AYER'S PILLS

AYERS PILLS,

A New and singularly successful remedy for the cure of all Bilious diseases—Costiveness, Indigestion, Jaundiee, Dropsy, Rheumatism, Jevers, Gout, Humors, Nervousness, Irritability, Indammations, Hendache, Pains in the Breast, Side, Back, and Limbs, Fe male Complaints, Se. &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person an feel well while a coative habit of body previls; beades it som generates serious and otten fifely closer—which might, have been avoided by the timely and judicious use of a good purgative. This is mike true of Colds, Feverish symptoms, and Billious derangements. They all tend to become or produce the door neated and formidable distempers which load the hears is all over the land. Hence a reliable family ply-ic is of the first importance to the public health, and this Fill has been perfected with communities skill to meet that demand. An exten ive trial of its virtues by Physicians, Professors, and Patients, hes shown results surpassing any thing hitherte known of any medicine. Cures have been effected beyond belief, were they not substantified by persons of such exalted position and character as to ferbid the suspicion of untruth.

Among the many eminent gentlemen who have testified in favor of these Tills, we may mention:

Dis A. A. Il vyris, Analytical Chemist, of Boston, and fifthe Asseyer of Massachusetts, whose high professional character is endorsed by the

the experience of emant phone men is found in their effects upon trial.

These Pills, the result of long investigation and study, are effered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manuper as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acritained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the l'ills a surer, more powerful antidote to disease than any other medicine known to the world.

medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition. I have supplied the accurate Formula by which both my Pertoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If, however, there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysterica.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of discuse.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.
