LATEST FROM EUROPE .--- By the arrival at Halifax, on Wednesday, of the steamship Asia, we have later news from Europe. In the British House of Commons Mr. Roebuck's motion of want of confidence in the Ministry has been rejected by over one hundred majority, and the ministry thus stands. There was a rumor in London that Sir William Molesworth will succeed Lord John Russell as Colonial Secretary. A new Spanish Minister for the United States has been appointed. The rupture between Rome and Spain, in consequence of the Church property bill, is complete, and the Papal Charge had demanded his passports. The Black Warrior dispute has been definitely settled by the allowance of an indemnity of one million of reals. A General of the Carlist army had been shot at Garonne. \_Several insurrectionary skirmishes had taken place at Burgos. Austrichad addressed a circular to the German Diet, strongly favoring peace, and threatening to hold the Principalities while hostilities continue. She asks the German Confederation to maintain its present attitude. The and lo ! the goose was ' on the string.' Anoth-Diet replied in a pacific tone. In the Princi- er goose afflicted with a luxurious palate, swalpalities the reduction of the Austrain force lowed the cel, but without any particular satiscontinues. In Asia, the Russians are besieging | faction : as the cel hardly noticed any obstruc-Kars, and the Turks are hard pressed. At Sebastopol the Russians have made several sorties, all repulsed, however. Denmark refuses to abolish the Sound ducs.

The general prospects of the war, at home and abroad, were not very encouraging. Partial successes before Sebastopol have, however. revived the drooping spirits of the army, although the small reported losses of the Allies show that the successes were not of importance.

Pelissier, whose character suffered much after the rupulse of the 18th of June, was regaining enteen geese attached to his wrist, and ere he confidence, and from the strength of the French works, now close advanced towards the Malakeff, there is a probability of its early capture.

General Eyre, the British General, has had his leg amputated. General Sir John Campbell died within Sebastopol, and under a flag of truce his sword was returned.

FURTHER NEWS .- The steamship Washington arrived at New-York on Thursday morning, with 225 passengers. Admiral Machinkeff, in command of the Russian fleet in the harbor of Sebastopol, was killed during the attack of July 11th. The correspondent of the London News writes under date of July 15th, " we are still far from the works of the enemy, and as the space between us is swept in every direction by the Russian projectiles, our approaches progress very slowly." In the attack on Nystadt, made by the English frigate Harrier, on the 24th of June, forty-seven Russian merchant ships were destroyed, amounting in the aggregate to about 20,000 tons.

TRIAL OF MOWING MACHINES .---- There was a trial on the 10th ult., near Newark, N. J., of several mowing machines under the auspices of the State Agricultural Society. The trial took place on the farm of Obediah Mecker in presence of a very large concourse of spectators, estimated at two thousand persons. The day was mild and pleasant, and the New Jersey farmers came in all sorts of vehicles, lining the road fences for nearly a mile each way from the field operated on.

Ketchum's, Allen's, Whitenack's, Manney's, Forbush's Deitz & Dunham's machines were used and all worked well, though each had their favorites. Ketchum's machine being the best known has perhaps the most friends. Allen's too is a favorite in New Jersey, and upon rather rough ground, in coarse grass mixed with briars, cut a smooth swath.

The machine called Whitenack's seemed to be the favorite with the largest number. Mr. says he used one of these machines all last its perhaps two hundred thousand, in compari-Dunn, a large farmer of Hunterdon County.

How Wild Geese are Taken. The way they catch wild geese, says the Buffalo Republic, on the western waters, is sufficiently wonderful without at all taxing the incredulity of any one. They are very fond of swimming very near the surface of the water.-It is very soldom the geese can get hold of this choice morsel, and when they do, they have a grand jollification over it. Thiswel the hunters use to bait for these geeseships. "A short time since two hunters went out to catch wild geese. One hunter laid down in the canoe with a trout line attached to his wrist, and on the other end, in the water, was tied the nimble sharp headed and active cel before spoken of. The canoe floated slowly through the marshes, and came gradually among a large flock of geese and the cel'swimming along close to the surface. One venerable bon rivant of a goose gobbled up the cel like a flash : also the cel had made its way through the body of the epicure, tion and travelled through the "goose grease" with searcely any effort. And so this identical cel travelled and travelled until some seventeen geese were on the strings, and our scientific friend, thinking that he had been fortunate

enough, commenced hauling them into the boat. But wonder of wonders, the seventcen geese rose upon their wing as one goose, and before our friend of the canoe could make a will or say a prayer, he was lifted bodily from the canoe, through the combined efforts of the sevwas aware of it was thirty fect above the water. A friend of his on shore, who saw the difficulty, and his rifle fortunately being loadcd, shot off the string and rescued his friend.-So instead of wild goose, our hunter got 'cold duck'; and although he fishes no more for wild geese with cels, he is prepared to affirm, asseverate or swear to the truth of the fore-

going.

THE POPULATION OF NEW YORK AND BOSTON. -In 1730 the population of Boston was 11,000 and that of New York, 8,000. In 1850 Doston 136,881; New York, 515,547. In each city a census has recently been taken, and the result. it is said, will be as follows : Boston, 150,000 : New York, 750,000. If these figures are correet, or nearly so, they will show the enormous increase in New York, of 235,600 people in five years : \$5,000 more than the entire population of Boston, and 91,000 more than the increase of New York from 1854 to 1850, which was 144.000-viz: from 371.000 to 515.000. Beside this great superiority of New York, with municipal limits, it has a larger suburban popu-

lation than Boston, as Brooklyn, alone, has more people than the whole vicinity of Boston. comprising Cambridge, Charleston, Chelsea. Roxbury, &c. A great many large villages are within a few miles of New York, and they are mainly inhabited by people employed in the which figure there are more sellers, than buy-city. The places are increasing at a greater ers. In Rye Flour no change. Corn Meal city. The places are increasing at a greater rate even than New York itself. Brooklyn fifteen years ago held but 36,000 people; now nearly 200,000, or 50,000 more than the city of Boston. Williamsburg, in its corporate limits, in 1853, had 45,000 souls.

The population of New York, as lately ascertained, places that city in the front rank of for inferior and prime white, including about cities on the civilized globe. London and Paris, 2000 bushels Georgia red, before arrival, on cities on the civilized globe. London and Paris, alone, surpass it in numbers. In another de cade or two, New York will overtake Paris, and have only the single rival, London, the Oats are less active, and prices are drooping mistress of the world, to compete with. Boston 900 bushels new Delaware sold at 47 cts, and will be lost sight of even more than now, with

NEW YORK CATTLE MARKET. - The Tribune of Thursday says :-- There was a slight decline in prices of Cattle yesterday, and a considerable increase in the supply, both of the day and week. But a small number sold over 10c. and a small and very active cel, armed with sharp some of the very best at 101. A small portion head and teeth, whose habits insist upon its of those offered for sale are characterized as only fit for very mean dog-meat. The prospect of any advance in the price of Beef is not a flattering one for drovers who have been waiting for that desideratum.

> RATTLESNAKES IN OREGON.-These venom ous reptiles seem to abound in Southern Ore gon. Three men recently, went to the moun tains where dens of these sorkes were known to exist in large numbers, and in a short time killed seven hundred of them.

# Glorious Meres!

POR all those ladies and gentlemen that had LIVERY STABLE. to work hard for their dollars and cents through hay-making and harvest. Joseph Stopp has just returned from New York and Philadelphia, and he is now going to sell off his entire stock of Summer Goods at near half price. so as to enable him to make room for a new winter stock. Stopp is determined to sell Parasols at half price ; Lawns worth 25 cents he sells at 121; some worth 123 he sells at 64 cents per yard; fine needle worked handker-chiefs at 64: collars 4 cents : calicoes worth 125 he sells at 61 : black mits and a fine lot of funs going off almost for nothing. Mantillas at almost half price, also a fine lot of silks and berge, a little too nice and cheap for eash. Glorious news, good times for the people, if they call at Joseph Stopp's Cheap Cash Store, No. 41, at the corner of Hamilton and Eighth  $\eta -1y$ streets, near Hagenbuch's Hotel, in Allentown, If you want Rendy-made Clothing or the stuff to make them, Stopp sells almost for half price. Well I do declare that Stopp is just as contrary as Dick's hat band, for it goes twice round and ties no where, for every thing is high now and Stopp sells every thing very low, or cheaper than ever for Cash. Look out, gentlemen, if he ever fails, just say, I knew that for he sold too cheap ; then you hit the nail right on the head. JOSEPH STOPP.

### A Year of Plenty.

Eighteen Hundred and Fifty-five will be entitled to golden remembrances in our national chronology, as the Year of Plenty. Never were the labors of the husbandmen rewarded with such abundant crops, and, coming after a season, if not of famine, at least of pinching prices, the rich abundance of our fields, orchness of the country over its vast extent, afford us sufficient cause for gratitude and joyous feelings. From all parts of the country comes

OPERATIONS OF THE MINT .- During the month of July, at the U. S. Mint in Philadelphia, the deposits of gold were \$221,330, and of silver bullion \$436,000, making the entire deposits of the month \$657.330. The gold coinage, wholly

in double cagles and gold dollars, amounted to Onio WHEAT CROP .- The Pittsburg Post only \$280,380. The silver coinage, wholly in says :-- " A friend, who has just returned from quarter dollars, was only \$150,000. The total a trip through the wheat-growing regions of number of pieces coined during the month was Ohio, says the farmers there pronounce the \$609,788, of the value of \$430,380. This is an unusually light business. It is proper to remark, however, that the coining operations were suspended on the 21st, preparatory to the

commencement of the alterations, necessary to make the Mint building fire-proof.

Nothing can hinder that magnificent city shade. The prices were as follows :--Beeves, now from being the very queen of commerce, and from \$93 to 12 per 100 lbs ; sheep sold at from 44 to 45 cents per lb, live weight, for prime, and others at from \$2 to 3.75 per head ; lambs \$2 to 3,50 each ; cows and calves, from \$30 to 75; only the very best selling at the latter price. The total amount of stock in market was: 700 beeves, 4,000 sheep and lambs, and calves. The high price of beef has created a great demand for sheep ; and notwithstanding the unusually large arrivals, the supply is scarcely equal to inquiries.
