

There was a disgraceful fight at Hudson, N.Y., on Friday night, between a gang of rowdies and Dan Rice and his circus men. The rowdies gave Rice a terrible beating, but Rice's men afterwards rallied and attacked the restaurant of John H. Best, the leader of the rowdies, completely demolishing the establishment and routing the innards. All sorts of weapons were used from slug-shot to paving stones, and the affray is said to have been terrific.

ROSE'S PATENT WINDOW BLINDS.

THE subscribers invite the attention of the public to their new patent WINDOW BLINDS, which they are now manufacturing, and selling wholesale and retail, at their Factory, No. 123 West Hamilton St., Allentown, Penn. These blinds are far superior to any other ever manufactured, and are secured by Letters Patent, known as "Rose's Patent." They are greatly superior to all others in the fact that they are constructed with upper and lower blades, in such a manner that when the upper blade is fastened to the window-frame, the lower part may be separated or connected with ease. A little child can take the blind down, clean and raise it up. This is a great advantage when it is remembered that with the old style of blinds, a mechanic was always necessary to take them down or put them up. In other particulars also, they exceed far beyond any other blinds in the market. This improvement is attached to the old-fashioned blinds on reasonable terms. Orders are respectfully solicited. Persons wishing to secure Patent Rights of the above in any part of the Union, can do so by addressing the undersigned at Allentown, Lehigh Co., Pa. ROSE & HUMBERT, Allentown, Sept. 3.

GREAT RAIL ROAD ACCIDENT!

50,000'VE OF THE RAILROAD BRIDGE—Two Fall composites precipitated into the Canal—One man killed and several wounded. Accompanying this terrible disaster there still was a strike of luck to the Lehigh Valley Railroad Company for its occurring at the time it did—on Tuesday afternoon, because on the following morning some 30 or 40 cars were about being loaded by merchants in New York and Philadelphia with new style Fall and Winter Goods, all of which were to pass over the Bridge the same afternoon, directly to Allentown, and there to be unloaded at Joseph Stopp's Cheap Cash Store, No. 35 West Hamilton street. It is evident that if these cars, with their heavy freight, had been shipped in time to get on the Bridge, that their immense weight would have broken down the entire structure, and precipitated its contents into the Delaware, and thus would have incurred a loss to the Company of between \$500,000 and \$1,000,000; and not this alone, but the citizens of Allentown and vicinity would also have felt the loss, because if this immense quantity of cheap goods would have been lost, it would certainly have caused a scarcity, and a rise of 20 per cent. But by the aid of luck and the telegraph the intelligence of the accident was communicated to Philadelphia, and Stopp consequently had his goods loaded during the three successive days, on steamboats, canal boats, wagons, carts, wheelbarrows, backs of niggers, &c., and now they have commenced to land at his new Store House. His clerks are now engaged both day and night in unpacking and selling goods. As I passed by there last night between 11 and 12 o'clock, I stepped in, and to my astonishment found perfect mountains of goods piled from floor to ceiling. I passed back through the Store and saw a pile of about 500 Shawls, of all colors and prices—from \$25 down to 37 1/2 cts. a piece. On the other side I saw about 4000 yards fancy De Laines; and a little further along about 6000 yds. of twilled Persian cloth; on the other side I hit my elbow against 14 or 15 cart loads of Calico, and a little further along there was a pile of 8 or 10,000 yds. shirting and sheeting from 7 to 24 yds. wide. I then looked for men and boys' wear, and on one side of the store saw many thousands yards of cloths, cassimeres, sattinets, Kentucky jeans, tweeds, &c., of all colors and prices. I then began to get towards the rear end of the store, and my eyes fell on carpets, oil cloths, looking glasses, window shades, glass and tin ware. By this time I began to get pretty tired and sleepy, and as I turned around at the end of the store I made a mis-step and down I went, head over heels, into the cellar. When I opened my eyes and my senses were restored, I saw a stack of salt in one corner from floor to ceiling; on the other side there was the nicest sugar, coffee, molasses, cheese, and mackerel I ever laid eyes on. I asked one of the clerks some of the prices, and after I was told, I felt disposed on reflecting that I had long been a fool by paying double prices for my goods elsewhere. It was almost daytime now, and I determined after breakfast to send you these facts for publication in the Register. In conclusion I will say, both one and all, great and small, go to Stopp's Cheap Cash Store, No. 35 West Hamilton street. SAM. Sept. 3.

NEW LIGHT!

OLYIC OIL!—With the Improved Patent Lamp and Improved Oil—a light equal to gas, costing but half a cent per hour, and explosive, no disagreeable smell. Price 50 cents per gallon. The hand lamp gives a light at a cost of one mill per hour, or about two and a half cents per week, at four hours each evening, or \$1.25 a year. This new light is so constructed that it gives a light made by white or hard oil, or burning fuel, and one which is not inferior to kerosene or gas. It is more desirable than either of the latter because while gas flickers, this is steady, and the light is more agreeable to the eye. It is found the most agreeable light ever used, next to that of the sun. The chief points that recommend the Olyic Oil to public favor, are, 1st. The beautiful steady white light that it emits, being very properly called the Diamond Light; 2d. Its cheapness, and 3d. The impossibility of its explosion. 225—38. Containing more than any light would exchange it for any other, while its cheapness must soon cause it to supplant all others. Agents wanted for different sections of the country.
