Allentown and vicinity, that he is now prepar-ed to the **AMBROTYPES** in connection with Daguerreotypes. His Ambrotypes are far superior to these of any other operator in town—however much may becalled of the "Pattert" Ambrotype is a new and beautiful style of picture taken on glass, and une fault ed by any other style. They are without the glarer of the Daguerreotype, and therefore can be seen in any view. They can be seen on either side of the plate, are not reversed, and show everything in its true po-sition. Their cost is but a trifle more than a diguer-reotype, and they are indestructable to the action of the atmosphere, and cannot be injured by rubbing or weather. By long experience, ardnous toil, a desire to please, and heavy investments of capital, he feels assured that any one who may favor him with a clear with section of 5 cents to 10 dollars. Turs remedy has won for itself such notoriety from its cures of overy variety of pulmenary disease, that it is entirely unnecessary to recount the evi-dences of its virtues in any community where it has been employed. So wide is the field of its use-fulness, and so nunerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too appa-rent to escape observation, and where its virtues are known, the public no longer hesitato what antidole to employ for the distressing and dangerous affec-tions of the pulmonary organs which are incident to our climate. And not only in formidable at tacks upon the lungs, but for the milder varieties of COLDS, COUGHS, HOADSNESS, &C.; and for CHIDNEN it is the pleasantest and safest medicine that can be obtained.
