THE MISSING STEAMER.—The New York Journal of Commerce, referring to the missing steamer Pacific, says the insurance on her is very large; the amount on the ship is \$600,000, half in this country and half in Europe;
the freight money is insured for \$40,000 more.
She had between six and seven hundred tons
of cargo, valued at over \$1,500,000, most of very large; the amount on the ship is \$600,of cargo, valued at over \$1,500,000, most of which was insured, a good part in this country. The insurance is divided among various offices throughout the country, so that in case of loss or damage to the ship or cargo, the blow would not fall exclusively on New York. MODERN INVENTIONS.

We know of no invention of modern times that deserves or is destined to occupy a higher niche in the temple of fame, than the discovery or invention of the Vegetable Epiletic Pills for curing Epilepsy, or Falling Fits; Spasms, Cramps, and all the various modifications of Nervous Disease. Dr. Seth S. Hance, of 108 Baltimore street, Baltimore, Md., the inventor, is cortainly entitled to the best wishes of all the benevolent portion of mankind, who experience a pleasure, by the alloviation of human suffering. When Dr. Hance first prepared these Pills, he intended them solely for Fits, Cramps and Spasms; but subsequent experience satisfactorily proved to him, that in addition to their remarkable sanative properties in this class of diseases, they exert a perfect control over the cxperience satisfactorily proved to min, that in addition to their romarkable sanative properties in this class of diseases, they exert a perfect control over the entire nervous system. He was then induced to try them in cases of Nouralgia, Tic-Doloreux, Nervous Headache, Palpitation of the Heart, Incipient Paralysis, Hysteria, Muscular Dobility, and a host of minor diseases, springing from a lack of nervous energy, in all of which his anticipations were corwned with the most sanguine success. An Interesting Letter from the West. A correspondent of the New York Herald, writing from Chippewa county, Wis., under date of March

Here in my lonely but comfortable log cabin, 1500 5th, says:

Williams, a colored man sold his farm near Clearspring, Md., last week, containing near 600 acres, for seven thousand dollars, to John Pearl. The Hagerstown Mail says:—Williams was a slave at forty years of age, bought himself, and raised twenty five children, four of whom he bought and manumitted. He is now in his 71st year, and is a stout, tall, and intelligent looking old man. He is now in independent circumstances. Most of his children are in the West and the rest of them all desire to go acres, for seven thousand dollars, to John He way to Lacross to enter the land, they bought a mean few days before been entered at the Land Office for \$100. The Second Volume of the Third Series (vol. xxii.) was published on the first of January last.—

The Second Volume of the Thier Sinies (vol. xxii.) was published on the first of January last.—
It has now been so long before the public, and is so popular throughout the country, that it would appear superfluous to urge its claims upon the attention of cultivators, annatures, or gentlemen interested in Her-ticultural pursuits. It has been highly influential in diffusing a taste for Gardening and Rural Art everywhere, and is an almost 'indispensable, aid to the diffusing a taste for Gardening and Rural Art every-where, and is an almost indispensable aid to the Pomologist, the lover of Flowers, the Country Gentle-man, and all who feel the least interested in the cul-tivation of trees and plants, in the adornment of their gardens and grounds, or in the spread of a taste for Rural improvement. To enlarge its influence, cor-responding with this advance of taste, and the in-creasing number of cultivators throughout the West, is the object and ambition of the editor. It will embrace, among other kindred subjects, the following:

following:
The Progress of Herticulture; The Science of Cultivation; Descriptions of all New Fruits; Descriptions of all New Flowers; Descriptions of all New Trees and Shrubs; Pomological Gassip;
Landscape Gardening; The Kitchen Garden;
Reviews of Horticultural Works; Subarban

Allentown and vicinity, that he is now prepared to take AMBROTYPES in connection with ed to take AMBRUTYPES in connection with Daguerrectypes. His Ambrotypes are far superior to those of any other operator in town—howyore much may be talked of the "Patent" Ambrotype, to the contrary notwithstanding. The Ambrotype is a new and beautiful style of picture taken on glass, and unequally all by apparation such.

beautiful style of picture taken on glass, and unequalled by any other style. They are without the glare of the Daguerreotype, and therefore can be seen in any view. They can be seen on either side of the plate, are not reversed, and show everything in its true position. Their cost is but a trifle more than a daguerreotype, and they are indestructable to the action of the atmosphere, and cannot be injured by rubbing or washing. Both Ambrotypes and Daguerreotypes taken in an unsurpassed style without regard to weather. By long experience, arduous toil, a dosire taken in an unsurpassed style without regard to weather. By long experience, arduous toil, a dosire to please, and heavy investments of capital, he fools assured that any one who may favor him with a call will receive in return a perfect picture, not to be excelled, in point of artistic beauty, by any one in this section of country. He would also invite attention to his new and splendid stock of cases, which range in price from 75 cents to 10 dollars. Please bear in mind, that pictures can be taken in clear or cloudy weather. loudy weather.
