WEDNESDAY, MARCH 14, 1855.

Third and Chestnut streets, Philadelphia, is our authenticated Agent for receiving advertisements and subscriptions to the Lehigh Register.

Messrs. Reese, Weisen, and Chaig, at Harrisburg, will please accept our thanks for Legislative documents.

The next Court will commence on Tueswhich saves the cost of transportation. 2nd day the 3rd of April, and not on the 2nd, as tor less to live-produce being obtained with-

stated in the Proclamation last week.

Public School Examination. An examination of each of the Public Schools, in their respective rooms, is to commence on Monday the 19th inst., to continue five days. Persons who can make it convenient should attend, as the exercises will no doubt prove interesting and instructive. These public examinations certainly stimulate to improvement, and often draw out latent talent which otherwise might lay dormant.

Keep your Doors Locked. We learn that several houses in town were lately entered by straggling vagabonds on pretence of begging, and in the absence of the inmates, they appropriated to themselves such articles as they could lay hands on. We would

advice persons to be on their guard.

To Business Men. The spring season for advertising is now at hand. There is no one who has been deeply engaged in mercantile pursuits, that cannot testify to its numerous advantages. Notice, if the ramifications of society, from the woodyou will the different firms in town, and you sawer to the merchant, will receive the benefits will see at once that those who advertise do a of the addition. There is not in all Pennsylbusiness to almost double the amount of those who do not. If you want business, advertise. adapted in all respects for manufacturing pur-If you are a hatter, is your name so familiar to poses, as the Lehigh Valley. It is affluent in the public, that when a man looks at his old hat | mineral wealth-boundless in resources-and and says to himseif, "I must have a new hat," he will think of you. If you are a tailor, make yourself so conspicuous that a man will think of you every time he brushes his coat. When a a paucity of capital—essential elements in all man looks at his boots in dusty weather, and important undertakings. These are a few facts says to himself, I " must go and buy a pair of which every discerning mind must comprehend patent leathers," have your name so familiar readily-facts worthy the consideration of every to him, that he will think of you and your place of business just as soon as he does of enterprises. We might enlarge with a still his boarding place when he is hungry. It is longer editorial upon the subject, but as the the same with everything and every body who matter is plain and conclusive, we defer further advertises extensively. Their names become familiar with the people and are associated in the midst so much with their goods and articles of merchandise, that all who want what they sell, are drawn as by instinct, to their shops and stores. There is nothing like advertising. If you do not believe it, try it and be convinced.

New Luthernn Church.

The new Lutheran Church is rapidly advance ing towards completion, and will probably be ready for the accommodation of the congregation in the latter part of April. It is by far the most imposing church edifice in town. The style is Gothic, which is finely adapted for effect. The entire building will be heated by three Hot Air Furnaces in the basement. The brick work of the building was executed by Messrs. Seip & Nagel, and the carpenter work by Balliet & Son. The fresco painting was exccuted by Messrs. Lamon & Co., of Philadelphia, and reflects great credit on their artistic skill. When we take into view the unpropitious time at which this improvement was carried on-materials being high, -- almost every body feeling the scarcity of money, and labor advanced from the scarcity of subsistence, we must say, that those entrusted with the management deserve great credit for the present advanced state of the Church. We are told that the ultimate cost of the building will be about \$12,000. When the edifice is finished it will be an honor to our town, and redound to the credit of its projectors.

FIRE. At about half-past nine o'clock last night a fire was discovered in the dwelling occupied by Mr. JESSE FARVER, in Linden street near Fourth. There are several stories as to the origin of the fire, the most credible being that Mr. F. had been in the basement with a candle in the evening to cut wood, and that a spark had communicated with some shavings which were kept in a basket standing near a partition wall. The fire was extinguished without doing any scrious damage.

Arrested.
A man named JACOB OCHS, formerly of East Allentown, was arrested on Sunday last on a charge of stealing ninety-five dollars from a man in Northampton county. The man had been at work in the second story of a house. and had left his coat hanging in a room on the first floor, in the pocket of which he had a pocket book containing the above amount. The pocket book and about thirteen dollars in money were found in the possession of Ochs. He was sent to the Northampton County Jail to await his trial at the next Court.

We learn from Harrisburg that the bill incorporating the Allentown Bank received the signature of Gov. Pollock on Saturday last .-No message has as yet been sent to the Legislature communicating this fact, but it is believed to be true. We are pleased to make this announcement to our readers, as no town in the State requires Banking capital more than Allentown. The inhabitants of our town have been laboring under great inconvenience for many years, as all banking business had to be transacted at Easton, a distance of eighteen miles, costing a great loss of time and outlay of money. This bill was the first presented to the Governor for approval, and it is evident that the Governor regarded it as a case where a new bank was actually necessary. There are now some fifty or sixty other bills before the make that town the permanent place for the Legislature awaiting to be passed.

Capitalists Look Here. Resources of the United States. We wish to-call the attention of capitalists Mr. G. G. Warning, of New York, has preand business men from abroad to Allentown as pared a very useful Abstract of the Census of a place possessing great advantages for Manu-1850. From this we learn, that the amount of facturing. We have water power capable of propelling the heaviest machinery. The most

eligible sites might here be obtained for rolling

mills, forges, hail works, foundries, &c., and

which could not help but succeed if rightly

managed. Labor, rents, and living, are far

cheaper than in eastern cities. By conducting

an enterprise of this kind here, many important

advantages would be sustained over eastern es-

tablishments. 1st. The pig metal is on hand

Labor is not so high, because it costs the opera-

out the cost of shipment. 3rd. The market

for the manufactured article is, we may say, a

the door, and costs but very little for its trans-

portation. Our agricultural resources are not

inferior to any in the State. Our town is

healthy and beautifully situated, and inhabited

by an honest and industrious people. The

Lehigh Valley Rail Road will connect with our

place in July, and the North Pennsylvania Rail

Road will be completed in about a year. When

once in operation, our town will assume a de-

gree of business importance not inferior to any

inland town in the State. We have now about

doubt, it will be more than double that number.

Our town would feel a new and accelerated im-

pulse by manufactories springing up around

us. For every hand employed, no matter in

what mechanical or laboring business, there

will be an additional mouth to feed, and some-

times half a dozen; for every family brought

here a house will be wanted-and of course all

vania besides, a region of country so admirably

that all these have not long since been fully de-

veloped, is not so much from an ignorance of

their existence, as from a lack of enterprise and

man who wishes to engage in manufacturing

Railroad Iron.

HEAD, in opposition to the Repeal of the duty

on Railroad Iron. One paragraph shows what

s doing in England, in this branch of Industry

about two million seven hundred thousand tons.

During the last year, more than seventy new

furnaces have been put up there, which will af-

ford an addition of over five hundred thousand

tons. So that the product in England is almost

equal to the entire demand of the whole world.

When that market is pressed upon, the price of

iron becomes high, and when that market is ab-

stained from, it becomes cheap; so that when-

ever we cease to manufacture iron in this coun

try under a proper competition tariff, we have

to pay more for it in England. Since 1845

millions of dollars have been invested by our

citizens in the enterprise of getting skilled

labor, and carrying on the business of making

railroad iron, and they now produce one hundred

and sixty thousand tons of a first rate article,

(and they will, in a few years, produce twice

that amount, if not legislated out of existence,)

which comes in competition with the English

It will be observed that England is extend-

ing her operations much more rapidly than we

The new tariff bill which was before Con-

gress, proposed large reductions in the rates

of duties imposed by the Tariff of 1846. It also

proposed to defer the payment of duties on rail

road iron for the present, and then a total re-

mission of the duties would have been asked

for at a future session. Thanks to Mr. Brod-

head and others, this scheme was defeated in

Cash value of farms \$3,271,575,426 544,180,516 151,587,638 Cash value of live stock Cash value of implements

\$3,967,343,580

The amount of capital invested in manufactures, mining, the mechanic arts and fisheries, was \$527,299,193, or less than one seventh of that employed in Agriculture. 🕡

The amount of the commerce, trade, &c., of the United States, during the same year, is esti- a printer! mated at \$1,5000,000,000, or about one third more than the value of the agricultural products. The estimate, however, is of doubtful accuracy.

The number of free males over fifteen years of age employed in agricultural labor in 1850, was 2,400,583, or nearly as many as in all other occupations.

The rural population of the country is estimaed at 17,393,907, or three-fourths of the whole, living almost without exception by the direct productiveness of the land.

The town and village population is estimated at 5.797.969.

6000 inhabitants. Six years hence, we have no At the same time, three-fourths of the commerce and trade consist in exchanges of agricultural products; consequently three-fourths of those employed in these branches of industry, are directly dependent on agriculture for their carnings.

> The supposed area of the territory of the acres; the area in use was 293,560,614 acres: of this amount, there were of improved land 113,032,614 acres; unimproved 180,528,000

> The proportion of land in use was as follows: Improved, per cent. 7:71; unimproved, per cent. 11:31.

> The proportion of land in use is greatest in the Middle States.

> The occupied land is divided into 1,440,075 farms and plantations.

The average size of farms is 203 acres. The average value of farms is \$2258.

The average value of occupied land per acre n various localities, is thus stated :-

In New England, \$20.27; in the Middle States, \$28.07; in the Southern States, \$5.34; in the South-Western States, \$6.26; in the North-Western States, \$11.39; in California and the organized Territories, \$6.26; in Texas. \$1.89; in the whole country, \$11.14.

The value of the live stock owned in the Uniferent wards will be held on Friday next. - The ted States, in 1850, was estimated at \$544,-180,516.

The number of animals was as follows: Neat Cattle, 18,378,907; Horses, 4,336,719; Mules and Asses, 559,331; Sheep, 21,723,220; Swine, 30,254,213.

The value of our Poultry was estimated by Dr. Bennett at \$20,000,000. The neat cattle enumerated in the census

were divided as follows: Milch Cows, 6,385,094; Working Oxen, 1,-700,744; Calves, Steers, Fat Cattle, &c., 18,-293.069.

New York, Ohio, Pennsylvania, Georgia and Virginia had each over one million head of cat-

A Novel Case. - A man was convicted in Delaware in 1853, of murder, and was sentenced to be bung, but on three several occasions was granted a respite, the last one on March 17th, 1853. It appears, however, that he has not yet been executed, and a few days ago, he was brought out on a babeas corpus, and his discharge demanded, on the ground that the day appointed for his execution was the day, the prisoner was entitled to be set at | had used in murdering the sleeping man. liberty. The court, however, remanded him to the custody of the sheriff.

SHOCKING ACCIDENT.—A man named Mat broken near the shoulder, and again between ous to planting. the wrist and elbow; his right arm blown of just below the elbow; his right eye destroyed, and the sight of the left very much impaired, if not destroyed, and his whole face very much mangled. He was alive at last accounts.

Occupation of Legislative Members.-The members of the House of Representatives in the Pennsylvania Legislature, as to occupation, are classed thus: -Lawyers 20: Farmers 32: Merchants 19; Physicians 4; Dentist 1; Millwright 1; Shoe Manufacturer 1; Clergyman 1; Lumberman 1; Editors 2; Druggist 1; Iron Masters 3; Miller 1; Boatman 1; Surveyors 2; Teacher 1; Collector 1; Bookkeeper 1; Blacksmith 1; Clerks 2; Cabinet Maker 1; Printer 1; Gentleman 1; Nothing 1

TO MARE ECONOMICAL WHITE HOUSE-PAINT. -Skim-milk, two quarts; fresh slaked lime, eight ounces; linseed oil, six ounces; white burgundy pitch, two ounces; Spanish white, three pounds. The lime to be slaked in water, exposed to the air, mixed in about one-fourth of the milk; the oil in which the pitch is previously dissolved, to be added, a little at a time then the rest of the milk, and then the Spanish white. This quantity is sufficient for 27 square yards, two coats.

To VARNISH ARTICLES OF IRON AND STEEL -Dissolve 10 parts of clear grains of mastic, 5 parts of champhor, 15 parts of sandrach, and 5 of elemi, in a sufficient quantity of alcohol, and apply thi varnish without heat. The articles will uly be preserved from rust, will retain its transparency, but the va will retain its transparency, and the ir brilliancy of articles will not be obseuted.

In The best cure for hard times is economy

"Nobody but a Printer, Anyhore,"

Such was the speering remark of a would-he young lady not a thousand miles from the door of our sanctum, in referring to the profession capital actually invested in agriculture, was as | we follow in pride. "Nobody but a printer," in sooth! It makes our blood run rampant through our veins, to hear such expressions fall from the lips of those nursed on republican soil. "Nobody but a printer, anyhow!"-Who was Benjamin Franklin? "Nobody but a printer!" Who was William Caxton, one of the fathers of literature? "Nobody but a printer!" Who was Earl Stanhope? "No. body but a printer!" Who was Governor Armstrong, of Massachusetts? "Nobody but

Who were Governor Bigler, of Pennsylvania and Governor Bigler, of California ? " Nobody but printers!" George P. Morris, N. P. Willis, Joseph Gales, Charles Richardson, Horace Greely, James Harper, Bayard Taylor, Robert Sears, and Senators Dix, Cameron and Nileswho are they? "Nobody but printers, anyhow?" One thing is evident; every person that chooses can't be a printer. Brains are necessary .- Ex.

New Motive Powers-Mr. Samuel Gibson near Cochranville, Chester county, has constructed a small locomotive engine which is moved upon a novel principle. The motive power is compressed cold air. He has been maturing his plans for two years, but for the want of funds and proper facilities, has not been able to progress as rapidly as desirable .--He is a laboring man, and has carried on his mechanical labors under many difficulties.--He has succeeded in constructing a model ennited States in 1850, was 3,460,455,680 gine, about ten inches long, which moves upon a plank floor, gaining velocity as it proceeds, without any other agency, than cold air. The machine is attracting much attention, and would seem to come as near perpetual motion as any thing which has been invented. A little atmospheric air forced into the air chamber, puts the piston in motion, and the machine moves off with all the gravity of a steam engine, and continues to move forward, generating condensed air, and increasing in speed and

> TO CURE THE CROUP. - A writer in the Country Gentlemen gives the following prescription for the Croup-Divest the child of all clothing about the neck and chest, then bathe the throat water. Let this be done by pouring, sponging or very frequent application of wet cloths .-While this is being done, prepare warm water in a short time; the child should be put quietly to rest, with a jug of warm water to the feet, when perspiration and sleep soon follow. Any one who can follow these directions immediately, and it is a complaint which is soon fatal unless checked in the early stages, and many precious lives are lost because a physician is not at hand until too late to save from suffication.

A PEDLAR MURDERED .-- A Louisville paper publishes an account of the murder of a pedlar in Warrensburg, Mo., who had taken lodgings with a companion at a private house. One of them retired early, leaving his companion sitting up. The latter, after an interval, followed, and groped his way in the dark to the bed, where the other lay, when, putting forth his hand, he found him motionless, and lying in a pool of blood. Ascertaining by further examination that his friend was dead, he turned to go out to give an alarm, but met three men entering the door. These men were the assassins and as they were evidently about to take his life also, the pedlar drew a large knife with which he was armed, and defended himself with such desperation that he killed all of his assailants. Two of the assassins were unarmed, passed; and there being no power to fix the the other bore an axe, the same instrument he The total amount of lard in commerce, is esti-

Corn requires a deep, mellow soil-remem ber that, and do not expect a crop after a plowing of 3 or 4 inches in depth.

"NOVEL PLACE OF CONCEALMENT. - Last Friday a stage driver, named Washington Miller, miss ed a \$5 bill while in a drinking saloon, in Albany, N. Y., and having procured the assistance of an officer, searched a suspected person, named Teelin, but without success, until the officer catching the fellow by the back of the neck, hooked an enormous chew of tobacco out of his mouth, in the centre of which the \$5 note was found snugly ensconced. Teelin was committed to answer.

THE MARCH TO THE GRAVE. - What a mighty procession, has been marching towards the he was choked to death, when his body was grave during the last year. At the annual estimate since the 1st of January, 1853, more than 31,500,000 of the world's population has gone down to the earth. Place them in a long array, and they will form a moving column of more than thirteen hundred to every mile of the hens last year, and yielded him 350 dozen globe's circumference. Only think of it! ponder and think upon it. What a spectacle as they " move on," tramp, tramp-forward upon their stupendous dead march.

Murron Cuors .-- Cut the chops off a loin or the best end of a neck of mutton; pare off the fat, dip them in a beaten egg and strew over them grated bread, seasoned with salt and finely minced parsley—then fry them in a little butter, and make a gravy, or broil them over coals, and butter them in a hot dish. Garnish with fried parsley.

The longer the saw of contention is drawn, the hotter it grows.

The pleasure of doing good is the only one which does not wear out.

Legislative Proceedings.

SENATE. On the 2d of March, Mr. Fry, read a bill in place to incorporate the Lehigh Valley iron

Mr. Buckalew moved for a temporary adjournment, and that when the Senate adjourns to-day, it will adjourn to meet on Tuesday next, at 3 o'clock, P. M.

Mr. Price moved to amend to adjourn to Monday at 3 o'clock.

Mr. Buckalew made a few remarks against the amendment. The object of his motion was to give Senators who reside at a distance to visit their homes, and those who desired to do so, to visit Washington.

This was subsequently amended by general consent, to Tuesday morning at 10 o'clock. Mr. Fry called up Senate bill No. 207, rcalive to the Pennsylvania Lehigh Zine company. Passed through committee and postnoned.

On the 7th of March, Mr. Fry, presented two the office of scaler of weights and measures in

Mr. Fry, (Banks) reported a bill to incorporate the Mauch Chunk Bank. HOUSE.

On the 6th of March, the private calendar was taken up and the following bill was pre-

pared for a second reading. " An Act to legitimate the children of Aaron

Balliet, of Lehigh county. On the 8th of March, Mr. Craig, presented a remonstrance of a certain portion of the school

law, and one for the Mauch Chunk Bank. BURNING MUD FOR COAL .- Dr. Thos. Hooker, of New Orleans, has discovered a chemical preparation which, mixed with mud, as a, bricklayer would mix lime with sand, makes in with pretty girls." Where's the man that

an excellent coal !--coal that can be made and sold in the New Orleans market for thirty cents per barrel, if made by hand, or fifteen cents if made by machinery. It lights easily: there is They also talk twice as fast and four times as no offensive smell emitted; but little smoke, hard. and but very little dust or cinders. What little cinders are left, is good for cleaning silver, brass or other similar metals; and the ashes make a tolerable sand paper, and is also for the arrest of his murderers. good for scrubbing floors, &c, "The patentce and upper part of the chest, freely with cold also assures us," says the American Exponent, in some parts of Ohio, in consequence of the that it will not only burn well in grates (where | drought last summer, which cut off the usual we saw it burning), but in stoves, furnaces supplies necessary for their sustenance. for smelting, and for making steam. In fact, it and immerse the feet in it. This gives relief can be put to all the practical uses of wood or New York is 121 cents per piece, and they coal, except for the purpose of generating have to be well made at that. God help the gas.

> SALT FOR QUINCES .- If you wish your Quince bushes to bear plentiful crops of large and ored lad, in Harrisburg, last week. The golden fruit, train them with a single trunk and former is an old hand at the business, but this a low bushy head, leaving no shoots or suckers | time was caught in the act. to draw their nourishment from the main stem. Then dig up the ground well in spring or early summer, and scatter two to four quarts of salt over the surface as far as the roots extend; after which, spread a thick layer of straw or forest leaves around them, and they will take care of themselves until the fruit harvest, when you will be amply repaid for all your trouble, It may be necessarry, however, when the fruit is well set on the branches, to thin it out somewhat, leaving only the fairest and best formed specimens evenly distributed, to prevent the limbs from breaking down with their burden. ITEMS OF GREASE. -The Cincinnati Price Cur-

rent contains some very interesting statistics upon the produce of lard in our country : " The number of hogs killed the last season and packed for commerce is three millions. The average amount of lard, per hog, is 32 pounds .mated at ninety-six millions of pounds. Of this amount, twenty millions are shipped from Cincinnati. England and Cuba take more lard of us than all the rest of the world. Each of hese countries buy over eight millions pounds. In the West Indies lard is very generally used as a substitute for butter. Lard oil is made more extensively at Cincinnati than at any other point in the Union. Thirty thousand barrels of it are annually sent from that city. The demand for lard over the world is on the ncrease, and prices will probably be sustained.

EXECUTION OF A DESPREATE NEGRO.-The negro Artis, who was sentenced to death for murdering his daughter, was executed at Sydney, Shelby county, Ohio, on the 22d ult. He fought desperately with the officers on his way to the gallows, and tore the coat completely off the deputy sheriff in endeavoring to resist the efforts made in putting the rope around his neck. It took six men to secure him upon the scaffold, and when at last he was swung off, he managed to get hold of the rope with his hands which prevented the fall from breaking his neck. After struggling violently for some time. taken down and burned.

PROFIT IN KEEPING FOWLS .- An intelligent farmer lately published the following result of his experience in keeping fowls. He kept 36 or 4250 eggs, besides 125 chickens. The net proceeds of the sales were \$59 37, the family having had, of course, what eggs and poultry they wanted for their own consumption besides. The whole cost of the grain for keeping the hens was a fraction over \$3, leaving a clear profit of \$55.

FIRES .- The loss by fires in the United States during the month of January, amounted to something like \$7,325,090. During the month of February to \$934,000. For the two months. \$2,259,000.

HARD TIMES .- The receipts for the 17 operatic performances by the Grisi and Mario troupe in Boston, are estimated at from \$45,000 to \$50,000.

## Odds and Ends

Jean Paul says love may slumber

lady's heart; but it always dreams, Good resolutions are like fainting ladie they want to be carried out.

He who pays more attention to his hat than his head, shows which is most prized. Patronize your own merchants and mechanies.

He who can suppress a moment's anger nay prevent many days' sorrow. DA fool observeth nothing and seemeth

wise unto himself. A fool in high station is like a man on the top of a monument-everything appears small

to him, and he appears small to everybody. Eleven horses and dogs were gored to death at a bull fight in Madrid on Christmas. day.

The Democracy of Orwigsburg have denounced Charles Frailey, Esq., for voting for Simon Cameron for U. S. Senator.

Conceit is proud that he has learned so petitions from Lehigh county for the repeal of much; wisdom is humble that he knew no more.

The world is like a stubble-field-in which the greatest geese generally pick up most

of the golden grains. No man can grow rich without industry,

sobriety and economy. Remember that, young man, and shape yourself accordingly. There is a poor, decrepid old beggar in the city of New York, who owns two fine

brick houses in Brooklyn, which he carned by his heart breaking appeals for charity. According to the American Railway Suide for February, there are 29,164 miles of

Railway in the United States, of which Pennsylvania has 1627. A young poet out west, in describing heaven, say's "its a world of bliss fenced in

won't repent now? Girls with red hair are said to fall in leve with twice the intensity of those having black.
