

LATEST FOREIGN NEWS.—By the Asia, we have five days' later news from Europe; but it is not so important as was expected. The bombardment of Sebastopol continued, without material progress towards reducing the town. There is a rumor that the Allies had suspended their fire, but the story wants confirmation. It is stated that there was a severe passage between the French and Russians at a sortie on the 14th, the hottest fight since Inkermann. Another sortie, on the 18th, was promptly repulsed. The French say that they have made some important advances near the Malakoff tower, while Prince Gorchakoff says the fire of the Allies was stacking up; that he had destroyed some of their advanced works, and that the Russian losses were diminishing, and that the Grand Duke Michael and Nicholas have gone to the Crimea. Mentschikoff is not dead. Prussia appears to be siding with Austria in a sortie on the 14th, the hottest fight since Inkermann. The Chinese insurgents have left Shanghai. The opening of the Universal Exhibition at Paris had been postponed to the 10th or 15th of May.

The cholera has broken out among the French troops at Sebastopol, and was raging fiercely. Some very suspicious messages are passing between Austria and Prussia. The Vienna Conference had broken up. Lord Palmerston had announced in Parliament that in these conferences Russia had submitted no counter proposals, and simply rejected those of the Allies. The telegraph, however, of a date subsequent to this announcement, tells us of an additional conference, at which Russia submitted propositions which were immediately rejected.

The telegraph communication between London and the Crimea is now complete, and a message has been received thereby. The Emperor Napoleon is about to set out for the Crimea. His camp equipage is said to have already gone there. It is said that Gen. Pellissier will supersede Canrobert.

A NEW ORDER.—According to a correspondent of the New York Tribune, a new Order called "the Know Somethings," has just been organized in Ohio. Among the leading principles are the following:—

1. Opposition to all forms of tyranny over the mind and body of man.
2. Neither Nature, nor the Constitution of our country, recognizes the right of man to property in man.
3. Principles and character—not birth-place—are the true standard of qualification for citizenship.
4. No adherent of any Foreign power, either political or politico-ecclesiastic, should be eligible to naturalization.
5. There should be neither Slavery nor involuntary servitude, except for the punishment of crime, in any of the Territories; nor should any more Slave States be added to the Union.
6. Candidates for political offices should be men of undoubted integrity and sobriety, and known to be in favor of resisting by all lawful and constitutional means the aggression of Popery and Slavery.
7. The People are the rightful sources of political power, and all officers should, as far as practicable, be chosen by a direct vote of the People.

THE WORLD COMING TO AN END.—Dr. Combing, an eloquent Scotch preacher, and a popular theological writer, has published a work on the "Signs of the Times," in which, respecting the question of Times, he affiliates very closely with the view of the Millerites.

His theory is, that Christ will come in 1864—that the advent will be what is termed pre-millennial, or, in other words, that Christ will come before the millennium, and the millennium glories will consist of Christ's personal reign on earth for a thousand years—that the Jews will be gathered to Jerusalem to be converted—that the Moslem power is about to expire, not by destruction of the Turks, but by their conversion and absorption into the Church—that Popery will be destroyed by Christ's coming, and not before it. Such are few of the leading points in his somewhat loosely expressed theory of adventism.

THE SHIPPING OF THE WORLD.—The London News of the 12th of April, has an elaborate article on the Shipping of the World, which shows that the floating tonnage of the civilized world, excluding only China and the East, consists of 146,000 vessels, of 15,500,000 tons. The number of seamen it gets down at 800,000, and including the Eastern and other States, of the maritime population of which we have no accounts, there must be at least a million of persons engaged at sea, and generally on the ocean.

On Saturday last, a woman living in Middlesex county, N. J., became so frightened at the burning of a barn, that she died almost immediately.

Important Information. It will be recollected that a clause in the bounty land law of 1850, exempts warrants issued under it, and the land located by the warrant, until the patent issues, from being taken under execution for debt. On passing from the party for whose service the warrant or donation is given, this exemption is inoperative. No sale or attachment of such warrant or land, until patented, by order of any court for any purpose, except to have the proceeds divided among the heirs of the person for whose services the warrant was granted, is valid under the law—that is, so long as the warrant is in the name of the warrantee.

SUPERIORITY OF AMERICAN IRON.—In a lecture recently read before the London Society of Arts, by Prof. Wilson, on the Iron Industry of the United States, he awarded the prize for superiority in quality to the American over English iron, for railroads. English iron rails, it was stated, were used because they were so cheap. On all the curves, and places requiring the best iron, American iron was preferred, and the manufacturer found a ready market for all he could make at his own furnace.

LOCUSTS IN GEORGIA.—We learn from the Griffin (Geo.) Union that the locusts have made their appearance in that region within the last few days. From the vast number with which the forests are infested there is reason to fear something like one of the plagues, that was visited upon Egypt in olden times. They seem disposed to devour all vegetable life that falls in their way.

PROTECTION OF LANDLORDS.—The Legislature, at its late session, passed a bill to protect hotel and tavern keepers, which has received the signature of the Governor. It gives the right to the landlord to retain the lodger's trunk for payment of board, and with the Restraint Liquor bill, will be a great thing for hotel keepers, as both will protect them from loafers and swindlers.

A LARGE HOG.—A hog, said to weigh thirteen hundred and thirteen pounds, was taken through Toledo on Friday last on its way for exhibition in New York. This monstrous animal is described as three years old, three feet eight inches high, and nine feet long. It was raised near Monroe, Michigan.

THE WORD "ITS."—Through the whole of our authorized version of the Bible "its" does not occur; by the work which it now performs being accomplished by "his" or "her" applied as freely to inanimate things as to persons, or else by "thereof" or "of it." Trench remarks that "its" occurs but three times in all Shakespeare, and he doubts whether it is in Paradise Lost.

CAKES FOR BREAKFAST.—At night put two or three slices of light bread, broken fine, to soak in a pint and a half of milk, in the morning mash it well, and add three eggs and flour to make a batter, with the addition of another half pint of milk; bake as usual. They are very light. Should be sent hot to the table.

STARTLING, BUT TRUE!

WHAT EVERY WOMAN SHOULD KNOW. How often it happens, that the wife lingers from year to year in that pitiable condition as not even for one day to feel the happy and exhilarating influence incident to the enjoyment of health.

THE BLOOMING BRIDE.

But a few years ago in the flush of health and youth, and buoyancy of spirits, rapidly, and apparently inexplicably, becomes a feeble, sickly, sorrow, debilitated wife, with fringes emaciated, nerves unstrung, spirits depressed, countenance bearing the impress of suffering, and an utter physical and mental prostration, arising from ignorance of the simplest and plainest rules of health as connected with the marriage state, the violation of which entails disease, suffering and misery, not only to the wife, but often HEREDITARY COMPLAINTS UPON THE CHILDREN.

"UNTO THE THIRD AND FOURTH GENERATION," TRANSMITTING CONSUMPTION, SCROFULA, RHEUMATISM, INSANITY, GOITR, KING'S EVIL, and other and worse Diseases, as a

DREADFUL INHERITANCE

FROM THEIR PARENTS. "And must this continue? Must this be? Is there no remedy? No relief? No hope? The remedy is by knowing the causes and averting them, and knowing the remedies, and benefiting by them. These are pointed out in

THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION,

BY DR. A. M. MAURICEAU, PROPRIETOR OF DISEASES OF WOMEN. One Hundredth Edition, (500,000), 13mo., pp. 224. (ON FINE PAPER, EXTRA BINDING, \$1.00.)

A standard work of established reputation, found in the catalogues of the great trade houses in New York, Philadelphia, and other cities, and sold by the principal bookellers in the United States. It was first published in 1841, since which time
