Special Message on Kansas Affairs. On the 24th ult., President Pierce sent to Congress a special Message in reference to the affairs in Kansas. After some debate the Message was read in the House as well as the Senate. The substance of the document, as summed up by a Washington letter-writer, is as follows:

I. It eulogises the Kansas-Nebraska law. II. Assails Gov. Reeder as guilty of malcon-

favored Anti-slavery emigration to Kansas.

by the border rufflans in the election of Kansas, but tries to cloak them by asserting that they were approved by Gov. Reeder.

V. Insists that the transfer of the seat of Government by the Legislature in defiance of Gov. Reeder's veto, does not invalidate the acts of said Legislature.

VI. Recognizes the election of Whitefield as Delegate, and ignores that of Reeder.

VII. Denounces the Free State movement in Kansas as rebellion, and goes for dealing with

the actors therein as traitors. VIII. Promises to put down the Free State

organization by arms if necessary. IX. Assails those who circulate through the States accounts of the Border Ruftian outrages

in Kansas. X. Proposes an act looking to an early or-

ganization of a State Government in Kansas. Governor Reeder in Reply to the President. Ex-Governor Reeder, of Kansas, has published the following letter in relation to the recent message of

be President on the Kansas troubles : the President on the Kansas troubles:
Sm: The Special Message of the President of the
United States, communicated yesterday to Congress,
assails not only myself personally, but also my constituents, whom inclination as well as duty imperiously demands of me to justify and protect. Entirely ry demands or me to justify and product. Fairrey satisfied as I am with the course adopted, up to this time, by the people of Kansas—convinced that it has been dictated by a desire to preserve the peace, the reputation, and the glory of our country—knowing that it has, at every stage, been characterized by the most conservative moderation and landable regard for the right of others—lawing seen at every step the plainest manifestation of the auxious desire to avoid even the semblance of encroachment, or aggression. I should be false to every manly impulse and

every sense of duty, if I allowed the aspertions of the Message to pass unnoticed.

Unless the Message shall incite and stimulate now invasions of our territory and fresh outrages on our citizens, it will produce to us no regret, as it has caused no surprise. After having seen our people trampled on, oppressed and robbed, on the one hand by the invaders of their soil, and on the other by the influence, the authority, and the officers of the present Administration: after laving witnessed the cold-blooded morder of an unarmed and unoffending citizen by an officer of the Administration, who is not only unmolested by the laws and unrebuked by the nolested by the laws and unrebuked by the only immolested by the laws and unrelatived by the President who appointed him, but who has, perhaps, strengthened his official tonant and enhanced his chances of promotion by the net; it is not at all surprising that we should, by the head of that Administration, be micropresented and perverted. After having seen the Chief Magistrato, during five organized invasions of our territory, unmoved by a single sympathy in favor of an unoffending people, innocent of all wrong, and laboring only to carry out faithfully for themselves the doctrine of self-povernment, and to poild an and extend the greatness of our country build up and extend the greatness of our country notice having seen our invasiers coming upon us armed (without reproof if not with official permission) from the contents of the Arsena's of the United States, establishing a system of mortial law over life and property, regulated only by the uncontrolled will of vin dictive and irresponsible men—a system under which life was taken and property destroyed; the highways obstructed; travelbers seized, searched and detained; all the pursuits of life paralyzed, and the destruction whole settlements threatena

all the pursuits of life paralyzed, and the destruction and extermination of whole settlements threatened and evidently intended—backed up by the sanction and authority of the Federal officers, who pledge publicly the co-operation, of the President, and all based upon the fact that a man encouraged, perhaps nided by his friends, had made his escape from an arrest on a constable's peace warrant. After having thus seen our natural and legal protectors joining in the most atrocious measures of oppression and wrong, it is no matter of surprise to see misrepresentation of our position and our objects emanating from the same source. This is not the mode nor the time in which to discuss the themes of this Message. Expecting, as I have a right to expect from the clearness of the exclusive title I am prepared to show, that I shall enjoy a gent and a voice on the floor of the House. I am willing patiently "to bide my time." At the proper time and pives, however, I pledge myself to meet and expose the misstatements of facts and the errors of law and logic which it contains. I will show that there is nothing but cold crucity and insult in the request of an appropriation to pay an army or a posse to prevent the people of Kansas from the commission of outrage and treason. I will show that the movement for a State Government is misstated as to the facts of its origin and nongress, and that all we have ment for a State Government is misstated as to the affair happened. The captain died, and the facts of its origin and progress, and that all we have done in this direction has been under the sauction of the precepts and examples of all the great men of the country for the last fifty years—of the legislation of latches. In twelve hours after he opened the Congress and the action of the Executive in repeated hatches and found that of 442 all but 146 had and well-considered cases, and of a deliberate opinion of a high and distinguished Attorney-General of the United States, and which, as it is a part of the ar-chives of the Executive Department, it is to be regretted the President did not consult before the delivery of the Message. If it is illegality and incipient treason few days for a new State to be formed without an enabling Act creature. of Congress, I will show that fourteen Senators of the United States hold their seats, and seven States stand-in this Union by virtue of illegal and treasonable pro-ceedings—that Congress has sanctioned revolution, ceedings—that Congress has ranctioned revolution, illegality and treason, again and again; and that the rank and noxious weed has even flourished in the White libuse and the Executive Department; and, having vindicated my people, I will also, with the utmost confidence of success, proceed to the minor and secondary task of vindicating myself in such a manner, I trust, as to show the attack to have been ill-advised and unfortunate.

As to the discussion in the Message of the points in As to the discussion in the Message of the points in-volved in the contested sent, I shall meet them when the case is heard; and as the House is the sole con-stitutional judge of the qualifications of its own mem-bers, I trust that the minds of members may be kept open and unprejudiced until they shall hear the law and the facts of the case, and that—whether the discuston by the Executive of some of the points involved has been made because they were incidental to another subject, or simed and intended to prejudge my claim, I hope in either case that both sides may be
