LOCHMAN respectfully informs the citizens of Allentown and visitify, that he is now prepar-od to take AMBROTYPES in connection with Daguerrootypes. It is Ambrotypes are far superior to those of any other operator in town-mowever much may be taked of the "Patent" Ambrotype, to the con-trary notwithstanding. The Ambrotype is a new and beautiful style of picture taken on glass, and unequall-ed by any other style. They are without the glare of the Daguerreotype, and therefore din be seen in any view. They can be seen on either side of the plate, are not reversed, and show eyerything in its true po-sition. Their cost is but a trific more than a daguer reotype, and they are indestructable to the action of the atmosphere, and cannot be injured by rubbing or

heen used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial. These Fills, the result of long investigation and study, are adiered to the public as the hest and most complete which the preservi state of ngelical science can afford. They are compounded not of the drugs themselves, but of the modified up trites only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Peetoral and Pills both, to produce a more efficient remedy than had hitherto been ob-tained by any process. The reason is perfectly ob-vions. While by the old mode of composition, every medicine is burdened with more or less of acri-monious and injurious qualities, by this each indi-vidual virtues only being retained. Hence it is self-evident two effects should prove as they have proved more purely remedial, and the Fills a sucer, more purely remedial, and the Fills a sucer, more powerful antidote to discuss that any other medicine known to the world. As it is fréquently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judges of a remedy without knowing its composition, 1 have supplied the accurate Formulae by which both my. Pectoral and Pills are made to the whole body of Practitioners in the United States and British Amer-ican Provinces. If, however, there should be any one who has not received them, they will be promptly forwarded by mail to his address. Of all the Paton Medicines that reo offered, how few would be taken if their composition was known ! Their life consists in their mystery. I have no mysteries.

Their life consists in their compositor was haven. Their life consists in their mystory. I have no nysteries The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic meits. The Cherry Peetoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many em-iment Physicians have declared the same thing of my Fills, and even more confidently, and are will-ing to certify that their anticipations were more than realized by their offects upon trial. They operate by their powerful influence on the internal viscers to purify the blood and stimulate it into healthy action — remove the obstructions of the stormach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derango-ments as are the first origin of disease: Being sugar wrapped, they are pleasant to take, and being purely vegetable, no flarm can arise from thar use in any quantity.
