Our Chip Basket.

TA French woman, residing in St. Louis, lately presented her husband with five fat, healthy children at one birth. Hasn't that husband reason to flap his wings and crow some ?---How we should feel, on such an occasion, we are not prepared to say. Our heart palpitates exceedingly at the bare imagination of such an event. How a Mormon would look under such circumstances, with five wives, equally as industrious as the French woman, it is impossible to say or conceive. Very likely his eyes would stick out a feet, and he would begin to look for the quickest conveyance to foreign parts.

TA lady (young and beautiful) told us the other day that she would as soon eat soup without salt, as kiss a man without whiskers .--Well, "every one to their taste," as the old lady said when she kissed her cow. Those who would prefer " rats nests," can have one advantage, they can find plenty of them, and as to those who prefer the whiskers-we would say there is some around these premises .---That's so !

ICA Persian poet gives the following advice on this important point : " When thou art married, seek to please thy wife ; but listen not to all that she says. From man's right side a ib was taken to form the woman, and never was there seen a rib quite straight. It breaks but bends not. Since, then, it is plain that crooded is woman's temper, forgive her faults, and blame her not, nor let her anger thee, nor cor- duced to give it a place in our columns. We rection use, as it is in vain to straighten what | can speak for the excellent quality of the pudis crooked.

The circulation of the London Illustrated News, a weekly pictorial paper, has risen to the enormous number of 150,000 copies. In consequence the proprietors have advanced their charges for advertising to sixty cents per line of 10 words, for every insertion.

We have read of a certain young lady who was cured of the fever and ague by getting married. The medicine is recommended to young ladies similarly afflicted, as by no means bad to take. A week has elapsed since the fair patient alluded to had recourse to this wouderful cure, and now her health has continued daily to improve.

We thought that we had heard of a good many green people in our time, but there is a young lady in Schenectady who has at last capped the climax. She got married the other night and the next day appeared before a magistrate, toenter a complaint against her husband for "taking libertics with her."

IFI you want to gain a woman's affections don't appeal to her head but her feelings. One squeeze of the hand or press of the lip is worth more than all the speeches you can make from 6 to 12. Calico is an institution of touch, and not logic. Order a sample and judge.

There were 27,422 deaths in New York city last year : 5034 men, 5281 women, 9379 boys, 8128 girls. The number of births was 7869 males; females, 7250; total 15,115, of whom 168 were blacks. Number of marriaccs 1723.

DA disastrous fire occurred in Philadelphia on Wednesday? morning, in Chestnut street above Thirtcenth, by which a Medical student, named Alox. Bowman, was so horribly burned that he died soon after being rescued.

TA young lady, recently married to a farmer, one day visited the cow houses, when she thus interrogated the milkmaid : " By-the-bye. Mary, which of these cows is it that gives the buttermilk ?"

"I curse the hour when we were married," exclaimed an enraged husband to his better half, who smilingly replied, "Don't, my dear, for that is the only happy hour we ever Saw."

Whether young or old, think it neither too soon, nor too late, to turn over the leaves of your past life, and consider what you have

done were to be done over again. Th walking always turn your toes out and your thoughts inward. The former will when arrived at the age of eighteen she married your introgents intro cellars, the latter him, she then being in her fiftieth year. They into iniquity.

EXTRAVAGANCE .--- WANT. --- The pews of a Presbyterian Church, near Madison Square, New York, recently sold at auction for the enormous sum of \$45000. This sum was for only thirty-five of the most eligible. . A resi-\$357 above its actual valuation.

The pews in Beecher's church, Brooklyn, premiums amount to over \$10,000. Now this may be all right enough; but if it cost the wealthy occupants of these choice seats so much for the privilege of hearing an "exposition " of the word of God, once or twice a week, to say nothing of other heavy expenses of dressing, &c., &c., to deck themselves out in church going style, we can't make up our mind

what the poor will do. These are starving times to thousands, and it does not sound well for professed Christians to be so extravagant in their temples of worship, while their poor neighbors are dying in want. Bread is wanted by thousands of little children in New York, whose parents have no employment.-Surely modern religion differs much from that taught many years ago, by the meek and lowly Jesus of Nazareth. We intend no offence, but must avail ourselves of the freedom of speech.-

New York Whole World. HARD TIMES PUDDING. - Here is a receipt the notice of vine-growers in foreign countries, for a simple.and good pudding, made without milk or eggs--a desideratum with hundreds of families under whose eye this will fall, and for whose benefit, in these hard times, we are inding, having tried it, and found it "a fact :" Take half a pint of molasses, half a pint of town, where a mass of rock estimated to weigh water, two tea spoonfuls of salaeratus, one twenty tons, was thrown one hundred yards dislarge spoonful of salt; thicken with flour to a tolerable thick batter; stir in nearly half a struck, large enough to bury a horse, and then pound of raisins, or berries ; tie the cloth rather

means in a mould, if you have one, leaving plenty of space for the pudding to rise or swell. It will be good without sauce of any kind, and better with a little cream or butter, when cut on the plate.-Hartford Times.

A BIG SOUP KETTLE AND A RICH WAITER .-All our readers have probably heard of Alexander T. Stewart's "Marble Palace," as some call it, in this city, where are sold goods to the amount of ten million dollars annually, giving employment to four hundred and fifty clerks and other assistants. Since the commencement of the distressing times among the poor, Mr. Stewart has started a soup room in the basement of his immense building, where one thousand persons are daily supplied, gratis, with most excellent soup. Four hundred pounds of meat are used each day, in its preparation ; and the owner himself, with a detachment of his clerks, who volunteer by turns, attend to purpose. the dishing up. Such charity as this we ap-

prehend is much more efficient than appropriatng money to clothe little colored gentlemen in Africa with flannel shirts .- N. York paper.

PRINTING PRESSES, PULPITS AND PETTICOATS. -These are the three great levers that govern the world. Without them the bottom would in advance, under the new regulation, and went fall out, and society would become a chaos again. The press makes people patriotic, the pulpit religious, but women sway all things.

There would be no going to church if there were no girls there, neither would there be any going to war were the soldiers to meet with no applause but from the masculines. Without the sunshine shed by women, the rose of affection would never grow, nor the flowers of elo-

quence germinate. In short, she is the engine of life, the great motive power of love, valor, and civilization. In proof of this, truth in all history speaks trumpet tongued.

QUEER MATRIMONIAL FREAK .--- A letter from citizen of Livingston county, Ky., to the Danville Tribune, relates the following bit of family history in that neighborhood :--- "A widow lady took an orphan boy to raise, quite small, and

AWFUL CALAMITY-TUREE YOUNG LADIES BURNED TO DEATH .--- The country residence of Mr. John A Haven, of the firm of Haven & Co. commission merchants, New York, situated near Fort Washington, was destroyed by fire dent of Brooklyn bought one for \$1057, or early last Saturday morning. Three of his daughters aged from 16 to 22, perished in the

flames. The names of the victims are Mary. have also been disposed of, and the rents and Grace and Sarah Haven. The fire broke out in the laundry. Two of the young ladies were suffocated to death, the third was burned almost to a crisp. Anna, the eldest, was rescued scarcely-living, through the presence of one of the neighbors, who fortunately arrived early on the spot, but she died on Tuesday.

> CURE FOR GRAPE MILDEW .- Mr. John Hayes, gives through the English Gardeners' Chronicle the following " cure for the grape mildew :"

"Take 4 lb of black soft soap, from 3 to 4 ounces of black sulphur, the same quantity of January 21. soot and quick lime, and add water sufficient to enable them to be worked with a paint-brush. As soon as the vines are pruned, paint the wood well over with this mixture, rubbing it well into the rough parts with the brush. I have not seen the least symptoms of mildew since I have used it, either in the houses or out of door. although we had plenty of it before the application was fried. This, therefore, may be worth

the ingredients employed being cheap." STRENGTH OF GUNPOWDER.-Some idea of the power of this extraordinary agent, prepared

from nitre, sulphur and charcoal, may be inferred from a statement made within a day or two, on the N. Pennsvania Railroad, near Germantant, making a hole in the earth where it first bounded on farther. Another stone, about the tight ; boil at least three hours, and by all same size, was thrown out at the same time.

TO CLEAN KID GLOVES .- Ladies will be glad to learn that alcohol will wash kid gloves of all colors withour either straining them or leaving an unpleasant odor about them. The gloves are simply drawn upon the hand and carefully rubbed with a piece of clean white flannel, we with alcohol, until the soil is removed, then hung up to dry, and afterwards slightly stretched, when the original color reappears. This we have from one who has tried it successfully.

THE GOLDEN MOMENT .-- There is nothing which contributes more to making our under takings prosperous than the takings of time and opportunities ; for time carries with it the scasons and opportunities of business. If you let them slip, all your designs are rendered unsue cessful; but if they be rightly taken, and followed with diligence, you seldom miss of your

was little enough. Ho paid up, and one year away feeling as a man ought to feel, who has a conscience clear of the printer.

CALIFORNIA TREES .- One tree made 18,000 feet of lumber. The butt, 26 feet long, made 4,000 feet of clear stuff. There are trees growing that would make 100,000 feet--enough to furnish all the materials for two houses 50 feet square, two stories high.

Rainy Sundays are rather popular with church-goers without compromising their reputations for piety and pews.

The notorious Tom Hyer and Jim Turner (of California) had a desperate "set-to" in a New York saloon, on Sunday morning, in which the former was severely hurt.

There are many more shining qualities in the mind of man, but there are none so useful as discretion.
