these people is, that they often make themselves felt at elections, and generally go in for the side that wins.—Whether their going in is what makes it win he can judge as well as we." We know nothing of the "Know Nothings," as an organization; but we agree with the Tribune, that "those people often make themselves felt at the elections;" and we hazard nothing in predicting that Americanism will carry all before it in the approaching elections, throughout the country. In this city and State, we are prepared to see an entire revolution—a clean sweep, from the Governor down. The revival of this old Revolutionary ism, which is but another name for patriotism, is the brightest omen for the future that has dawned upon the Republic since the days of '76. If we understand the feeling, it is not at all proscriptive—nothing, in fact, but a simple demand for justice. It tolerates all sects, and interferes with none. It receives the oppressed and poverty stricken of all lands with open arms, and even invites the aliens of all climes to partake of the rich inheritance of liberty, civil and religious purchased and established by the blood and sacrifice of our fathers. But it will not submit to be ruled by foreigners in the affairs of State, or to be interfered within the concerns of religion. All the Americans ask is absolute toleration in the Church, and coquetting with Priests and Bishops by political demagogues either in or out of power. And as to the distribution of offices, if the American element is as 23 to 1, let them share in that proportion.

There was a time when to be a "Roman citizen, was greater than to be a king." And we trust there is a good time coming, when to be a true American citizen will preter and better than to be trucking President of the United States.—N. Y. Mirror.

The Express Trains on the Pennsylvania Rail Road, now run through from Philadelphia to Pittsburg in thirteen hours.

Extraordinary Counterfeit Coin.

We understand that under the instructions of the Secretary of the Treasury, given some months since, to the mint of the United States, to collect specimens of counterfeit coins in circulation, for the purpose of examination and report, one has lately been received of a very singular character. It purports to be of a Mexican dollar, coined at the city of Mexico in 1851. Two pieces have been assayed, and give an average fineness 776 thousandths, and a consequent value of 91 1/2 cents in silver; but, strange to say, the amount of gold contained in them is sufficient to add 12 cents to the value of each, after paying the charge of separating, making a net value of 103 1/2 cents, and if to this the usual premium is added, the worth of this counterfeit coin is actually 109 cents.

The quality of the silver in these dollars proves them to be a spurious issue. There is also an irregularity in the letters Mexicanas, which is regarded as a test for throwing them out, as we learn from a source familiar with them in Mexico, where they appear to have had at times a considerable circulation.

The silver produced by the Mexican mines is understood to contain gold, but generally too small an amount to defray the expenses of parting. In making the coins in question, it would seem that silver more auriferous than usual had fallen into the hands of the double dishonesty of cheating the public and themselves at the same time.

Though there are probably some specimens of this singular counterfeit among the Mexican dollars in circulation, it is not at all probable that they are sufficiently numerous in this country to excite attention other than as curiosities.—Hush Union.

NOTICE.

To the Tax Collectors and Tax Payers of Lehigh County, for the year 1854.

Whereas a number of the citizens of Lehigh County have expressed a desire to pay their taxes during the month of July in order to secure the five per cent discount, provided for by several acts of assembly of this Commonwealth, and in order to maintain the honor and credit of the county, the Commissioners have.

Resolved, That the respective Collectors of the County, and Militia Taxes, levied and assessed on the property and things in the different townships and boroughs in the county of Lehigh, be and they are respectively, authorized and directed to make an abatement of five per cent, on the amount of State tax to each and every person who before the 27th day of July next, pays the whole amount of County and Militia Taxes, to them respectively charged for the year A. D. 1854.

The collectors of the several Wards and townships are requested to pay over to AARON TROXEL, Esq., Treasurer, at his office in Allentown, all monies so collected, as State, County or Militia Taxes, as follows: Those of Heidelberg, Washington, South Whitehall Hanover and Lehigh Ward, (Allentown) on the 25th of July.

Upper Macungie, Lower Millford, Lower Mill, Salisbury, Cataqua, on the 26th. Lower Macungie, Upper Millford, Weisenburg, Lynn, Upper Saucon, North Whitehall, North and South Wards, (Allentown) on the 27th.

Collectors will take notice that no paper money of a less denomination than five dollars and only such as is par in Philadelphia (except Relief notes) will be received for taxes.

For the benefit of the collectors, we will say to them to be on their guard in taking notes of the following Banks, as there are many Counterfeits on them of various denominations, to wit: The Harrisburg Bank old issue; Middletown Bank and Relief; Northumberland Bank; Schuylkill Bank; Doylestown Bank; Lancaster Bank; 10's and 20's and Relief. The Farmers and Drovers Bank of Waynesburg, Honesdale Bank, Erie Bank are not par.

The collectors and tax-payers will also bear in mind that the final settlement of taxes must be made speedily, that the forbearance heretofore extended can in no wise be allowed hereafter. The collector need not be put off with a promise to pay him next spring or winter—it will avail nothing. It is expected the collectors will strictly adhere to the above in the discharge of their duties.
