

[From the Carbonate Transcript.]
Elopement—Seduction—Adultery.
Quite an excitement prevailed in the upper ward of our city, on Thursday morning, in consequence of a married man, named William Silsbee, eloping with a young lady, aged 14, the daughter of a respectable mechanic of the First ward.

A Mechanical Curiosity.
With a great deal of wonder, says the editor of the New Haven Patriot, we the other day saw at the store of Mr. Cannon a couple of bottles, each of which would hold over a quart, and in one of which was a saw mill in operation and in the other a flour mill also in operation.

SHOCKING CASE OF INSANITY.—A letter from Vienna, in the Ziet of Berlin, contains the following:—
"An event has just taken place here which has been much talked of. A clerk in a merchant's office, whilst working at his desk, felt a sort of presentiment of coming danger, which led him suddenly to return home. He there found his wife in bed; as she had been confined of a son only three days before. She was dressed. Her eyes were haggard, and her looks animated by fever. She said to him, 'it is well that you come, for I will now roast the goose, which will be ready at once.'"
At the same moment the clerk heard the cry of a child tied up, and lying in the frying pan. The mother took suddenly with the milk fever, had mistaken her child for a goose, and was about to put it to death. The father happily arrived in time to prevent such a catastrophe.

Orphan's Court Sale.
BY virtue in pursuance of an order issued out of the Orphan's Court of the county of Lehigh, there will be exposed to public sale, on Friday the 13th day of June next, at 10 o'clock in the forenoon, at the Public House of John Schantz, Jr., in North Whitehall township, the following described property, viz:
A certain tract of land, containing one acre and one half, situated in said township of North Whitehall, in the county of Lehigh aforesaid, bounded by lands of Leslie Jeter, Stephen Balliet, Philip Stronach and other lands of Stephen Balliet, deceased, containing ten acres and eight perches strict measure, on which there is a deposit of invaluable
IRON ORE,
known as Stephen Balliet's Mines. This is the best, most extensive and lucrative Ore Mine in Lehigh county, and second to none in the state of Pennsylvania. It has already been successfully worked for upwards of thirty years, and to a depth of several hundred feet, with a prospect of a continuous and abundant supply. Persons desirous of viewing the same prior to the day of sale, will call on Mr. John Campbell, who resides on the premises.
The other improvements on said premises are a one and a half story
DWELLING HOUSE,
frame stable, blacksmith shop, and other necessary out buildings.
Also, at the same time and place, will be sold two leases, securing the rights and privileges, to dig and raise Iron Ore, on the following properties, to-wit:
The one a lease dated the 30th day of December, A. D. 1826, between Peter Troxell, of North Whitehall township, in said County of Lehigh, and Stephen Balliet and Samuel Balliet, of North Whitehall township, Lehigh county, and Stephen Balliet, Sr., deceased, for all the Iron Ore in and upon the lands and premises, then in the possession of the said Nathan Bremer.
The other a Lease dated the 16th day of February, A. D. 1839, between Peter Troxell, of North Whitehall township, Lehigh county, and Stephen Balliet, Sr., deceased, for all the Iron Ore in and upon the lands and premises, then in the possession of the said Nathan Bremer.
Terms on the day at the place of sale, and due attendance given by
AARON BALLIET, Adm'ors.

In the meantime, the father of the girl and the father of Silsbee's wife learned of the sudden departure of the wife, and fearing that all was not right, started about eight o'clock in pursuit of the fugitives, and arriving in Scranton discovered their whereabouts; they then procured a warrant from Justice Pier, for the arrest of Silsbee, and proceeded to their room, where by a little stratagem they got Silsbee to arise from his bed to open the door, and to their consternation and shame, in rushed the unwelcome guests! and nothing but the just and righteous veneration of the majesty of the law to punish the faithless husband and foul seducer, prevented them from inflicting summary vengeance on the villain.
The guilty pair were brought back to this city—the girl to the bosom of her afflicted parents, and the man Silsbee before Ald. Pugh, who decided that he had no jurisdiction, as the offence charged was committed beyond the limits of the city. The prisoner was then taken before Lewis S. Watres, Esq., at Blakely, and after a fair and impartial hearing, was committed to the county jail in default of bail.
Constable Wilson accompanied the "nice young man," and lodged him in the jail at Wilkesbarre, to await his trial at the next Court of Quarter Sessions, there to ruminate over his folly and vices, and the untold but heart-rending pangs of a lovely and affectionate wife, and the disgrace that he has heaped upon his family.

Clocks.
The Romans were four hundred and sixty years without knowing any other division of the day than morning, noon, and night. Pliny reports, on the credit of an ancient author, that the first instrument the Romans had to divide the hours was a sun dial.
Sulpio Nasica, in the year of Rome 595, first brought into use, and placed under cover a water clock, which showed the hours equally by day and night.—To form an idea of these clocks we may conceive a pretty large basin filled with water, by which a little hole contrived in the bottom, emptied itself into another vessel of nearly the same capacity in twelve hours, and where the water rising gradually, brought up perpendicularly a pit of cork, or the figure of a genius pointing to the hours which were marked one above the other on columns of pillars.
This, with the Cleopatra, which was also a species of water clocks, were the only means of marking time possessed by the Romans.

ACQUITTED.—Charles Boughter, who had been tried, at Lancaster, for embezzling several hundred thousand dollars of the funds of the Lancaster Saving Institution, while acting as treasurer of the institution, was acquitted last week of the charge of embezzlement. He was sentenced to pay the costs of the trial, and allowed his freedom. The trial was a very exciting one. Boughter had been in prison for some time after the fraud was committed, bail being refused; afterwards he was liberated from prison on giving bail to the amount of \$100,000 for his appearance at Court for trial. If a man steals a loaf of bread he is sent to prison for the offence; but when a robbery of a million of dollars is committed by some genteel rogue he is permitted to go unpunished.

Holloway's Ointment and Pills, the most celebrated Remedies for the Cure of Sore Arms.—Samuel Wentworth, of Norway, Maine, was for five years afflicted with sore arms, there were four different ulcers on them, and the trying nature of his business, (a bootmaker) made him so much worse, that despite of his wishes, he was compelled to relinquish it; he tried various remedies and they failed to benefit him; however, about thirteen weeks ago, at the recommendation of friends, he had recourse to Holloway's Ointment and Pills, which very soon made him better, and he called on Professor Holloway four weeks since to show him his arms, which were quite well, and with scarcely the scars perceptible.

POPULATION OF ROME.—The General Vicariate of Rome has just published an official census of the population of Rome for the year 1855. In all there are 177,461 inhabitants among whom there are 36 bishops, 1,226 secular priests, 2,218 monks and religious, 1,949 nuns, and 687 seminarians. At Rome, therefore, there are in all 5,081 priests monks, nuns or seminarians—that is to say, one to every thirty-five inhabitants.

REMOVAL OF A TOWN.—The United States officials in Kansas have pulled down or caused to be removed all the houses in the town of Pawnee, on the ground that it was built on Indian land. One of the houses destroyed belonged to Gov. Reeder, and cost \$1000. Leavenworth, also built on Indian-territory, is supposed to stand. Its inhabitants are not all free State men.

A SINGULAR CASE OF JOCKEYING occurred the other day in Cincinnati. A gentleman who was moving through the city, was accosted by two men and offered \$50 for a horse belonging to him, which he agreed to take. After a short time he was offered \$65 by another person, and he went to the first named purchaser and told them that he had changed his mind. They agreed to give up their claim for a consideration of \$10, which he gave them, counting on making \$5 by the operation. When he went to the second purchaser he said he would not have the horse at any price. The man found that he had been sold, for the other man had disappeared. The case is undergoing investigation.

THE SIEGE OF SEBASTOPOL.—According to statistics returns published in the St. Petersburg newspapers, the besieged in Sebastopol discharged from the 17th of October, 1854, to the 8th of September, 1855, projectiles to the number of 1,386,608, and weighing 1,405,249 pounds, (each equal to 40 pounds.) In addition to the above, 206,810 pounds of powder and 25,000,000 cartridges were consumed.

DALEY'S MAGICAL PAIN EXTRACTOR.—INFLAMMATION and PAIN are inseparable as FIRE and HEAT. Inflammation produces pain, and pain produces inflammation. Where there is inflammation, heat, throbbing or redness, no matter whether it is caused by a fever, a hurt, a sore, poison, rheumatism, piles, scald, burn or sting, there is inflammation. A hundred boils or a thousand sores cannot alter or change the conclusion. To relieve pain and restore nature, inflammation must be subdued. To accomplish this, the efforts of the physicians are always directed. Thousands of physicians, and tens of thousands of the first and most renowned persons who have used DALEY'S MAGICAL PAIN EXTRACTOR, are convinced, and admit that its control over inflammation is most wonderful and immediate, instantly allaying the pain, neutralizing poison, extracting morbid secretions and forcing nature to resume her course, restoring and healing. No burn, scald, sore, or ailment is so severe to yield to its soothing and curing influence. Apply it immediately and the cure has commenced.

PROSPECTS OF THE COMING HARVEST.—Information from all quarters of the Union, in reference to the prospects of the coming harvest, is of the most cheering description. One exchange says, "the wheat in this region looks well and promises an abundant yield;" another, that "our farmers are looking forward to a harvest scarcely inferior in quantity or quality to that of last year;" and so on from all parts of the country. Meantime they are in expectation, also, of abundant crops on the other side of the Atlantic. At all events, the general tendency of prices in the Liverpool grain market continues to be downward.—Peace has come, and flour goes down.

THEIR OWN GRAVES.—SHOT INTO THEM.—Those men belonging to the command of Col. Schlessinger, who were taken by the Costa Ricans and executed by them, were made to perform an unwelcome service just before their exit. Having been condemned to death, and their fate announced, the victims were compelled to dig their own graves, and then made to kneel upon the margin of the trench dug, when they were shot dead—falling readily into the pit their own hands had dug.

FOR SURGICAL OPERATIONS.—The City Herald says, Dr. Walcott, of that city, acting under the suggestion of a French journal, has resorted to ice as a means of destroying pain in surgical operations. A few days since he removed a very large tumor from a man's leg. He took a preparation of snow and common table salt, and applied it to the diseased part, which was almost immediately reduced to an insensible state. The removal of the tumor was accompanied by very little loss of blood, and little or no pain. The doctor's fingers were, however, slightly frozen in the operation. Dr. W. thinks that this method of producing insensibility to pain is preferable to that of chloroform, inasmuch as it is not dangerous, and does not injure the blood.

THEY DRESS COOL OUT WEST. A young lady being asked if she should wear that bonnet to church, replied she should not wear anything else.
It is stated that the girls are leaving off the style of hooped dresses, because it keeps husbands at a distance. Oh, shameful!

ROSE'S PATENT WINDOW BLINDS.
THE subscribers invite the attention of the public to their new and improved PATENT WINDOW BLINDS, which they are now manufacturing, and selling wholesale and retail, at their Factory, No. 125 West Hamilton St., Allentown, Pa. These Blinds are far superior to any other ever manufactured, and are secured by Letters Patent, known as "Rose's Patent." They are greatly superior to all others in the fact that they are constructed with upper and lower bands in such a manner that when the upper band is fastened to the window-frame, the lower part may be opened or closed with ease. A little child can take the blind down, clean and repair it. This is a great advantage when it is remembered that with the old style of Blinds, a mechanic was always necessary to take them down or put them up.
In other particulars, too, they exceed for beauty and convenience all others.
This improvement will be attached to the old fashioned Blinds on reasonable terms.
Orders are respectfully solicited. Persons wishing to secure Patent Rights of the above in any part of the Union, can do so by addressing the undersigned at Allentown, Lehigh co., Pa.

PHYSIC DISMISSED OF HIS TENDONS.—Every person is interested in hearing that Dr. Clinkener, of New York, has invented a medicine of the most certain and powerful purgative qualities, which is yet so gentle that its operations on the system are entirely unfeeling. Its action is altogether unattended with griping or nausea, and still more to enhance its value it is coated with white sugar, so that it leaves no unpleasant taste in the mouth. In fact its flavor is so unlike physic, and its action is so perfectly gentle, that any person may swallow a dose without suspecting that he has taken physic at all, unless through its ultimate effect, which is powerful and positive, even on the most costive constitutions. We need not comment on those great advantages of Clinkener's Sugar-Coated Vegetable Purgative Pills, over other medicines, as they must be obvious to all. There are a few persons who do not require physic occasionally, and fever still who have a noted aversion to the nauseous and racking compounds which, before the appearance of these pills, were the only characters which physic ever assumed. In less than five years, Clinkener's Sugar Coated Vegetable Pills will supersede all other purgative medicines, for no person will consent to have his stomach turned, and his bowels racked with the old fashioned purgatives, when he might have the desired object accomplished much more thoroughly by a new one, whose effect is unattended by the slightest offensive sensation.

LONGEVITY.—There were found in the United States, in 1850, 2,555 persons over 100 years of age. This shows that about one person in 9,000 will be likely to live to that age. The French census of 1841, shows only 102 persons over 100 years old, though their population was larger by more than one third than the population of this country. Old age is, therefore, attained among us much more frequently than in France.

MARRIED.
On the 20th ult., by the Rev. Mr. Dubs, Mr. THOMAS STEPHENSON, of North Whitehall, to Miss MARIA FRY, of Lowell.
On the 27th ult., by the same, Mr. MOXROE EVANS, to Miss CAROLINE RESUI, both of Upper Maconage.

ROSE'S PATENT WINDOW BLINDS.
THE subscribers invite the attention of the public to their new and improved PATENT WINDOW BLINDS, which they are now manufacturing, and selling wholesale and retail, at their Factory, No. 125 West Hamilton St., Allentown, Pa. These Blinds are far superior to any other ever manufactured, and are secured by Letters Patent, known as "Rose's Patent." They are greatly superior to all others in the fact that they are constructed with upper and lower bands in such a manner that when the upper band is fastened to the window-frame, the lower part may be opened or closed with ease. A little child can take the blind down, clean and repair it. This is a great advantage when it is remembered that with the old style of Blinds, a mechanic was always necessary to take them down or put them up.
In other particulars, too, they exceed for beauty and convenience all others.
This improvement will be attached to the old fashioned Blinds on reasonable terms.
Orders are respectfully solicited. Persons wishing to secure Patent Rights of the above in any part of the Union, can do so by addressing the undersigned at Allentown, Lehigh co., Pa.
