We believe we cannot do our readers a more important service, than by again calling their attention to that most remarkable preparation, discovered by Dr. Seth S. Hance, of Baltimore, Md., which possesses, the power of alleviating and caring that horrid visitation of man—Epilepsy, or Falling Fits. In recommending this preparation to our readers, we do so with a conviction that we are not degrading our columns to man a convenience of the convenien with a conviction that we are not degrading our col-umns to puff a common patent medicine, but are plac-ing before them a discovery, which, if fully known, would probably do more to alloviate human suffering, than any invention of modern times. Dr. Hance, in asking us to notice his preparation favorably in our editorial department, has sent us for perusal a number of letters from persons who have used his Pills, and have been cured thereby. All of them speak in the most grateful and enlogistic terms. One great ad-vantage this medicine possesses is the fact, that it can be transported through the mails, thereby afford-ing every one an opportunity of dealing directly ing every one an opportunity of dealing directly with the inventor, and also procluding all possibility of being imposed on by a counterfeit or spurious initation. Dr. Hance pays the postage on his Pills to any part of the country, and will forward them by return of mail, on the receipt of a remittance. His turn of mail, on the receipt of a remittance. His prices are as follows: One box, S5: two do., S5: twelve do., S24. All orders for the medicine should be ad-dressed to SETH S. HANCE, 108 Baltimore street, Baltimore, Md. . A LARGE LOT of Mackerel, just received and for sale at Stopp's this day, many thousand dollars worth of Dry Goods, from N. York, which will be sold cheaper than over, at the cheap Cash Store of JOSEPH STOPP, 35 West Hamilton street.

Symptomic products of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the North-East, to Cairo at the South, and from thence to Galena and Dunleith, in the North-west extreme of the State, and as all the lands lie within filteen mics on cach side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to any of those points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc., afford a substantial and growing home-demand for farm produce.

The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of wheat. Indian corn, etc.

Indian corn, etc.

Economy in cultivating and great productiveness are the well known characteristics of Illinois lands.

Trees are not required to be cut down, stumps grubbed, or stone picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and fencing.

Wheat sown on the newly-turned sod is sure to yield very large prafita. A man with a plow and two yoke of oxen will break one and a half to two acres per day. ContractScan be made for breaking, ready for corn or wheat, at from \$2 to 2,50 per acre. By judicious management, the land may be plowed and fenced the first, and under a high state of cultivation the second year.

the second year.
Corn, grain, cattle, etc., will be forwarded at reasonable rates to Chiengo, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high-priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transpor-tation to the Eastern market.

Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at \$1.50 to \$4,00 per ton; Wood can be had at the same rates
