The a Phils, the result of long investigation and stelly are subself to the public as the lost and as the measurement of the public as the lost and as the complete which the present state of coefficial scherescent aford. They are compended not of the design themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chanded present a state of purity, and condition to the form in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectural and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The recison is perfectly obvious. While by the old made of composition, ever medicine is buildened with more or less of neithernoons and injurious quadities, by this each individual virtue only that is decired for the carative effect is present. All the inert and obnexious quadities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-cation the effects should prove as they have proved mere purely remedial, and the Pills a carer, more powerful antidote to disease than any other mode line known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judy of a general without knowing its composition. I have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If, however, there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few wand be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

their life consists in their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their covering that influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, howels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such deraugements as are the first origin of disease.

Being sucar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.
