

APPALLING SACRIFICE OF LIFE.—War was declared against Russia by England and France in March, 1854—only sixteen months ago. The prodigious loss of life which hostilities have, during that short space of time, occasioned begins to call forth remark from the European press. The progress of enlightenment and of science does not seem from the calculations that are made, to have rendered war less bloody than of yore, nor to have diminished the aggregate of losses by exposure and disease. Since the declaration of war by Turkey, in the autumn of 1853, the loss to that Empire is estimated at 130,000 men. The French have, since their arrival in the Crimea, lost 70,000, dead or invalid; while the British have suffered to the extent of 30,000. The loss of the Russians is variously estimated from 250,000 to 300,000. Austria, too, though not at war, has suffered immensely by diminution of force in the unhealthy localities where she has been obliged to place her armies. Taking also into account the mortality on board the ships of war and transports, and among laborers of different kinds attached to the armies, of whom there are thousands in the Crimea, it may be assumed that from 600,000 to 700,000 men have perished or become invalid since the commencement of the war. What the amount of mortality will be when operations shall be conducted on a larger scale—when bloody battles shall be fought in the open field and gigantic contests shall decide the issue of campaigns—remains hidden in the future. The war of the French Republic and Empire cost to Europe 6,000,000 of men; but, if we may judge from the past eighteen months, the present struggle is destined to exceed all that have gone before it in the wide-spread destruction which it will cause.—*Journal of Commerce.*

ATTACK BY A SNAKE.—A little girl about ten years of age, daughter of Joseph Hemphill, Esq., of West Chester, was very much frightened on Monday last, by a snake by which she was attacked. She was in company with several other small children playing in the woods of Dr. Bardin, just out of the limits of the borough, when she came upon a large speckled snake, (perhaps a black snake,) with young ones.—When she discovered the reptile, she was very much frightened and ran, and the snake gave chase. In clambering the fence the snake overtook her and made a spring and coiled itself around her body, when it held on and wrapped itself round, until it was removed by a man who was laboring in a neighboring field, who was alarmed by the screams of the children. It is, fortunately, not often we are called upon to relate incidents of this character, though we are informed that it is well known that the snake will attack persons in defence of its young ones. It was most lucky that aid was at hand to relieve the frightened child from the embraces of the disgusting reptile. The child had been gathering raspberries, and was separated from her little companions, and the young snakes appeared to be coiled up in a heap; and it was not until she commenced retreating that the snake pursued. The snake was coiled nearly twice around her person, and with such force as to greatly impede her progress.

KANSAS AFFAIRS.—Among the bills introduced into the mob Legislature of Kansas, were several requiring New England emigrants to take an oath of allegiance, laying a poll tax on them, allowing none to vote except those who pay it, and authorizing the imprisonment of Kansas offenders in the jails of Missouri. Late intelligence states that the Legislature adjourned on the 6th inst., to meet at Shawnee Mission on the 16th. When their Committee waited on Gov. Reeder, to inform him of their determination to go, he informed them in very distinct terms that he would not recognize any further action of theirs, but would consider them dissolved by that act. That body appears to be in a "fix."

PUNCTUATION OF THE BIBLE.—In the original manuscripts of the Bible there was no division between the words, and no punctuation marks. The writing was continued across the line without any opening between the letters, in this manner:—for the letters were all of a size—in the beginning was the word and the word was with god and the word was god. It often happens that different words are made by separating the letters differently, and hence the meaning of a passage depends upon the division which is made of these rows of letters, and scholars often differ in regard to this division.

REMEDY FOR THE SUMMER COMPLAINT.—The great increase of deaths among children has become cause for serious apprehension, and any remedy to avert the fatality should be tried.—We have been told of a remedy for cholera infantum, which is said to be excellent, and its simplicity will warrant a trial. Here it is:—Take one pound of flour and wrap it tightly in a cloth, after which boil it for three hours; let it get perfectly cool before the removal of the cloth; then remove all the glutinous substance from the outside, which will leave the interior portion hard like chalk. This should be grated to serve as a thickening for milk, (from one cow, if possible to obtain it,) upon which to feed the patient. It will keep for a long time, and it is said by those who have used it, to be more beneficial than anything else.

A DIAMOND FOUND IN PENNSYLVANIA.—A supposed diamond of extraordinary size, has recently been found in Lancaster county, Pa., and is deposited in Professor Philip's office, Philadelphia. It is colorless, perfectly crystalline, resembling a drop of clear spring water, in the middle of which you will perceive a strong light, playing with a good deal of spirit. The geologist does not announce it to be of the first water, although there is not the least doubt of its being of considerable value. Offers of importance, it is said, have been declined for it. Nothing, it is supposed, like it was ever discovered before in the United States.

SALT MAKING IN VIRGINIA.—Two years since a few individuals commenced boring salt wells at Pomeroy in Meigs county, Ohio, and their efforts were crowned with success in obtaining a greater supply from one well alone than had ever been known. Encouraged by this result they subscribed twenty-five thousand dollars for the erection of a furnace, one hundred and fifty feet, in length, upon the improved plan of evaporating by steam, and in four or five months afterwards it was in successful operation. Ever since its produce has been from seven to eight hundred bushels of salt daily, and, although their first attempt and only experience in salt-operations, they declared a dividend for the first year of sixty per cent., and this present year they will divide seventy per cent. Since the erection of this furnace there have been five others built, all of which have been successful. The salt is purchased on contract by the Kanawha Salt Company, and their agents pay for it the fifteenth of each month, so that the manufacturers have a ready and cash sale at home for all they make without resorting to remote markets. The process of making salt by the present plan of steam evaporation, is very simple and economical, and is going forward night and day.—*Wheeling Intelligencer.*

COST OF A CITY GOVERNMENT.—It has already been mentioned that the cost of the municipal government of New York this year amount to something like six million of dollars.—Among the leading items are the following:—\$613,450 for almshouse; \$819,400 for police; \$410,449 for paving and cleaning streets; \$405,466 school bill; \$330,380 for lamps and gas; \$243,499 State tax; \$346,614 deficiency in tax for 1854; \$100,000 for repairs of public buildings; \$120,000 for contingent expenses of county; \$194,000 interest on revenue bonds; \$320,000 salaries; \$123,500 Croton water department, and lots of items from \$150 to \$50,000.

SNOW.—Some patches of snow still remain on the north eastern slopes of the White Mountains. On Mount Jefferson there is a bank some four feet deep. At this place, snow has remained in former years till the middle of August. On Mount Adams, snow is visible from the northern side, though the quantity is less than on Mount Jefferson.

SUGAR.—The average annual quantity of cane sugar produced and sent into the markets of the civilized world is above one million tons, exclusive of that manufactured in China and the Malayan archipelago. The value of this sugar cannot be estimated at less than \$75,000,000.

AN ANCIENT APPLE TREE.—The editor of the Manchester (N. H.) *Mirror* has been eating apples from a tree that is 120 years old. The tree was planted in Bedford, by John Goffe, prior to the year 1740, and is now in good bearing condition.

Singer's Sewing Machine.
DURING the last four years these machines have been fully tested in all kinds of materials that can be sewed, and have rendered general satisfaction. Truly thousands of worthless Sewing Machines have been brought before the public, yet Singer's alone has merited and obtained a good reputation for its perfection and real worth. To a tailor or seamstress one of these Machines will bring a yearly income of \$750.
The undersigned has purchased from I. M. Singer & Comp. the right of use for the Machines, and also to transfer the same to others, in the following localities: The State of Wisconsin, the northern part of Indiana, and Pennsylvania (with the exception of the counties of Erie, Allegheny, Philadelphia, and Westmoreland) and is now prepared to sell All orders for the Machines will be punctually attended to. In all cases where a Machine is ordered, a good practical tailor and operator will accompany the same, to instruct the purchaser how to use it. A bill of sale is sent with each Machine. The price of the Machine, with erection in the dwelling of the purchaser, with printed or personal instructions is \$125. For further information address

Glorious News!
FOR all those ladies and gentlemen that had to work hard for their dollars and cents through lay-making and lawyer. Joseph Stopp has just returned from New York and Philadelphia, and he is now going to sell off his entire stock of Summer Goods at near half price, so as to enable him to make room for a new winter stock. Stopp is determined to sell Parasols at half price; Lawns worth 25 cents he sells at 12 1/2; some worth 12 1/2 he sells at 6 1/2; collars 4 cents; fine needle worked handkerchiefs at 6 1/2; collars 4 cents; calicoes worth 12 1/2 he sells at 6 1/2; black cravats, and a fine lot of fans going off almost for nothing. Mantillas at almost half price, also a fine lot of silks and berge, a little too nice and cheap for cash.—(Glorious news, good times for the people, if they call at Joseph Stopp's Cheap Cash Store, No. 41, at the corner of Hamilton and Eighth streets, near Hazenbush's Hotel, in Allentown. If you want Ready-made Clothing or the stuff to make them, Stopp sells almost for half price. Well I do declare that Stopp is just as contrary as Dick's hat band, and it goes twice round and stops nowhere, for every thing is high now and Stopp sells every thing very low, or cheaper than ever for cash. Look out, gentlemen, if he ever falls just, I knew that for he sold too cheap; then you hit the nail right on the head.
JOSEPH STOPP.

A New MARBLE YARD IN ALLENTOWN.
Between Drescher's and Hoffman & Bro's Lumber Yards, in Hamilton street.
P. F. Eisenbraun & Co.,
RESPECTFULLY inform the citizens of Allentown and the public in general, that they have opened a MARBLE YARD at the above named place, and are carrying on the business on an extensive scale. They have now in their Yard a very large and choice stock of Italian and American Marble which they are manufacturing into Tombs, Monuments, Head and Foot Stones, Mantle Pieces, Table and Bureau Tops, Window and Door Sills, Steps, Posts, &c. Lettering of the best style done in English and German characters, and all kinds of Ornamental Work executed in the highest style of art and in the most substantial manner; they will be pleased to furnish engravings and designs to suit the wishes of the public. They flatter themselves in doing so good work as is done in Pennsylvania, and certainly the best in this section, and to satisfy the public of the truth of this assertion, they invite them to call at their yard and examine their stock and style of work. They furnish all kinds of Sculptures and Ornamental Work, such as has never been made in Allentown. They also keep on hand some beautiful sculptures made out of Italian marble, consisting of very neat and most chaste designs for Cemetery purposes, with Lambas Carved to lay on the top, Flower Vases, Urns, Doves, and many other figures, to which they invite the attention of the public. Great inducements are offered to country manufacturers to furnish them with American and Italian marble of the best quality, as they have made such arrangements as to enable them to furnish it at city prices. They hope by strict and prompt attention to business, moderate prices, and furnishing the best work in town, to merit a liberal share of patronage.
