the United States, upon the supposition that its average ratio of increase has been maintained. or nearly so, may be stated in round numbers at 26,500,000. The population of the United States, on the

1st of June, 1850, stood thus: -Total, 28,191,-876; white, 19,553,068; free colored, 434, 495; slaves, 3,204,313.

The following table exhibits the population and destiny of geographical and other divi-

The middle states are therefore the densest the very large cities existing there. The New England states come next in order; then the north west; then south, and lastly the southwest. The non-slaveholding states are as dense as the slaveholding states. The states taken to gether, have a density of about sixteen to the square mile. Excluding Texas and California, then density is over twenty one to the square mile. 'The territories have one inhabitant only to-every sincen square miles. Texas and California together, have less than one to a square mile. Whilst early twenty-five persons inhabit a square bile in the region east of the Mississippi, and learly twenty persons in the Atlantic slope in the Mississippi valley there are only about sever posons to the square mile; west of the Mississippi, less than one person to the square mile; on the speific stope, one person to every six square miles! HONORARY TITLES.—The Associate Reformed Presbyterian Church has adopted a rule in Synod, that the significant appendage, "D. D.," shall not hereafter be attached to the names of any of their ministers. A writer in the "Unitod Presbyterian" thinks this is at it should be, but proposes that the reform be carried farther. He thinks Rev. is more objectionable than D. D., as being more aristocratic-more inconsistent with official parity-exalting the the studer ministry above the eldership, contrary to the were playi Presbyterian doctrine. He proposes that this Gore, three invidious prefix to clerical names be omitted his own are

CURE FOR HEAVES .- Take some weed comeight or ten days. Mix it with bran or shorts if he will eat, if not, pour it down him with a bottle. Give him green or cut feed wet up with water during the operation, and I will warrant a cure. Horses with heaves will be troubled with it about as bad this dry and dusty weather, as they will in the spring of the year. This medicine is so simple, and easy to be obtained, that some may not think it worth their while to to try it; but simple medicines many times prove more effectual than those obtained at a great expense. Now is the time to secure the weed, and I say to those interested, try it .--Rural N. Yorker.

SERIOUS CHARGE AGAINST TWO LADIES .- Madame Dietz, and Madame John Dimitry, mother and daughter, both respectable ladies of New Orleans, have been held to bail in the sum of \$5,000 each to answer the charge of causing the death of a slave-girl, by severe whipping with a cow-hide. The girl was in delicate health, severely afflicted with worms, and several physicians certify that the worms were the immediate cause of death. The ill-treatment and deep sears on her body, produced by whipping, they further certify, brought on weakness and dish up. emaciation, so as to render her unable to bear the crisis produced by the worms. The case has produced much excitement in New Orleans, and the two females, who wept bitterly during the examination on the 20th ult., were committed to jail until the next day, when they were admitted to bail.

BRANDY IN CLIMBING MOUNTAINS. - A recent writer says: " It is astonishing the effect produced by spirits upon the persons of even the strongest constitution, when indulged in at an elevation of 10,000 or 12,000 feet. At 19,000 feat it is perfectly dangerous to take any quantity of raw spirits, even a half a glass of brandy produces intoxication. All hill travellers drink nothing but hot tea; for travelling up the mountains and down valleys, across bridges of very questionable security, requires a very firm and steady nerve, which it is impossible for those who indulge freely in the use of spirits to retain long in the snowy regions."

SPLENDID FRENCH MERING BUCK.-Mr. John Goes, whose farm is some three miles Southwest of the city, is doing much to improve the breed of sheep. He has a flock of some 700, about 500 ewes, quite a number of them choice Merinoes, some imported. The pride of his lock, however, is the noble full-blooded French Mermo buck, " Tippecanoe," bewett's importation, two years old, weighing over 2:0 los. and shearing last season a fleece of 21 lbs. His wool is very fine, and every portion of his limbs is covered down to his hoofs. Tippecanoe is valued at \$1,000 and will doubtless prove worth en times that to the prowers of this section. leveland O. Herald.

FREAK OF FORTUNE. - The New Brunswick (N. J.) News has a communication which says that Patrick Little, formerly a poor drunken stage-driver, who killed Nathaniel Sisco, o would have had but 21,000,000 inhabitants and for whom Gov. Price offered a reward of with the density of the southern states, the \$4000, has turned up in Calofornia, where he number would be nearly 45,000,000; with the had altered his name, and becoming sober and with the density of the middle states, 170, \$100,000. On her return she found the scamp gone, taking with him a quantity of jewelfrom about the image of the Virgin over the or. On the same day he stole a valuable i watch from a priest in St. Patrick's church.

He appealed on the ground on the that by the State Law regulating criminal froceeding, "no black or mulatto person, of Indian, shall be allowed to give evidence in favor of or against a white man." The question investigated by the Court was, whether, under either of these descriptions, and if any, under which natives of China must be classed to make them incompetent to give testimony in criminal cases against whites. The opinion of the Court delivered by Chief Justice Murray, was that Chinese are not competent to give testimony against whites, in the Courts of California, and accordingly the verdict in the case was set

> To COOK PARSNIPS .- Persons who liave never eaten parsnips cooked according to the following mode, have no idea what an excellent dish they are.
