Allentown, Pa., July 16, 1856.

The Pin Manufacture.

- Proof that the Moon is Not Inhabited. A dozen years since all the pins used in this LDr. Scoresby, in an account that he has given of country were imported. Now none are impor-ted, except a few German pins for the German Rosse's says: "With respect to the mcon, be a subset of the most produced by a concurrence of which was the invention by Mr. Samuel Slocum, now with objects 60 feet in height. On its surface of 100 its surf learn, that in many interest when they at the bibing their favorite beverage of green tea, they are also taking with it salts of copper and gypsun! As the tea is the universal drink of perior to any then in use in England. This is a subset of the day, they never led to the establishment of a pin manufactory led to the establishment of a pin manufactory in word upon the surface of the moon, it would & Co., which, contrary to general expectation, was entirely successful and soon distanced ments. But there are no signs of babitation drink green tea, for the reason that, in most at Poughkeepsie, by Messrs. Slocum, Jillson, cases it is mixed with coloring matter in order & Co., which, contrary to general expectation. was entirely successful and soon distanced competition. These things went on until the passage of the tariff of 1842, which by increas-ing the duty on foreign pins encouraged other parties in this country, to engage in the busi-ness. Foreseeing this, the above mentioned parties in this country, to engage in the busi-ness. Foreseeing this, the above mentioned company, which was succeeded by the Ameri-ican Pin Company, at once reduced their prices twenty per cent. and have since reduced it ten twenty per cent. and have since reduced it ten twenty twenty of a reservoir, for supplying town or per cent. more. Of all the Pin companies factory-all seemed desolate.

A Rhymster in Limbo. A practical genius was hauled up before one of the Police Magistrates for kissing a handsome girl, and kicking up a dust-and the fol-

FLOUR TEST. -If any of our readers desire to ascertain when they are purchasing, whether flour is pure and good, let them take a small quantity of it in their hand, and squeeze it for half a minute. If good, it can be put out of the hand in a lump, retaining the form given it by the hand ; but if adulterated, it will fall apart as soon as it leaves the hand.

THE GOOD OF HOOPS. - A young lady fell from the draw of Warren Bridge, Boston, a few days since, and was saved by the hoops in her skirt, which buoyed her up until rescued. This is the first practical virtue of the garment we have had the pleasure of chronicling.

AID FOR KANSAS .--- It is stated that four gentlemen of Boston have offered to give \$5000 cach, on condition that the sum of \$100,000 be raised in the State of Massachusetts. Similar movements are in progress in different sections of the country, and the indications are that a

large sum will be realized. "What's the difference between a North-ern man and a Southern man ?" "Caso ono's a free-holder and the other a-slave-holder." "No, sir."

FARMERS LOOK THIS WAY. Orphan's Court Sale. BY virtue in pursuance of an order issued out of the Orphan's Court of the county of Lehigh, there will be exposed to public sale, on Saturday the 19th day of July next, at 10 o'clock in the forenoon, at the Public House of John Schuntz, jr.. in North Whitchall township, the following described proper-ty, viz:

ty, viz: A certain tract of land, containing Iron Ore, with the appurtenances, situated in said township of North Whitehall, in the county of Lebigh afore-said, bounded by lands of Leslio Jeter, Stephen Balliet, Philip Strouss and other lands of Stephen Balliet, deceased, containing ten acres and eight percluse, strict measure, on which there is a deposit of invaluable THE opposition say that in a short time the ground will be ready to sow Oats, Barley, &c. How they know this we are not able to say, but this much we will say, that whenever it gets ready, you had better give us a call for one of the best Grain Drills, and warranted at that, (no largo talk about rofunding monoy,) but if the article is not as represented, it can be roturned, and all matters satisfactorily arranged. Likewise, in due time the grass will be in erder for hay making, and then we are prepared to furnish you of invaluable

iron ore,

LERONY ORPE, known as Stephon Ballict's Mines. This is the best, most extensive and hierative Ore Mine in Lebigh county, and second to none in the state of Pennsyl-vania. It has already been successfully worked for upwards of thirty years, and to a depth of over seven-ty-five feet, with a prospect of a continuous and abundant supply. Persons desirous of viewing the same prior to the day of sale, will call on Mr. John Campbel, who resides on the premises. The other improvements on gaid premises are a none and a half story frame **DWELLINC HOUSE,** frame stable, Blacksmith shop, and other nearestage we have also the combined Mower and Resper, of Manny's Patent, which is manufactured upon a dif-ferent principle from those made heretofore, and war-ranted to cut grass and grain as fast as one team of horses can draw it. And further, we have the Pre-mium Corn Sheller of Lehigh county, and as three mium Corn Sheller of Lehigh county, and as three

MACO, China, April 15th, 1855.-It may interest some of your tea drinking friends to learn, that in many intances when they are imthe Chinese, at all hours of the day, they never

facture of Tea, in China :

consumers of England and America. tities of tea drank in those parts of China I have visited. The Chinaman drinks his tea incessantly; but as the Persians, Arabs and Turks take their coffee, without any admixture

whatever. When you enter a Chinaman's house, he offers you a cup of tea which is al-

"The cup that cheers but not inherites," cd, is enormous. The statistics of one of them may prove interesting, I give you such items as I have gathered. The best teas are grown on the high moist soils, especially where the land is well mixed with debris of rocks. The plant when growing is very pretty and fragrant, resembling somewhat the myrthe, with a white the wet unlike the bedre rose.

flower, not unlike the hedge rose. The difference in quality depends partly on the district where grown, and partly on the sea-tal of 4.158,339,000 pins for the consumption son when they are gathered, as the young leaves in the United States, equal to 200 on an aveof spring are of much finer flavor than the full rage for every man woman and child in the of spring are of much finer flavor than the full grown leaves of summer or the coarser ones of autumn. The tea growers are small propric-tors, and their lands are divided by footpaths, as I have heretofore described the divisions of wheat districts. After the farmer gathers his as a nave neretoiore described the divisions of work-people, about 00. wheat districts. After the farmer gathers his crop he dries in the sun, when it is sold the agent of the Kong merchants. The teas thus purchased are taken to the merchant's house in We will only say, that the wire which is to be one of the towns in the vicinity of the tea district and mixed together; care however, being taken to keep the various qualities separate as much wreak to the machine and comes out at the other, not wire, but pins cut, pointed, and headed in the

to keep the various qualities separate as much as possible, and this forms a "chop" of per-haps six hundred chests. Leaves from which green tea is to be made are brought from the plantations and spread out thinly on bamboo trays in order to get rid of their moisture. In two or three hours the leaves dry, and they are then thrown into the roasting paus, and rapidly moved about and shaken up. They make a crackling noise, be-come moist and flaceid, and give off considera-ble vapor. In this state they remain a very short time, when they are drawn quickly from over the fire, and placed on rolling tables. The quantity is divided among the workmen at the rolling table—each takes as much as he can

the rolling table-cach takes as much as he can manage to press with his hands into the form of a ball. The ball is rolled on the table and girl.

house, he offers you a cup of tea which is al-ways brewed on the spot before your eyes. The tea is placed in a cup and pure boiling wa-ter poured upon it, when it is covered a minute or two, and then drank from the lees. In this way the very essence of the herb is drawn out and you get none of the bitter flavor produced by long steeping. Sugar and milk are never used, and although it is a somewhat extrava-gant method of making. I much prefer it to our home process. As everything relating "The cup that cheers but not inherites," may prove interesting. I give you such items

and the small amount imported are together

IMPROVED FIRE AND WATER PROOF

COMPOSITION ROOFING. Joseph Clewell, Allentown, Agent for Lehigh Co.

Joseph Clewell, Allentown, Agent for Leargh Co. Y OUR attention is respectfully solicited to the above method of Roofing, now much used in Philadolphia and vicinity, and which has been exten-sively in use in many of the cities of the West, during more than eleven years past, during which time it has been tested under every variety of circumstances, and we confidently offer it to the public as a mode of Roofing anobjectionable in every important particular, while it combines, in a greater degree than any other roof in use, the valuable requisites of cheapness, du-rability, and scentrity against both fire and water.— This is rapidly superseding the use of all other kinds of roofs, wherever it has been introduced, giving gen-eral satisfaction, and is highly recommended by all who have tested its utility. These roofs require an inclination of not more than one inch to the foot, which is of great identifies in case of fire, and for No. 36 West Hamilton street, opposite Patriot" Printing Office.

S. II. PRICE would respectfully announce to the citizens of Allentown and the public generally, that he always has on hand a first-rate assortment of

to give it a bright green, so acceptable to tea I have been astonished at the enormous quan-

Tca-Process of Manufacture-Annual Export.

A clever correspondent of the Rochester

Union gives the following account of the manu-

which is of great advantage in case of fire, and for drying purposes. They are offered at a price consid-erably less than any other roof in use, while the nmount of material saved, which would otherwise be used in extending up the walls and framing for a steep roof, often makes a still further important ro-duction in the cost of building. Gutters may be formed of the same material as the roof, at much less exponse than any other. In ease of defect or injury, froit any cause, there is no roof so easily repaired. The materials being mostly non-conductors of heat, no roof is so cool in summer, or so warm in winter.

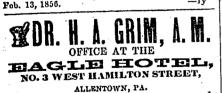

which is of great advantage in case of fire, and for

The materials being mostly non-conductors of heat, no roof is so cool in summer, or so warm in winter. Those wishing to use our roof, should give the rafters a pitch of about one inch to the foot. For further in-formation apply to Joseph Clowell, at Allentown, our agent for Lohigh and Carbon counties, who is pre-pared to execute all orders at short notice. If M. TRUNKS.—Just received and for sale a choice lot of Leather and Oil Cloth Trunks at the Store of ELIA MERTZ.

sieves of various sizes, in order to get rid of im-purities, and divide it into the well known kinds of hyson, hyson skin, and young hyson. Black tea undergoes a similar treatment, but the method of manipulation is not the same, and the coloring matter is never added. Some kinds of black tea are very expensive, and nev-er exported, being used by the Emperor and some of the high mandarins. The kinds de-nominated "coral dew," "white due," and rivulet garden tea," are said to be worth

thirty dollars a pound in China. Some idea of the great number of persons employed in the tea culture may be formed, when proyeu in the ten cutture may be formed, when it is estimated that fifty-five millions of pounds are annually exported, and that it is the uni-versal beverage of three hundred millions of people at home.

An Esquimaux Belle. A member of Dr. Kane' sexploring expedition, not having seen a woman for several months, became somewhat smitter with a tion, not having seen a woman for several months, became somewhat smitter with a business, Mr. B, feels confident that he will be able to supply the wants of the public in a satisfactorily man-ers at least completely vanquished our countryers at least completely vanquished our country-man. Wishing to testify his admiration of the friend suggests, hairy creature, fairy, or, as a he cast about for a love offering. But love of-ferings were scarce in latitude 72 deg.; and in despair he drew a couple of "double refined" tallow candles from his sack, and timidly presented them to the object of his Arcticadoration. She cagerly accepted the gift, and greedily deyoured the candles before her lover's eyes The young man was at first started, then disenchanted, then disgusted; and returned to his ship a Know Nothing, with a firm deter-mination never agein to make love to a "foreigner."

> TO REMEDY OFFENSIVE BREATHS.-For this burpose almost the only substance that should be admitted to the toilette, is the concentrated solution of chloride of soda. From six to ten drops of it in a wine glass full of pure their highest wants! And also how many spring water, taken immediately after the operations of the morning are completed. some cases, the order arising from carous teeth is combined with that of the stomach. If the man must work, and work, too in the martyr mouth will be well rinsed with a tea-spoonful of the chloride in a tumbler of water, the bad

odor of the teeth will be removed.

CAn Irishman being asked which was the ple of truth shall stand. oldest he or his brother, said, "I am the oldest ; but if Teddy lives three years longer, we shall then be both of an age.'

roads, it ounds up gigantic cities, it maks to-gether ocean with ocean, it annihilates space, it outstrips the wings of the wind. But how much individual happiness is wrecked in this worship of mammon? It is estimated that out of any hundred monement in the lattern of every hundred men engaged in the lottery of mercantile life, ninety fail. Of the success-

ful few, how many have the taste to enjoy their accumulations-or having the taste, find the health of mind and body at the end of their successful career requisite to employ and enjoy their acquisitions? To strive for competence is a praiseworthy effort—to strive for more, is unphilosophical and unwise. The end which

Pyrrhus proposed after conquering Italy, Asia and Africa, which comprised the then known world, was to sit down and enjoy himself. But why,' was the reply of his philosophic prime ister, ' not now sit down and enjoy yourself?'

Wealth, after all, has but a fictitious valueits existence is only in comparison. Stephen Girard is reported to have said, 'A man is as well off with half a million as if he were a rich nan.' Rothschild, on reading that Louis Phi-lippe's income, at the zenith of his prosperity,

was fifty dollars a minute, burst into tears, and declared that he was never before aware of the existence of such destitution. True wealth exists in the mind and heart—the rest is but dross, strips of paper and bits of white or yellow metal. These are consolatory reflections

to men who are compelled to refrain from Cali-fornia-and some of those who have gone, are aware by this time that heaps of yellow dust are a poor compensation for health, comfort and domestic endearments. Money is dirt-but as it is a dirt we have washed our hands of, we pursue the subject no further .- Olice

Newspapers.

PINEAPPLE JELLY .- Pare and grate the pine apple, and put into the preserving pan with one pound of fine white sugar to every pound of fruit; stir it and boil it until well mixed, and thicken sufficiently, then strain it,

pour it into jars, and when it has become cool cover the jellics with papers wet with brandy, cover the jars tightly, and treat them like apple jelly.

BAKED INDIAN PUDDING .- Take 3 pints o scalded milk, one handful of wheat flour, three eggs, and as much Indian meal as will make the whole thick, like batter of pancakes. Add one gill of molasses, and salt to your taste. Bake three hours.

A NICE DISH FOR BREAKFAST.-Take on egg and beat it up, add a teaspoonful of salt, pour into it about two-thirds of a pint of wa-ter, then slice some bread, dip it in, and fry in a little butter. Serve warm, and you will find it an excellent dish.

CUBRANT MARMALADE OR JAM .--- This i made in the same manner as cherry marma lade, using currants alone, and adding to every pound of currant pulps and juice one pound o white sugar. orders.

A PUZZLE.

Two boys were asked who they were, and nswered in this way :

We are two brothers born ; Also two sisters' sons ; • Our father is our grandfather----How queer our kindred runs.

The answer to the above puzzle is in the book Genesis, chap. xix, verses 37 and 38.

How little do the majority of readers of news DAMAGE BY A SHOWER.-We learn from papers know of the expenditure of thought, of the labor of the head, and brain, and hands, the labor of the head, and brain, and hands, which goes to make up that which ministers to shower, Thursday morning, last week, between truths, thought out with brain throcs, pass Nashua and Concord, and four of their noble unnoted, unobserved, even if not received with horses were struck down dead by the lightning -six of the company were also prostrated by it, but they revived and sustained no serious inrelentless hostility! Nevertheless, the true
