# Interesting and Useful Table.

Few readers can be aware, until they have had occasion to test the fact, how much labor of research is often saved by such a table as the following :

1607 Virginia first settled by the English. 1614 New York first settled by the Dutch. 1620 Massachusetts settled by the Puritans. 1623 New Hampshire settled by the Puritans.

A HUSBAND AND FATHER TURNED UP AFTER THIRTY YEARS ABSENCE .-- We heard the particulars yesterday of one of those strange episodes in life in which the old adage of truth is stranger than fiction, was fully illustrated. About six years since, a lady named Mrs. Martha Wood, accompanied by her son, his wife, and a couple of children, arrived in this city from New Bedford, Mass. She stated that she was a widow of twenty-four years' standing, her husband having been master of a whaler, which had been lost at sea. The family have resided for the greater part of the time on Liberty street, Mr. Wood, the son, working at his trade, which is that of a cooper.

Yesterday morning a gray-headed and toilworn man called at the residence of the family, and, seeing Mr. Wood, inquired for the widow. who, being called into the room, while gazing intently upon the stranger, whose eyes were fixed mournfully upon her, requested to know his business.

" Do you not know me, Martha ?" said he, and as the sound of his voice, like the memory of an olden melody ; met her car, she gave vent to an hysterical cry, and fainted in the arms which were opened to receive her.

The tale is soon told ; the ship in which he had made his last voyage from New Bedford, was cast away in the south Sea Islands, and he was one of the few who escaped a watery grave. After enduring almost unheard of privations, he succeeded, after thirty years absence, in reaching his native city. From a brother of his wife he learned their present location, and arrived here to find her whom he had left a young and blooming bride, far advanced in the evening of life, while the infant, upon whose lips when last he saw him he had imprinted a father's kiss, and who could then scarcely lisp his name, was now a stalwart man, and the head of a family. How many hopes and fears must have agitated the old mariner as he again set foot, after his long pilgrimage, upon his native soil .- Cincinnati Enquirer, 2d.

REEDER AND WHITFIELD .- The St. Louis Republican publishes two letters of some interest relative to the Kansas election. The first is from Ex Governor Reeder, addressed to the Hon. J. W. Whitfield, and notifies him of his intention to contest Whitfield's right to a seat in the next Congress, and that the depositions of witnesses to prove the invalidity of the law under which he was chosen, and the illegality of the votes cast for him, will be taken at various specified places in Kansas, on certain days which are named, ranging from the 5th to the 26th of November. The evidence is to be taken before some judge, justice, or other competent person, and Whitfield is requested to attend, if he wishes, and to cross examine the witnesses. The other letter is Whitfield's reply, a specious argument, heavily charged with personality and insolence. He refuses to recognize Reeder's right to contest his seat. CARRYING IT TOO FAR. - The market for breadstuffs on this side of the water is said to be much above the advanced prices ruling in Liverpool and London. The French can now buy cheaper there than here. The New York Post says that the shipments now making are at one or two dollars, including charges, per barrel more for flour than in Liverpool ; and this fact alone renders bills drawn against them unsafe. Speculation has been carried too far. The advance in the foreign markets has been more than anticipated long ago, and as the daily supplies in the New York market have much increased of late, prices are declining .-We note another decline in flour and grain in the market, and the tendency is downward. MACHINE TO SAW WOOD .- Mr. A. Winter, of Rondout, N. Y., has invented a new woodsawing machine for railroads, throwing upon a pile a cord of wood in four minutes. It may be driven by either steam or horse power.\_\_ The wood may be separated in two or more pieces at the same time, by simply mounting several saws upon the shaft.

Wonderful Snake Story.

Singular Occular Delusion .- There is a good deal of excitement in Rockingham Co., N. C., on account of a snake having been seen which has a human head. The animal was only seen by a son of Mr. O. B. Stone. He first saw it at his father's turpentine still. His father, to whom he attempted to point out the menster, was never able to see it, though the boy declared that it was under his feet. Several attempts were made by the boy to shoot him, but the different guns he used would never explode when pointed in the direction of the snake, though they would fire if turned another way.

The father, in a letter to the Madison, N. C. Democrat, says :

" Some of my neighbors came in again to see the snake, and to see if they could find any mark it made, so we sprinkled ashes all over the still house and in the hole where it always came in, and we tied my son fast, so he could not make the track himself, in any way whatever, and then we left him tied in the still house, by himself, and went away, and it was but a few moments before he let us know that the snake was in the still house again and we went to see if there was any mark ; and behold ! there was a mark as broad as my hand where it came in and went out. and they were confirmed it was something; I did not suffer Alfred to stay about the still house but a little, for whenever he goes there he is sure to see it, and it also appears to him in different parts of the farm, but not so often as it does at the still house; and he was told to talk to it, and it would tell him what it wanted; and he says he asked it in the name of the Lord what it did want, and he says it said to him that it wanted to destroy the stilling, and sneaked off; so then to be convinced, I tied Alfred in the still house again, and he was told to wear clover in his hat, and then he could see what it was, and while he was tied in the Still House he had clover in his hat, and he saw the snake come and peep in the house, having a face, eyes, mouth, tongue and all, precisely like a man he perfectly knew, and all but the head was precisely like a rattle snake ; and it scared him prodigiously. Then, on Sunday last, 28th October, there was a great many persons who came to my house, who doubted the reality of he mark of the snake, came to see if they could find the mark, and I tied Alfred again, in order that they might be convinced ; all of them, respectable men, saw the mark distinctly, and were convinced of the mark of the snake."

The truth of the statements contained in the farmer's letter to the Democrat, is attested by dozen of the prominent men of Rockingham county, who saw the mark of the snake in the ashes, and knew that the boy was tied too securely to have made it himself. The Democrat says that the boy is very much alarmed and his health is fast giving way under the mental effects of this horrible delusion. This snake bids fair to rival the great Silver Lake Serpent.

The wife about becoming a mother has often need of instruction and advice of the utmost importance to her future health, in respect to which her sensitiveness for-

000,000 Readers! A new book coming !--. We have the pleasure of announcing that we heave in press, and shall publish about the first of December, a new work of fiction, en-titled ROSE CLARK, a romance—by Fanny Forn. The last work, and first continuous tale of this brilliant and fascinating authoress of this brilliant and fascinating authoress, "Ruth Hall," achieved a success unexampled in the annals of letters. In the language of a leading periodical, it "created a more profound sensation than any which has been issued during a quarter of a century." But it is unnecessary to allude to the merits of "Ruth Hall." Judging from the number of copies of it we have sold, we judge that every body in the United States has read it. As respects the work we have now in press, Rose CLARK, we can only say that we regard it as, in every respect, a greater, better work ; and are confident it will greater, better work; and are confident it will not only sustain, but even increase the reputa-tion of its distinguished authoress. We have reasons for thinking "Rose Clark" will make a greater sensation than did "Ruth Hall."

It will form an elegant 12mo volume of over 400 pages. Price \$1.25, on receipt of which copies will be sent by mail, post-paid. It will be for sale by all booksellers. Published by MASON BROTHERS, New York. November 14. ¶-1t
