No. 9 West Hamilton street, Allentown, Pa.

LIOCHMAN respectfully informs the strees of
Allentown and vicinity, that he is now prepared to take AMBROTYPES in connection with
Daguerreotypes. His Ambrotypes are far superior
to those of any other operator in town—however much
may be talked of the "Patent" Ambrotype, to the contrary notwithstanding. The Ambrotype is a new and
beautiful style of picture taken on glass, and unequalled by any other style. They are without the glure of
the Daguerreotype, and therefore can be seen in any
view. They can be seen on either side of the plate,
are not reversed, and show everything in its true position. Their cost is but a trifle more than a daguerreotype, and they are indestructable to the action of No. 9 West Hamilton street, Allentown, Pa. sition. Thoir cost is but a trifle more than a daguerrotype, and they are indestructable to the action of
the atmosphere, and cannot be injured by rubbing or
washing. Both Ambrotypes and Daguerreotypes
taken in an unsurpassed style without regard to
weather. By long experience, arduous toil, a desire
to please, and heavy investments of capital, he feels
assured that any one who may favor him with a call
will receive in return a perfect picture, not. to
be excelled, in point of artistle beauty, by any one
in this section of country. He would also invite at
tention to his new and splendid stock of cases, which
range in price from 75 cents to 10 dollars. Please
boar in mind, that pictures can be taken in clear or
cloudy weather.

STRAW GOODS.—In this line we are not surpassed by any establishment out of the large cities.

New Spring and Summer Farm Lands for Sale. Another Lot of Cheap Goods. The Illinois Central Railroad Company

IS NOW PREPARED TO SELL OVER TWO MILLION OF ACRES OF FARMING LANDS,

In Tracts of 40 acres and upwards, on long Credits and at low rates of Interest. THESE lands were granted by the Government, to aid in the construction of this Railroad, and in-clude some of the richest and most fertile Prairies in the State, interspersed here and there with magnifi-cent groves of oak and other timber. The Road excent groves or one and other timber. The took ox-tends from Chicego, on the North-East, to Cairo at the South, and from thence to Galena and Dunleith, in the North-west extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to any of those points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc., afford a substantial and gravitar by immigration, etc., afford a abstantial and growing home-demand for farm pro

The soil is a dark, rich mould, from one to five feet

in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of wheat, Indian corn, etc.

Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stone picked off, as is generally the ease in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and feneing. Wheat sown on the newly-turned sod is sure to

Wheat sown on the newly-turned sod is sure to yield very large profits. A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for eern or wheat, at from \$2 to 2,50 per acre. By judicious management, the land may be plowed and fenced the first, and under a high state of cultivation the second year.

Corn, grain, cattle, etc., will be forwarded at reacorn, grain, cattle, etc., will be forwarded at reasonable rates to Chiengo, for the Eastern market, and to Caire for the Southern. The larger yield on the cheap lands of Illinois over the high-priced lands in thes-Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market.

Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at \$1,50 to \$4,00 per ten; Wood can be had at the same rates

to \$4,00 per ten? Wood can be had at the same rates per cord.

Those who think of settling in Iowa or Minnesota, should bear in mind that lands there of any value, along the water courses and for many miles inland, have been disposed of,—that for those located in the interior, there are no conveniences for transporting to market the produce, Railronds not having been introduced there. That to send the produce of these lands one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them, and hence, Government lands thus situated, at \$1,25 per acre, are not so good investments as the land of this company at the prices fixed.

The same remarks hold good in relation to the landin Kansas and Nebraska, for although vicenit lands may be found nearer the water courses, the distance

may be found nearer the water courses, the distance to market is far greater, and every hundred miles the produce of those lands are carried either in wagons or interrupted water communications, increases the expenses of transportation, which must be borne by the tettlers, in the reduced price of their products, and to that extent precisely are the incomes from their farms, and of course on their investments, annu-

ally and every year reduced.

The great fertility of the lands now offered for sale by this company, and their consequent yield over those of the Eastern and Middle States, is much more those of the Englern and Middle States, is much more than sufficient to pay the difference in the cest of transportation, especially in view of the facilities furnished by this Road, and others with which it connects, the operations of which are not interrupted by the low water of summer, or the frost of winter.

PRICE AND TERMS OF PAYMENT.

The wind will wear from \$5 to \$50 are reading to

PRICE AND TERMS OF PALMENT.
The price will vary from \$5 to \$25, according to location, quality, etc. Contracts for Deeds may be made during the year 1856, stipulating the purchase money to be paid in five annual installments. The first to become due in two years from the date of contracts the class annually therefore. The last tract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.
Interest will be charged at only three per cent, per

As a security to the performance of the contract the first two years' interest must be paid in advence, and it must be understood that at least one tenth of the land purchased shall yearly be brought under cultivation.

Twenty per cent, from the credit price will be deducted for cash. The Company's construction bonds

\$150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials over

their road premptly.

Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the lowest scholesale

It is believed that the price, long credit, and low rate of interest, charged for these lands, will enable a man with a few hundred dollars in each and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four or five fold. When required, an experienced negron will accommany amplicants. ed, an experienced person will accompany applicants, to give information and aid in selecting lands.

for yourself before purchasing clsewhere, as they challenge any store to sell cheaper than they do.—All business done on the CASH SYSTEM, without regard to person.

of the best manufacture in the United States, of dif-ferent sizes and prices.
VIOLINS of all qualities and prices, VIOLONCEL-LOS, of excellent quality, VIOLAS, or Contra-Bass, ACCORDEONS, of different sizes and prices, FLUTES and FIFES, Violin Strings, best quality, Bows, and in short all trin-mings belonging to the Violin.
BRASS INSTRUMENTS will be furnished at short notice and on the most research between the school

BRASS INSTRUMENTS will be furnished at short notice and on the most reasonable terms, to which fact he particularly calls the attention of new Bands about forming, and those already established.

Sheet Music and Books for beginners for all musical instruments, always on hand.

As the undersigned makes this his sole business, he will pay particular and prompt attention to it in all its various branches. He is thankful for past patronage, and trusts that by keeping good articles at low prices, to merit a continuance of the same.

He respectfully invites neonly to call and examine

He respectfully invites people to call and examine nis instruments, particularly his pianos, and give them a trial, to satisfy themselves of their superior mechanism. JOSEPH WEISS.

AYER'S PILLS

A YER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases — Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Linbs, Female Complaints, &c. &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sick ness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates scrious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep scated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not suistantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the many eminent gentlemen who have testified in favor of these Pills, we may mention:

Dr. A. A. HAYES, Analytical Chemist, of Boston, and State Assayer of Mussachusetts, whose high professional character is endorsed by the Hone Edward of the Edward of Representatives.

Abnort Lawrence, Minister Plen, to England.

ROBERT C. WINTHHOP, Ex-Speaker of the House of Representatives.

Annort Lawrence, Minister Plen. to England. † John B. Fitzpatrick, Cath. Bishop of Boston. Also, Du. J. R. Chilton, Practical Chemist, of New York City, endorsed by Hon. W. L. Marcy, Secretary of State. WM. B. Aston, the richest man in America. S. Leland & Co., Propr's of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates, from all parts where the Fills have been used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of

study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly ovious. While by the old mode of composition, every medicine is burdened with more or less of nerimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxionis qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills' are made to the whole body of Practitioners in the United States and British American Provinces. If, however, there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open.

Their life consists in their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see wrapper on the Box.

PREPARED BY JAMES C. AYER. Practical and Analytical Chemist,

A MARVELLOUS REMEDY FOR A MARVELLOUS AGE:

HOLLOWAY'S OINTMENT. The Grand Externa Remedy.

By the aid of a microscope, we see millions of little openings on the surface of our bodies. Through these, this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, disorders of the Liver, affections of the Heart, inflamation of the Lungs, Asthma, Coughs and Colds, are by its means, effectually cured. Every housewife knows that salt passes freely through bone or ment of any thickness. This healing Ointment far more readily penetrates three any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means. Erysipolas, Salt-Rheum and Scarbutte Humors.

Erysipolas, Salt-Rheum and Scorbutic Humors. No Remedy has ever done so much for the cure of No Remedy has over done so much for the cure of diseases of the Skin. whatever form they may assume, as this Ointment. No case of Rheum, Scurvy, Sore Honds, Scrofula, or Erysipolas, can long withstand its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

Sore Legs, Sore Breatts, Wounds and Ulcors. Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, pleas or cope with the worst cases of sores, wounds, ulcorso glanidular swellings, and tumors. Professor Holloway has, by command of the Allied Governments, dispatched to the hospitals of the East, large shipments of this Ointment, to be used under the direction of the Medical Staff, in the worst cases of wounds. It will care any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years' standing.

Piles and Fistulas. These and other similar distressing complaints can be effectually cured if the Ointmont be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Gintment and Pills should be used in the fol-
