

Terrible Murder in Jefferson Co., N. Y. From the Syracuse Chronicle.

In the town of Lyme, Jefferson Co., and near the village of Chautmont, has long resided an intelligent farmer by the name of JAMES RYDER. His father was one of the settlers of the town, and Mr. Ryder, the son, was a thrifty, industrious, temperate, successful farmer, a good neighbour, a kind friend, and a man of popularity and integrity. A year or two ago he was the Supervisor of the town of Lyme, and has always had the respect and confidence of the neighborhood in which he resided. For his second wife he married the daughter of Mr. JACKSON, who, we believe, resides or has resided in or near Syracuse. By her he had four children. By his first wife he had three children, who are now, we believe, married and settled in life. For some time back, Mr. Ryder has not lived happily with his wife. The rumor is that he was more attached to a younger sister than was quite proper, and that his attachment caused a jealousy on the part of the wife, and criminations and recriminations have ripened into the most fearful consequences.

Mr. DELANO, who keeps a store at Chautmont, and from whom we have received our information, says that Mr. Ryder came into his store on Saturday last as cheerful as usual, and showing no symptoms of displeasure, or of unusual thoughtfulness; but it appears that he went home with a firm determination to take the life of his wife. In the evening he brought out a dirk knife and sharpened it before the family, and Mrs. Ryder seems to have suspected that he had evil designs towards her. However, they all went to bed as usual, and on Sunday morning, Mrs. Ryder arose and went down stairs to build a fire. She first built a fire in the parlor, and then proceeded to the kitchen and was engaged in making the fire there, when Mr. Ryder appeared with his dirk knife in his hand, and, seizing her roughly, stabbed her in the abdomen, and cut her heavily across the throat. Her screams brought the family to her aid, and her mother, who was in the house, in attempting to interfere in behalf of her daughter, received several severe stabs, which however, are not considered dangerous.

Mr. RYDER'S daughter was also present, and witnessed the agonies of her dying mother, who sank on the floor, faint and bleeding, and soon breathed her last. Mr. Ryder, on seeing his work was effectually done, immediately left the kitchen and went into the wood-shed, bolting the door carefully after him, and then drew the knife across his own throat, from ear to ear, so thoroughly that when he was found a short time afterwards he was dead! There is every evidence that the deed was fully premeditated. On the day preceding the murder, Mr. Ryder went over to his father's and said that he desired to make a new disposition of his affairs, as he did not expect to live long.

Little attention was paid to these remarks at the time; but it was found, on examining his papers, that he had willed his two farms to Miss JACKSON, the young lady who is said to have been the cause of all these calamities, and that he had, for her sake, cut off all his children from their rightful inheritance. This would seem to indicate a state of mind hardly compatible with the usual feelings of a father; but still there is nothing to show that Mr. Ryder was at all deranged, or not in the possession of his faculties to the full. This murder is one of the most remarkable that has ever occurred in this State, and may well attract the attention of the people in Jefferson County, and throughout the State.

FACT FOR FARMERS.—Every inch of rain that falls upon a roof yields two barrels to every space ten feet square; and seventy-two barrels are yielded by the annual rain of this climate on a similar surface. A barn thirty by forty feet yields annually 854 barrels. This is enough for more than two barrels a day for every day in a year. Many of our landlords have, however, at least five times that amount of roofing on their dwellings and other buildings yielding annually more than four thousand gallons of rain water, or about twelve barrels, or about one hundred and fifty ordinary pail-fuls, daily.—Exchange.

SINGULAR ARITHMETICAL FACT.—Any number of figures you may wish to multiply by 5 will give the result if divided by 2, a much quicker operation; but you must remember to annex a cipher to the answer when there is no remainder, and when there is a remainder, whatever it may be, annex a 5 to the answer. Multiply 464 by 5, and the answer will be 2,320; divide the same number by 2 and you have 1,160, and as there is no remainder, you add a cipher. Now, take 357, and multiply by 5, the answer is 1,785. On dividing this by 2, you have 178 and a remainder; you therefore place a 5 at the end of the line, and the result is again 1,785.

On the night of Sunday last, a man by the name of WM. EWERS, living at Gravesend, Canada, was engaged in a dispute with a woman with whom he cohabited, and being at high words, expressed a wish "that God would strike him dumb if he was not correct." At that moment his speech failed him, and up to this present time, he has not been able to speak a word. Beyond the loss of his speech, he is in no way affected, either by paralysis or epilepsy, so that there appears to be no physical cause for the impediment.

A young man named De Witt, in Warren Co., New Jersey, says the Newark Daily Advertiser, was accidentally killed last week by two sportsmen, from Easton. They had trespassed on his father's farm, and were ordered off by De Witt, but refusing to go, a difficulty occurred, in which one of the sportsmen struck him on the head with the butt of his gun, from the effects of which he died on Thursday.

Paddy, my jewel, why don't you get your ears cropped? They are entirely too long for a man." "And yours too short for an ass!" replied Pat.

FIRE AND LOSS OF LIFE.—At Alexandria, Va., on Friday night last, a fire occurred in the china store of James T. Dowell.

While the firemen were actively engaged in trying to extinguish the flames, the walls fell burying a number of persons in the ruins, and causing the death of seven, five of whom were members of the Star fire company, one of the Relief company, and one a colored man. It was an act of deliberate incendiarism.—Candles saturated with camphens and trails of gunpowder leading to the crates were found.—Mr. Dowell and two of his clerks have been arrested, charged with the incendiarism, and much excitement exists. Dowell had \$20,000 insurance, the value of his stock is said to be but \$5,000.

JUDICIAL MORALS.—Official corruption seems to have penetrated further and deeper in New York than in any other city on this continent. Even the Judges on the bench, those who are appointed to administer law and justice, are charged with official rotteness, and one of them, Judge Stuart, is now actually on trial, under an indictment, accused with having corruptly accepted from a Mrs. Connolly, the sum of \$500, as an inducement for him to exert his official influence to relieve her husband from an indictment which was then pending against him, for having committed burglary, in the first degree, and that he did procure this indictment to be nolle prosequitur, or turned out of Court, and Connolly to be discharged from the accusation then existing against him. When such charges as these are laid at the fountain head of justice, the taint must be pretty generally diffused.

BUCKS COUNTY AHEAD!—Great Yield of Corn.—Mr. Hugh B. Michener, of Plumstead township, having a field of some five or six acres of exceedingly fine corn, was induced to measure one acre to see what was the actual yield of his crop. He husked and shelled the corn from one acre, and the result was ninety-nine bushels and five half pecks of corn. This is not supposition, but actual measurement of the ground and corn. Although there are great crops of corn in Bucks county this season, the crop of Mr. Michener will be hard to beat.—The ground that this crop was raised on was not manured last spring; but a small quantity of a mixture of fine manure and ashes was placed in each hill; the corn was planted in hills 4 feet apart one way and 3 1/2 the other, and 3 to 4 stalks were allowed to remain in each hill. If any of our Bucks county farmers can beat this we would be happy to hear from them. Mr. M. intends sending a specimen of this corn to the Patent Office, Washington.—Bucks Co. Intelligencer.

CHEAP FARE TO EUROPE.—Several of the large ship owners of New York have agreed to fix the rates of passage to European ports, in their second cabins, at \$18 for adults, and \$10 for children under twelve years. In the steerage \$16 for adults and \$9 for children, including provisions, which will be furnished by the ship.

HEALTH AMONG THE QUAKERS.—It is stated in the Friend's Intelligencer, that from statistics recently published in England, while the average duration of human life is estimated at thirty-three years—that among the Friends is an average of fifty-one years. Eighteen years thus added to the average of human life is a fact too remarkable not to challenge medical attention, and lead us to a close investigation of the laws of life.

PINS EXTRACTED FROM THE STOMACH OF A FEMALE.—Dr. E. P. Fearing, of Nantucket, Mass., has taken from the stomach, abdomen and left side of a patient named Jane James, sixty-two needles, and it is probable, it is said, that quite a number remain to be removed. They were swallowed 12 years ago, when the patient was deranged, and imagined herself a pin-cushion.

GRAT CROP OF CORN.—Mr. CHARLES STOUT, of Whitmarsh township, Montgomery county, raised this year, a field of corn of twelve acres, which averaged one hundred and four bushels and four quarts to the acre. This is said to be one of the largest crops of corn ever obtained in this State.

RAPID INCREASE.—In 1755, five Methodists settled in the city of New York, and formed the society in America. In 1855, just a century later, the Methodist church in the United States numbers over four millions of worshippers.

He who feels love in his breast, feels a spur in his limbs.

The Female Department, although under the care of the Principal, and receiving his instructions, is entirely separate from the Male department.
