DEDWIN FORREST, the great American Tragedian, visited Slatington, in this County, on Monday of last week.

COfficial despatches were received at Washington on Saturday from our Minister in England, Mr. Dallas, but they are unimportant in regard to the dismissal of Mr. Crampton, and smack not of war.

Norristown and Allentown Railroad.

The corps of engineers that were lately enengaged in making another survey of this proposed road, concluded their labors by forming a connection near Trexlertown, in this county, with the contemplated Reading and Lehigh Railroad. Mr. Wilson, the chief engineer, is at present engaged in making a report, which will be laid before the public at an early day. The route varies materially from that surveyed by Mr. Corson. The present route is spoken of very favorably by the chief engineer, and if the people enlist in it with as much zeal after the Report is published as they do at present, it is quite probable that the road will be commenced at no distant day.
