

### Imported Cattle and Sheep.

In Clinton county, Ohio, there has recently been a public sale of Durhams, South Downs and Cotswold sheep and shepherd dogs, belonging to the Clinton county association. It was held at Wilmington and resulted as follows:—Seven bulls sold for \$9,525. H. H. Hankins & Co., Bloomington, Ohio, paid \$3,700 for the Short-Horn bull Wellington. This was the highest figure, the lowest being \$625. Three bull calves sold for \$845. Seventeen cows sold for \$10,760, and one heifer calf for \$525. Three South-Down bucks brought \$315, six ewes \$380. One Cotswold buck \$70, and two ewes \$170. A shepherd dog and five pups sold for \$170.50. The cost of the importation up to the time of sale was \$17,000, and the sales amounted to \$22,600.50.

From the above and other similar results, it appears that fine stock may be imported into the U. S., even at the present high prices, to good profit. With the increased experience of caring for their comfort and proper management on board ships, and selecting the season of mild weather for the voyage, the risk is much diminished from what it was a few years ago. It has been found there is a real economy in employing a regular herdman to attend on the passage, instead of leaving it to the mere chance and irregular attention of the stevedores, passengers or sailors. Many of the recent arrivals have come off in good condition. We would however not advise, except under very special circumstances and advantages, any farmer to undertake by himself the importation of blooded stock. There are ten chances to one he will be cheated in the blood, or lose by the operation. Some of the best blood of England is now in this country, and we would greatly prefer the importing of stock should be made by companies, where the risk would be divided, and a qualified judge of stock specially deputed to make the selections.

What we most fear is that the present high prices may have the effect to induce unprincipled persons to purchase and collect stock to send to this country of impure blood and imperfect pedigrees. We have reason to believe some of Whitaker's importations a few years ago, which were sold at public sale near Philadelphia, contained animals of this description. A good pedigree is all important, as it affords a reasonable certainty that the offspring will inherit the qualities of the dam or sire. Grade animals sometimes look like thorough breeds, but their progeny is not reliable. Neither is the mere fact of having a pedigree, and a long one too, sufficient. It must be a good one, tracing the descent not merely from a herdsbook animal, but from such as are distinguished for superior qualities. This is the secret of the high prices of the much sought for Bates blood, and the Duchess and Princess family of Short-Horns. Their acknowledged superiority in England is the result of the long continued care and skill, for many years, of T. Bates. Other animals equal them in nobility of pedigree, but like other patents of nobility do not represent distinguished ancestry or qualities. There are unworthy scions from noble stems so called, as well as noble cattle, and worth makes the real value in both cases.

**PROCESS OF MAKING SHOT.**—The pig iron lead is carried to the top of the tower by windless and chain, worked by steam, it is then put in a furnace; kept constantly burning night and day, and attended by two sets of men—one for the fire and two to pour the melted lead in tin strainers. After passing the strainers it falls a distance 150 feet, the passage through the air giving the shot their shape or form. They fall into a larger tub or basin of water. Here a man is engaged dipping them out with a ladle and throwing them on an inclined plane, down which they run to a drum, heated by steam and worked by machinery, so as to dry the shot; when dry they are passed into a revolving drum, which stops by action of machinery every five minutes, for polishing them; from the drum they are thrown into a hopper, and from this pass over a series of inclined planes; where the defective shot are carried off, an then through sieves into drawers, where they are assorted by action of machinery or sieves; then into the large boxes; from which they are taken and put in sacks, weighed and are ready for use.

**POLYGAMY DEFENDED.**—James McKnight, of Utah, has written a letter defending polygamy, in which he says: "What think you? Our young ladies, accomplished and beautiful, often choose a man with ten or twenty, or forty wives, in preference to an attractive young gentleman who has not one; thus showing their good taste and regard for age and experience. If one of your most polite, fashionable and fascinating young gentlemen should come here, he would find it very difficult to get a wife; and if he succeeded at all, she would in all probability be one whom our grey-haired and infirm old men would refuse."

The closing paragraph is rather a severe rebuke upon the denizens of our cities, who sustain public and private places of prostitution as a "necessary evil."

"In these mountains we have settled to support wholesome laws and institutions, to suppress every evil; and when this city, or all the cities of Utah combined, have sixteen thousand prostitutes in them, as has the single city of New York, may Utah be overwhelmed by the desolations of the Almighty."

**SAD DISAPPOINTMENT.**—A Boston paper says, On Tuesday evening at 7, that being the appointed time for the ending of all sublimity things, according to the Millerton belief, some forty of the believers in that doctrine assembled at the corner of Fourth and C streets, South Boston, arrayed in white robes, and anxiously awaited the moment when they should make their grand ascension. Whether they are still waiting we know not, but they were certainly disappointed in their expectation of "going up," that evening.

### The Mormon Temple.

The great Temple which the Mormons are building at the city of Salt Lake is described as promising to be a wonderful structure, covering an area of 21,850 square feet. The block on which it is located is forty rods square, and contains ten acres of ground, around which a lofty wall has already been erected, to be surmounted by an iron railing manufactured by the Mormons themselves at their Iron Works, in Iron county, Utah Territory. The Temple building will have a length of 186½ feet east and west, including towers, of which there are three at the east end and three at the west, and the width will be ninety-nine feet. The northern and southern walls are eight feet thick.

The towers spoken of above are cylindrical, surmounted by octagon turrets and pinnacles, and having inside spiral stairways leading to the battlements. Besides these there are four principal corners of the building, square in form, and terminating in spires. On the western end will be placed in alto relievo the great Dipper or Ursa Major. As regards the interior arrangements, there will be in the basement a baptismal font 57 feet long by 35 feet wide, and on the first floor a large hall 120 feet long by 80 feet wide, while on the third floor there will be another of the same size, besides numerous other rooms for various purposes. Around the outside of the building will be a promenade from 10 to 22 feet wide, approached on all sides by stone steps.

**FRENCH OUTRAGE.**—The New Orleans *Picayune*, of October 20, contains the following police report: "Fanny Smith, alias Mrs. Hinkle, who keeps a house of ill-fame in St. Louis street, was charged, on Wednesday last, with torturing her slaves. On Wednesday morning, one of the policemen of the Second District was walking down St. Louis street, when he was startled by the sudden appearance of a negro woman, who rushed out of an alley way perfectly naked, with the exception of a piece of blanket tied around her waist. Her back was bleeding in several places, and on questioning her, she told the policeman that she had fled to escape the cruel treatment of her mistress, who had stripped her and was beating her. The policeman took her to the guard-house, and on examining her, her body was found to be covered with lumps and scars. She stated that her mistress was in the habit of beating all her slaves in the most cruel manner, and mentioned a couple of slave boys, whom she was continually torturing by burning with red hot irons and sticking forks and other pointed instruments into them. On hearing these statements, Lieut. Monde immediately made an affidavit, got out a warrant, and had the woman arrested. An officer was dispatched to her house, and soon returned with the two boys, who did not appear to be more than seven or eight years of age. On stripping them they were found to be marked in a number of places, with the scars of fresh and old burns, and punctured wounds were found in different parts of their bodies. The accused was ordered to find security in the sum of \$1,000 for her appearance for examination, which she immediately gave. The slave boys and woman were sent to the Parish Prison. The *Delta* newspaper says Fanny's establishment is a brothel of the grossest stamp, and that she had recently returned from California with a fortune; accumulated by her nefarious profession.

**RELEASE OF A MURDERER AFTER EIGHT YEARS IMPRISONMENT.**—We learn from the *Raymond* (Mississippi) *Gazette*, that Bolles, the murderer, who has been confined in the jail of Hinds and Warren county for nearly eight years, has at last been acquitted and set at liberty. Bolles committed a most atrocious murder in Vicksburg, in 1846 or '47. He has been three times tried before, and sentenced to be hung; but each time, on some informality, the High Court has granted him a new trial. He has literally lived down the law in a dungeon. The witnesses are all dead but one, and he is in jail in Vicksburg for the murder of his own wife. Although Bolles has escaped the final penalty of the law, his crime brought upon him a most terrible retribution—eight long years in solitary confinement, with the gallows ever present in his thoughts and dreams!

**THE RUSSIAN ARMY.**—The *Silesian Journal* has a letter from St. Petersburg, in which the regular Russian army is estimated at 950,400 men. The infantry is said to consist of 680,400, the cavalry of 266,000, the artillery of 49,500, and the engineer corps, of 18,500 men; 20,000 Cossacks are divided among the different divisions. The foregoing is evidently a gross exaggeration, but the Russian writer is not content with it, and endeavors to make the hair "stand on end," by informing them that the reserves, irregular troops, and contingent of the military colonies amount together to 1,200,000 men, so that his Majesty the Emperor Nicholas has about two millions of warriors, who are prepared to meet death in the cause of their Sovereign.

**GREAT SALE OF CATTLE.**—The sale of cattle, &c., recently imported by the "Kentucky Importing Company," took place in Fayette county, in that State, on the 26th ult. Fifteen cows and heifers sold at prices ranging from \$650 to \$215, including one at \$600 and five at over \$500 each. Six bulls were also sold, one at \$3,500, and the next highest at \$600. A horse, seven years old, brought \$1,050. A number of sheep were disposed of, at from \$50 to \$287 for bucks, and from \$20 to \$60 for ewes; and ten pure Liverpool white, and seven improved Yorkshire hogs, at from \$20 to \$70, each.

**AVERAGE ILLNESS AT DIFFERENT AGES.**—It is stated that between the ages of 20 and 30, each person has on an average nearly 7 days' illness a year; at 40 it is increased to 8 days; at 45 to 9; at 50 to 11; at 55 to 14; at 60 to 18; at 65 to 27; at 70 to 43; and 75 to 66; and at 80 to 97½.

### Foolish Pedestrian Feat.

The Rochester Democrat says,—"Hughes, who walked 180 consecutive hours upon a wager, at San Francisco, and was nearly killed by the feat, undertook, on a bet of \$3,000, to walk one hundred hours. Commencing on Wednesday, he kept on the move until Saturday night, when he began to show the effects of fatigue, and staggered a good deal, particularly at the turnings. He carried a stick in his hand, and a friend kept by his side continually, and tried to keep him in conversation. As the night advanced, Hughes became very drowsy; but by the application of stimulants and slight whipping, he was kept in motion until Sunday morning, when the crowd became so great as to affect him considerably by the vibration of the air in the room where he walked. The time expired at 12 o'clock at night, but before that time he presented a pitiable sight. His mind seemed to be completely gone, and he would occasionally speak to the crowd, who were endeavoring to arouse him and keep him to his task by every possible means, and ask what they were doing there, and such other questions. So far was he gone then, that some of them claimed that he had lost the bet. He still maintained his position on the plank, however, until twenty minutes to 11 o'clock, when his friends gave up the task of keeping him at his work as a hopeless one, and allowed him to come down. He was walked off by them and properly cared for. Though failing to accomplish all that he had undertaken, he has, nevertheless, performed the unprecedented feat of walking, without cessation or rest, for the space of ninety-eight hours and forty minutes.

**RELIGION OF AMERICAN PRESIDENTS.**—The religious belief of the fourteen persons who have filled the Presidential Chair in the United States, as indicated by the attendance upon public worship and the evidence afforded in their writings, may be summed up as follows: Washington, Madison, Monroe, Harrison, Tyler and Taylor, were Episcopalians; Jefferson, John Adams, John Quincy Adams, and Fillmore were Unitarians; Jackson and Polk were Presbyterians; Van Buren was of the Dutch Reformed Church, and President Pierce is a Trinitarian Congregationalist.

**A SUBSTITUTE FOR RINGING BELL.**—An English breeder of stock has recommended a mode of dealing with these mischievous animals, which it is said may supercede the necessity of putting rings in their noses. It consists in simply shaving off with a razor or sharp knife the gristle on the top of the noses of young pigs. The place soon heals over; and the pigs are thus rendered incapable of rooting.

**A FORTUNATE DETENTION AFTER ALL.**—Dr. John B. Phillips, of Kennet township, Chester County, who on the eve of leaving Switzerland about two months since was rudely arrested and thrown into prison on suspicion of being Mazzini traveling in disguise and detained in consequence some seven or eight days, was en route for home and but for this detention, would have arrived in Liverpool just in time to have taken passage for New York in the ill-fated steamer Arctic. His unexpected imprisonment in Switzerland fortunately prevented him from sharing the fate of the passengers of that noble steamer.

**DROVES OF BUFFALOES.**—Governor Stevens, during his survey, last summer, of the Northern Pacific Railroad route, passed droves of buffaloes, which he estimated to comprise several hundred thousand. In some instances they were forty or fifty miles in length and extended on either side beyond the reach of vision. Several miles and horses became so mingled with the droves that it was impossible to retake them, and they were consequently abandoned.

**A TRIBUTE TO WOMAN.**—Dr. Layard, the great antiquarian, says that women are civil, obliging, tender, and humane; they are ever inclined to be gay and cheerful, timorous and prudent, and they do not hesitate, like men, to perform a generous action. They are more disinterested, more virtuous, and perform more good actions than men. In his extensive wanderings in foreign climes, if hungry, thirsty, wet or sick, woman has ever been friendly to him.

**MEDITERRANEAN WHEAT.**—This variety of wheat is now very extensively cultivated. It is more productive, less affected by the fly and wheat midge, ripens early, and has never been affected by smut or rust, as other varieties. On the other hand it does not make so white a flour, and does not sell quite so high in the market. The former advantages considerably overbalance the latter.

**OUTRAGEOUS SWINDLER.**—The Mining Register says that some ten thousand dollars have been recently paid out to hands in Schuylkill county, in five dollar notes, purporting to have been issued by the Mechanics' Bank of Memphis, Tennessee. These notes are reported to be entirely worthless.

**TO GET RID OF COCKROACHES.**—Common red wafers scattered in the haunts of these vermin will often destroy or drive them away. Red wafers are colored with oxyd of lead—a deadly poison. We have tried this remedy in our office, and know the truth of this receipt.

**NEW YORK HOTELS.**—Capital invested in the hotels of New York city, \$12,756,000. The St. Nicholas is estimated on the Assessor's books, at \$888,000; Metropolitan, \$550,000; Astor House, \$450,000; Irving House and New York Hotel at \$300,000 each. The appraisal is about one-third less than the actual value.

**MORE SHOOTING.**—The Cleveland Leader of Friday says:—Dr. Short and his son shot two hundred and nineteen snipe in one and a half days on the borders of Mud Creek, near the head of Sandusky Bay. When we consider that these birds are only shot singly, and only on the wing, we consider this extraordinary shooting.

### Imported Poultry.

At the auction of poultry imported by Mr. J. Giles, of Woodstock, Conn., which took place at Barnum's Museum, Saturday, Nov. 4, the following prices were realized and although fancy birds brought fancy prices, upon the more common sort there was a dead loss upon the cost in England of about an average of 75 per cent. The following are decidedly among the fancies:

1 pair of white Swans, \$100; 1 white female Swan, \$50; 1 black female Swan, \$60; 1 pair of black Swans, \$90; 1 pair Japanese Peacocks, \$100; 1 pair Barnacle Geese, \$40; 3 hoop bill Ducks, \$75; 1 pair Golden Pheasants, \$13; 1 pair Call Ducks, \$12; Shell drake Duck, \$10; 3 spoon bill Ducks, \$13; 1 pair pintail Ducks, \$5; 1 pair Widgeon Ducks, \$12; 1 pair Widgeon Ducks, \$7; 3 Widgeon Ducks, \$9; 4 pair English Pheasants, at \$10; \$11; \$15 per pair; 3 male Golden Pheasants, at \$5; \$3.50; \$12.50 each. 3 male Silver Pheasants, at \$10; \$10.50; \$16 each.

But the climax of fancy prices was reached in the sale of one pair of Mandarin Ducks, for \$150. This was a beautiful pair of very rare birds, and we hope will remain rare—that is, that no more will ever be imported at that price. It was said that they cost 75 guineas in England. Mr. Barnum offered \$35 advance upon the purchaser's bargain. They are about the size of our common wood duck, and of just about equal beauty. It is certainly somewhat extraordinary, that with money "tight" with most people, any one can find loose change enough to buy ducks at \$150 a pair.—*N. York Tribune.*

**A MAGNIFICENT FARM AND FARMER.**—A Vermont paper says:—"Among the conspicuous men in Vermont Legislature is Mr. B. G. Brigham of Fairfield. He owns and cultivates 1300 acres of land. Among his barnyard items are two hundred and twenty cows, twenty horses and five yoke of oxen. In his dairy he makes butter only. The average yield of butter from the milk of each cow is one hundred and fifty pounds. Two huge 'dasher' churns are set in motion by two 'horse-powers,' and the butter is 'worked' by the old-fashioned 'paddle.' His stock of cattle consumes about five hundred tons of hay annually, 40,000 lbs. of pork, 5000 bushels of wheat, from 400 to 500 bushels of corn, 1000 bushels of oats, and from 1000 to 2000 bushels of potatoes, are among his yearly products. 'The Man of Uz,' in his best estate, could not do better than this. Mr. Brigham himself is got up with breadth of beam, and in a style of magnificence proportionate to the extent of his possessions and agricultural products—he standing 6 feet 4 in his boots, and weighing, by one of Fairbanks' patent balances, 300 lbs. precisely.

**A PAT OFFICE.**—To be Coroner of New York is an office worth having. The number of inquests held in that city from the 1st of July to the 30th of September, was 831. The average fee for each case is \$6.50.

**The "big drum"** of the band of every Austrian regiment is drawn by a dog in a neat little cart. The drums are placed endway in the cart, the drummer walks behind and taps away.

**MARRIED.** On the 5th inst., by S. L. Kellam, Esq., Mr. JOHN A. KLINE, of Catskill, to Miss SARAH COLE, of Mauch Chunk. On the 31st ult., by the Rev. Dr. Gray, Mr. WILLIAM CHASE, to Miss MATILDA RICHARD, both of Easton.

On the 9th of Nov., by the Rev. Mr. B. M. Schmucker, Mr. CHARLES GANGL, to Miss FERTIA ROYER, both of Tylersport, Montgomery Co.

On the 7th of Nov., by the Rev. Mr. Lemert, of Nazareth, Mr. JAMES P. CRAWLEY, of Michigan, to Miss SOPHIA C. CRAWLEY, of Nazareth.

On the 9th of Nov., by the Rev. Mr. Bauer, Mr. EDWARD GRAVER, to Miss ELIZABETH TRACH, both of Weisport.

On the 12th of Nov., by the Rev. Mr. Brobst, Mr. HENRY DUTTER, to Miss HENRIETTA TERRIE, both of Rheinbarten, Germany.

**DIED.** On Thursday last, in Allentown, ANNA ELIZA HENNING, aged 10 years. On the 10th of Oct., in Lower Macungy, AARON A. STEFFEN, aged 18 years. On the 10th of Oct., in Upper Milford, JOHN SCHULER, aged 98 years.

### THE MARKETS.

ALLENTOWN MARKET.	
Flour, per bbl.	\$9.00
Wheat,	2.00
Corn,	.85
Rye,	1.25

Red,	1.75
Corn, White,	1.18
Yellow,	.80
Oats,	.51
WHEAT,	.43

**PHILADELPHIA CATTLE MARKET, Nov. 13.**—Beef Cattle continue to meet with fair enquiry, without any essential change in prices. But the cold weather and near approach of the holidays will probably have a tendency to depress prices. There were about 1300 head offered this week, which were mostly disposed of at \$7 to \$10 per 100 lbs. Cows meet with a limited inquiry at \$15 to \$46, as in quality. Calves are abundant and dull. There were about 500 head of Hogs offered, and sold at from \$5 to \$6 per 100. Sheep remain without change; sales 1100 of head at \$2.50 to \$6.50 each.

### WIEDER & BOYER,

WHOLESALE AND RETAIL

### Manufacturers and Dealers

JUST received and opened, the largest and best assortment of Stone Martin, Silver Martin, Fitch, Russia, and other

### Ladies Fashionable Furs

ever exhibited here, being fresh from the city, and well worthy of an early call, as they will see for yourselves. Our stock consists in part of the following articles:

Victorines of every kind, from \$1 to \$50, French Victorines and Cuffs, Muffetees, Russian Fitch, Short Lynx Capes and Cuffs, Imitation Sable and Black Genettes, Coney Victorines, White Spotted Victorines.

In short all kinds of FURS that can be found in New York and Philadelphia, and at all prices.

### HATS AND CAPS.

Our assortment of Hats and Caps is full—the best by far ever offered. It requires no bragging to take pattern from no country shops, but derived from "head quarters," and will be patterned after by others, as the past has shown. We also manufacture hats and no mistake, as you can see for yourself by calling; so don't be deceived by those who would be the only manufacturers, as there are a few more of the same sort. Then go to Wieder & Boyer, and get a good and fashionable article.

Thankful for past favours, they respectfully ask a continuance of the same.

WIEDER & BOYER.

Nov. 15.

### Orphan's Court Sale.
