The Mormon Immigration.

The valley of the Salt Lake is being rapidly peopled with Mormon immigrants from all quarters of the habitable globe, and the work of propagating the principles of this singular sect is now systematically carried on by clders and missionaries in almost every civilized and as well as semi-savage country. These men labor with a zeal untiring, a devotion that knows no limits, suffering hunger and thirst, privation, insult and contempt, for the advancement of the faith they preach and profess. ocracy, in the valley of the Salt Lake, where forts have been made to promote immigration to Europe, but even from the remote Asia and Africa. In every scaport of any consequence in this country and in Europe, Emigration dition of \$100,000,000 were made to the specie Agents are located to give information to the basis of our currency, and bank notes entirely Utah, and arrange for safe and speedy trans- maintain it; an amount far below the annual portation to that distant country. All along average loss occasioned by depreciated bank the line of travel, too, other agents are in waiting with the necessary supplies for the journey, upon the expansions and subsequent sudden and under the auspices of Mormonism the great contractions of paper issues. The largest deland voyage across the plains is now almost as safe as a journey from New York to Albany.

The faithful of the fold of Latter Day Saints whose poverty prevent their undertaking the journey, are forwarded at the expense of the "Perpetual Emigration Fund." Wealthy men among the sect support this fund by their contributions, and those who are sent out at its expense mortgage a certain portion of the proceeds of their labor after arriving in the happy valley to repay the cost—thus the fund is made perpetual. The season for emigrating is between November and April; this season the Liverpool agency have sent off over 3,600 immigrants, of whom above 1,100 were sent at the expense of the fund. Heretofore these immigrants have usually entered this country through Southern ports, avoiding New York altogether; but it would seem that the aversion is wearing off. Yesterday the packet ship S. Curling brought to New York 570 of these immigrants, and the ship William Stetson is on the way hither with 203 more. We believe there are still other vessels now due here laden with Mormons .- N. TERRIPIC WHIRLWIND IN ILLINOIS. -- We have accounts from Chicago of a most terrific hurricane and whirlwind in the town of Jefferson Cook county, and other places north and west of that place. On Tuesday afternoon a revolving funnel-shaped cloud passed swiftly along near the ground, about sixteen miles north of here, carrying up large sticks of wood, stones, &c. It described a semi-circle towards the southeast, twisting off large trees, and whisking them out of sight instanter. The wirlwind then broke in two and disappeared, but almost immediately formed again, and passed directly back, north and west, with redoubled violence. It struck a heavy frame house one mile from the Illinois and Wisconsin railroad, tearing the roof instantly off, and almost immediately afterwards taking the whole house up the spout with all its contents.

Nine persons in the house were drawn up and hurled down in different places. Four of them were instantly killed, and others mutilated beyond any prospect of recovery. The whirlwind then passed over a post and rail fence, leaving not the slightest vestige of it. It next took up a barn, and threw it upon the horse and cattle it contained, crushing them at Illinois Institute, pledge ourselves not to keep once. The timbers of the house and barn were company with or join in the sacred bonds of hurled down to the ground with such violence matrimony with any young gentleman who is as to bury them almost out of sight! Additional intelligence from the locality more than confirms the above. Accounts are given of persons being carried up one hundred feet in the air and then hurled down with great violence. A number of eye witnesses have testified to the ravages of the tempest, and describe it as most terrific. The same afternoon, a severe hail storm occurred in this city, after which the sky presented a very singular appearance to the northward, and the weather changed from the most oppressive heat to the most chilling atmosphere

one of the gratuitious attractions of Barnum's Museum. At the present time, however, she prepared, so as to preserve it as a token of comes attended by her hirsute son, the "infant Esau," as he is called in the bills.

The young man whose tender age-not two years-does not permit him to resign his peticoats, has such a luxuriance of beard, that not content with covering the entire face, with the exception of the nose and upper lip, it settles all over his neck, back and arms. What is singular is that the beard is flaxen, while the down of the other parts of the child's person is jet back. The growth on the top of the head is long and of a light brewn color, and, saving the whiskers, the child is a very pretty one, although its beauty is by no means of that sort which draws us by a single hair .- N. Population of Russia.—But few have a correct idea of the extent and population of the great Russian Empire. There has been but seven cersus (or "Revision of the Population," as it is salled) taken of all the Russias. The first 17,2, ordered by Perra I; the last in 1851, caused to be made by the late Czar .-The result of this late labor has not yet been published in any English paper. M. Peter VON Korp, of the St. Petersburg Academy, has sifted the tables and presents the following result: Total number of Square miles in the Russquare n ile, 174.

GOLD COIN .- It has been ascertained by carefully conducted experiments, that the loss by friction or wear upon gold coin, when in use as currency, does not exceed a twentieth of one per cent. per annum, and upon silver a half of 371,838 spindles, and 11,407 looms. At last two thousand years before it would entirely disappear; a silver coin would last two hundred years; 900 new cagles outweigh 901 which have had one year's circulation; 900 dimes outweigh 907 under similar circumstances. > DIABOLICAL MURDERS.—A colored man named George Parker, residing on the outskirts of the town of Dover, Del., murdered two of his children on Thursday last, by cutting their throats; show a girl living in the family, wounding her severely; attempted to kill his wife; went over to a neighbor named Slaughter, attempted to shoot him as he opened the door; then proceeded to another neighbor, named blackemiths' shops. Gibbs, who ran out the back door, pursued by Parker, who fired at him, but missed him.

A party collected and pursued him, whom he kept at bay for a long time; they returned his fire, and when his gun was empty, closed upon and after a desperate struggle, secured him by holding him on the ground, a man on each of his arms and legs, and one upon his breast until manacles were brought and placed upon him, when he was tied upon a cart and lodged in Dover jail. No cause is given for this fiendish conduct, but we presume he was laboring under a mania of some kind.

INDEPENDENT CATHOLIC CHURCHES .- Americans, who profess the Catholic religion, and many foreigners, who feel that in this country the temporal power of the Pope should be thrown off, have evinced a determination to establish an American Catholic Church. This feeling prevades not only the laymen but the Priests, and in New York, we see a wish expressed that some leading paper would call a meeting of the intelligent and independent laity to organize a number of independent Catholic churces in that city,-who shall and will own and maintain their own church, and call permanently a priest at their own charge, who shall, if he so will, "marry," and that the whole service of the church shall be performed in the English language, and that members of the church shall be allowed the Bible in their families, and such other improvments in the worship as this enlightened age demands.

SMART GIRLS .- The young ladies of the Illinois Institute, at Wheaton, Du Page county, recently passed the following resolution unanimously:

The New York Commercial commenting on the above says: "It has generally been the custom for ladies to 'wait till they're asked,' especially young ladies still at school.

EAGLE KILLED BY A WOMAN.—The Pottstown Ledger states that on Friday of last week, the wife of D. G. Crampton, residing at Valley Forge, was the heroine of a feat that seldom falls to the lot of a woman, and that was in killing, without powder or shot, an eagle measuring five feet from the tips of his wing. The eagle was sitting on a post near the house, when Mrs. Crampton threw a stone at it, striking it THE INFANT ESAU "IN TOWN."-Madame in the head and stunning it. She then procured Olofullia, the bearded lady, has again come to a club, and after some difficulty succeeded in town, and her full length portrait is once more killing the king of birds. The husband took it to the city, for the purpose of having it properly his wife's prowess.

> A TELEGRAPH ACROSS THE OCEAN.—The New York Evangelist says that the arrangements for a Telegraph across the Ocean are rapidly progressing. The Directors of the Company are busily engaged, and in three months from the present time, it is comtemplated that the Old World and the New will be within a week's hail of each other, and within three years, the two hemispheres will be within instantaneous cummunication. The American Company and the English Company have united their interest, and the two are now acting cordially to-

UNITED STATES SENATE. - There are six vacancies in the United States Senate-one whig and five democratic. New Hampshire, Indiana, Alabama, Missouri, California and Pennsylvania have each to elect a Senator. Mr. Gwin, of California, will claim a seat on the ground that a plurality vote elects in California, and he got that vote on the first ballot.

LOBSTER TRADE.—It is estimated that there are consumed annually in and about Boston about 700,000 lobsters, the prime cost of which is about \$80 per thousand. This makes the months, will be held at the office of the Company. are consumed annually in and about Boston snug little sum of \$56,000. STATISTICS OF LOWELL MANUFACTURES.—The capital invested in the manufactories of Lowell on the 1st of January amounted to over \$14, JUST RECEIVED 000,000. There are fifty-two mills running,

one per cent. per annum. In other words, a these and other departments of the woolen and gold coin kept constantly in circulation, would cotton manufacture 8,723 females and 4,542 males are employed. This working force produced weekly 2,288,000 yards of cotton cloth, 30,000 yards of woollens, 25,000 yards of carpeting, and 50 rugs, consuming therefore 735,-000 lbs. of cotton and 90,000 lbs. of wool.

How to Prepare sundry Pleasant Dishes. -Lemon Pies .- A lady tells the Agriculturist how to make four lemon pics. Grate the peels of four lemons, and squeeze the juice into the grated peois. Then take nine eggs, leaving out half of the whites, one pound of loaf (or white) sugar, half a pound of butter, one int of cream (or of milk,) and four tablespoonfung of rosewater, and beat them well together, and add the lemon. Divide into four pies, with undercrust, and bake.

CHINESE BARBARITY.—The Celestials have a queer way of disposing of the persons of their prisoners taken in battle. At the recent recapture of Shanghai by the Imperialists, several of the rebels were caught, taken into the camp. decapitated, disemboweled, their livers sold for a dollar apiece, and the heads sent down to the city, where they were suspended by the hair and tail from a bamboo, and served to decorate the walls.

Going Anead.—Leavenworth Town, Kansas Territory, named from the fort standing there, now contains, it is said, 800 inhabitants, a steam saw-mill, two brick-yards, one large three story hotel, four boarding-houses, five dry goods stores, five groceries, two boot and shoe stores, two saddlery shops, one tinshop and two

GUINEA FOWLS AND RATS. -A correspondent of the Prairie Farmer, who was much annoyed by rats, tried shooting, poisoning, and everything he could think of, but they defied the whole cat-egory. He then procured several guinea fowls, and, for over two years past, has neither seen nor heard a rat about his premises.

GOOD CEMENT.—Take some common lime and mix it with a quantity of tar-just enough to make a tough dough. Use it quick, because it becomes hard in a few moments, and will never soak or crumble. This is a first-rate cement for the purpose of making swine-troughs, feedboxes, cave-troughs and many other things.

REMARKABLE CATASTROPHE. - Five children were killed, near Empire City, Oregon, on the 26th of March last, by the falling of a spruce tree two hundred and fifty feet in height. The heavy branches crushed through the roof and floor of the house, instantly killing five of the eight persons who were within at the time.

A standard work of established reputation, found classed in the catalogues of the great trade sales in New York. Philadelphia, and other cities, and sold by the principal booksellors in the United Statos. It was first published in 1847, since which Line S 50584.

ONE HUNDRED THOUSAND

BOOK FOR EVERY FEMALE the author having devoted his exclusive attention to the treatment of complaints neculiar to females, in respect to which he is yearly consulted by thousands both in person and by letter.

Hero overy woman can discover, by comparing her own symptoms with those described, the nature, character, causes of, and the proper remedies for, her complaints. The wife about becoming a mother has often need of instruction and advice of the utmost importance to her future health, in respect to which her sensitiveness forbids consulting a medical gentleman, will find such instruction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm as all

the peculiarities incident to her situation are described. How many are suffering from obstructions or irregularities peculiar to the female system, which undermine the health, the effects of which they are ignorant, and which their delicacy forbids seeking medical advices. Many suffering from prolapsus uteri (falling of the womb or from fluor albus (weakness, debility, &c.) Many in constant agony for many months preceding confi ment Many have difficult if not dangerous deliveries. and slow and uncertain recoveries. Some whose lives and hazarded during such time, will each find in its pages the means of prevention, amelieration and relief-

It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage. Reader, are you a husband or a father? a wife or a mother? Have you the sincore welfare of these you love at heart? Prove your sincerity, and lose no time in learning what causes interfere with their health and happiness not less than your own. It will avoid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by sleepless nights, incapacitating the mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advertised nostrums which otherwise would provide for declining years, the infirmities of age and the proper education of vour children.
