## Farm Lands for Sale.

The Illinois Central Railroad Company OVER TWO MILLION OF ACRES OF

FARMING LANDS,
InTracts of 40 acres and upwards, on long Uredite
and at low rates of Interest.
THESE lands were granted by the Government, to
aid in the construction of this Railrond, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnifi-cent groves of oak and other timber. The Road ex-tends from Chicago, on the North-East, to Cairo at the South, and from thence to Galena and Dunleith in the North-west extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, ready and choin means are afforded by it for trans-porting the products of the lands to any of those points and from thouce to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great in-crease in population by immigration, etc., afford a substantial and growing home-demand for furm pro-

The soil is a dark, rich mould, from one to five feet doth, is gontly rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of wheat, Indian corn, etc.

Indian corn, etc.

Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stone picked off, as is generally the case in cultivating now land in the older States. The first erop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and fencing. Wheat sown on the newly-turned sod is sure to yield very large profits. A man with a plow and two yoke of oxen will break one and a half to two acres are down. Contracts can be made for breaking, ready

por day. Contracts can be made for breaking, ready for corn or wheat, at from \$2 to 2,50 per acre. By judicious management, the land may be plowed and fenced the first, and under a high state of cultivation

Corn, grain, cattle, etc., will be forwarded at reasonable rates to Chiengo, for the Eastern market, and to Caire for the Southern. The larger yield on the cheap lands of Illinois over the high-priced lands in

cheap lands of Illinois over the ingi-priced index in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market.

Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at \$1,50 to \$4,00 per ton; Wood can be had at the same rates per cord.

per cord.

Those who think of Stiling in Iowa or Minnesota, should bear in mind that lands there of any value, along the water courses and for many miles inland, have been disposed of,—that for those located in the interior, there are no conveniences for transporting temarket the produce, Railroads not having been introduced there. That to send the produce of these lands one or two hundred miles by wagen to market, would cost much more than the expense of cultivating them, and honce, Government lands thus situated, at \$1.25 per acre, are not so good investments as the \$1.25 per acre, are not so good investments as the

und of this company at the prices fixed.

The same remarks hold good in relation to the lands in Kansas and Nebraska, for although vacant landmay be found nearer the water courses, the distance may be found nearer the water courses, the distance to market is far greater, and every hundred miles the produce of those lands are carried either in wagons or interrupted water communications, increases the expenses of transportation, which inust be borne by the settlers, in the reduced price of their products, and to that extent precisely are the incomes from whire farms, and of course on their investments, annually and overy year reduced.

The great fertility of the lands now offered for sale by this company, and their consequent yield over

this company, and their consequent yield over than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by this Road, and others with which it connocts, the operations of which are not interrupted by w water of summer, or the frost of winter. PRICE AND TERMS OF PAYMENT.

PRICE AND TERMS OF PAYMENT.

The price will vary from \$5 to \$25, according to location, quality, etc. Contracts for Deeds may be made during the year 1856, stipulating the purchase money to be puid in five annual installments. The first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.

Interest will be charged at only three per cent. pe As a security to the performance of the contract, the first two years' interest must be paid in advance and it must be understood that at least one tenth of the land purchased shall yearly be brought under

Twenty per cont. from the credit price will be de ducted for cash. The Company's construction bonds

ducted for eash. The Company's construction bonds will be received as eash.

Ready framed farm buildings, which can be set up in a few days, can be obtained from responsible persons. They will be 12 feet by 20 feet, divided into one living and three bed-rooms, and will cost complete set up on ground chosen anywhere along the Road, \$150 in eash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials over their read promptly.

It is believed that the price, long credit, and low rate of interest, charged for these lands, will emble a man with a few hundred dellars in east and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time, the pid settlement of the country will probably have coreased their value four or five fold. When requirad, an experienced person will accompany applicants, to give information and aid in selecting lands.

Circulars, containing numerous instances of succontaining numerous instances of successful farming, signed by respectable and well-known farmers living in the neighborhood of the Railroad lands, throughout the State—also the cost of foncing, price of cattle, exponse of harvesting, etc., by contract—or any other information—will be cheerfully given, on application, either personally or by letter, ir English, French, or German, addressed to JOHN WILSON,

Land Commissioner of the Illinois Central Rail R. Co.
Office up to the 1st of May-52 Michigan Avenue
Chicago, Ills., after that date in the new Stone assonger Depot, foot of South Water Street.

Wieder & Berger WHOLESALE AND RETAIL
MANUFACTURERS AND DEALERS IN JATS AND CAPS

No. 25 West Hamilton street, Allentown. WE invite the attention of our old customers and friends, as well as the public in-general, to our large stock of spring and summer style of HATS AND CAPS, good as the best, and cheaper than they can be purchased at any store in town. This is an actual fact, and not merely idle talk to "draw on" customers, and as a proof of what we say, we but ask you to give us a call before purchasing elsewhere.—

Among our stock we have

Moleskin, Silk, Benver, Neutria, Russia, Cassimere, Soft and every other kind

Cassimere, Soft and every other kind of Hats that can be thought of, and will be able to suit the

taste and inclination of all who may favor us wit taste and inclination of all who may invor us with a call.

STRAW GOODS.—Of straw goods we have a very fine and choice stock, not surpassed by any in town, it consists of Men's, Boys' and Youths' Panama, Palm Leaf, Leghorn, Canada, Marienibo, Michigan, &c.—A fine stock of Misses' Bloomers.

Our assortment of CAPS is one of the most extensive in the place, and are adding to it almost daily. Customers may rest assured that they can be suited as the stock has been selected from the largest assortments in the cities.

As all HATS are manufactured under the immediate supervision of the firm, both being practical hat-

ate supervision of the firm, both being practical hat-ters, they feel warranted in saying that for durability and finish they cannot be surpassed by any establish-

ment in town.

## WARREN'S IMPROVED FIRE AND WATER PROCF COMPOSITION ROOFING.

Joseph Clewell, Allentown, Agent for Lehigh Co. VOUR attention is respectfully solicited to the above method of Roofing, now much used in Philadelphia and vicinity, and which has been extensively in use in many of the cities of the West, during more than cleven years past, during which time it has been tested under every variety of circumstances, and we confidently offer it to the public as a mode of Roofing numbered took to the public as a mode of set up on ground chosen anywhere using the Roding and we confidently offer it to the public as a mode of \$150\$ in eash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials over their road promptly.

Special arrangements with dealers can be made to supply those purchasing the Company's lands with foncing materials, agricultural tools, and an outfit of provisions in any quantity, at the lowest wholesate prices.

His believed that the price, long credit, and low rate.

His believed that the price, long credit, and low rate.

This is rapidly superseding the use of all other kinds of roofs, wherever it has been introduced, giving general satisfaction, and is highly recommended by all prices.

His believed that the price, long credit, and low rate. inclination of not more than one inch to the foot, which is of great advantage in case of fire, and for drying purposes. They are offered at a price considerably less than any other roof in use, while the amount of material saved, which would otherwise be used in extending up the walls and framing for a steep roof, often makes a still farther important reduction in the cest of building. Gutters may be formed of the same material as the roof, at much less expense than any other. In case of defect or injury, from any cause, there is no roof so easily remired.

from any cause, there is no roof so easily repaired.

The materials being mostly non-conductors of heat, The materians being mostly non-conductors of near, no roof is so cool in summer, or so warm in winter. Those wishing to use our roof, should give the rafter a pitch of about one inch to the foot. For further information apply to Joseph Clewell, at Allentowa, our agent for Lehigh and Carbon counties, who is prepared to execute all orders at short notice. H. M. WARREN & CO..

merous to mention. He feels confident that the above goods are the best in market, and offers them to the public at the lowest prices.

He would particularly call your attention to his stock of CLOCKS AND WATCHES, and urge you to call on him before purchasing elsewhere, as he feels assured that he cannot fail to suit you, not only with the articles, but what is more important, with the prices, and would also inform the public that all his goods are warranted. oods are warranted.

goods are warranted.

Clocks, Watches and Jewelry, repaired in the neatent and beat manner, and at the shortest notice—all
his work is warranted.

JOHN NEWHARD.

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fovers, Gout, Humors, Nervonsness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c. &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the many eminent gentlemen who have testified in favor of these Pills, we may mention:

Dr. A. A. HAYES, Analytical Chemist, of Boston, and State Assayer of Massachusetts, whose high professional character is endorsed by the

HON. EDWARD EVERLETT, Senator of the U. S. Robert C. Wintingor, Ex-Speaker of the House of Representatives.

of Representatives.

ABBOTT LAWRENCE, Minister Plen. to England.

of Representatives.

ARBOTT LAWRENCE, Minister Plen, to England.

† JOHN B. FITTPATHICK, Cath. Bishop of Boston.
Also, Dr. J. R. CHILLION, Practical Chemist, of
New York City, endorsed by
HON. W. L. MARCY, Secretary of State.
W. E. ASTOR, the richest man in America.
S. LELAND & Co., Propr's of the Metropolitan
Hotel, and others.
Did space permit, we could give many hundred
certificates, from all parts where the Fills have
been used, but evidence even more convincing than
the experience of eminent public men is found in
their effects upon trial.
These Fills, the result of long investigation and
study, are effered to the public as the best and
most complete which the present state of medical
science can afford. They are compounded not of
the drugs themselves, but of the medicinal virtues
only of Vegetable remedies, extracted by chemical
process in a state of purity, and combined together
in such a manner as to insure the best results. This
system of composition for medicines has been found
in the Cherry Pectoral and Pills both, to produce a
more efficient remedy than had hitherto been obtained by any process. The reason is perfectly orin the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly onvious. While by the old mode of composition, every medicine is burdened with more or less of aerimonious and injurious qualities, by this cach individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If, however, there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known Their life consists in their mystery. I have monysteries.

Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see wrapper on the Box.

GEO. LUCAS & SONS. -1y Allentown, January 9.

RESOLUTION Proposing Amendments to the Constitution of

Troposing Amendments to the Constitution by
the Commonwealth.
Resolved by the Senate and House of Representatives
of the Commonwealth of Pennsylvania in General Assembly met, That the following amendments are proposed to the constitution of the commonwealth, in
accordance with the provisions of the tenth article

FIRST AMENDMENT. There shall be an additional article to said consti-ution to be designated as article eleven, as follows:—

OF PUBLIC DEBTS. SECTION 1. The state may contract debts, to supply casual deficits of failures in revenues, or to meet expenses not otherwise provided for; but the aggregate amount of such debts direct and contingent, whether contracted by virtue of one or more acts of the gener-al assembly, or at different periods of time, shall never exceed seven hundred and fifty thousand dollars, and the money arising from the creation of such debts, shall be applied to the purpose for which it was obtained, or to repay the debts so contracted, and to no other purpose whitever.

Section 2. In addition to the above limited power

the state may contract debts to repel invasion, sup-press insurrection, defend the state in war, or to re-deem the present outstanding indebtedness of the state; but the money arising from the contracting of such debts, shall be applied to the purpose for which t was raised, or to repay such debts, and to no other

purpose whatever.

Secrics 3. Except the debts above specified, in sections one and two of this article, no debt whatever shall be created by, or on behalf of the state. Secroto 4. To provide for the payment of the pres-ent debt, and any additional debt contracted as afore-

ent debt, and any additional debt contracted as aforesaid, the legislature shall, at its first session, after the
adoption of this amendment, create a sinking fund,
which shall be sufficient to pay he accruing intereston such debt, and annually to reduce the principal
thereof by a sum not less than two hundred and fifty
thousand dollars; which sinking fund shall consist of
the net annual income of the public works, from time
to time owned by the state, or the praceeds of the sale
of the same, or any part thereof, and of the income
or proceeds of sale of stocks owned by the state, togother with other funds, or resources, that may be
designated by law. The said sinking fund may be
increased, from time to time, by assigning to it any
part of the taxes, or other revenues of the state, not
required for the ordinary and current expenses of part of the taxes, or other revenues of the state, not required for the ordinary and current expenses of government, and unless in case of war, invasion or insurrection, no part of the said sinking fund shall be used or applied otherwise than in extinguishment of the public debt, until the amount of such debt is re-

duced below the sum of five millions of Jollars.

Section 5. The credit of the commonwealth shall not in any manner, or event, be pledged, or loaned to, any individual, company, corporation, or association; nor shall the commonwealth hereafter become a joint owner, or stockholder, in any company, association,

or corporation.

Section 6. The commonwealth shall not assum the debt, or any part thereof, of any county, city, bo-rough, or township; or of any corporation, or associa-tion; unless such debt shall have been contracted to enable the state to repel invasion, suppress domestic insurrection, defend itself in time of war, or to assist insurrection, defend itself in time of war, or to assis the state in the discharge of any portion of its presen Section 7. The legislature shall not authorize any

county, city, borough, township, or incorporated dis-trict, by virtue of a vote of its citizens, or otherwise, to become a stockholder in any company, association, or corporation; or to obtain money for, or loan its credit to, any corporation, association, institution, or

SECOND AMENDMENT.

There shall be an additional article to said constitution, to be designated as article XII, as follows:

OF NEW COUNTIES. No county shall be divided by a line cutting off over one-tenth of its population, (either to form a new county or otherwise.) without the express assent of such county, by a vote of the electors thereof; nor shall any new county be established, containing less than four hundred square miles.

THERE AMENDMENT.

From section two of the first article of the constitu-tion, strike out the words, "of the city of Philadel-phia, and of each county respectively;" from section delphia and of the several counties;" from section seven, same article, strike out the words, "of Philadel-the city of Philadelphia nor any," and insert in lieu thereof the words, "and no;" and strike out section four, same article, and in lieu thereof insert the fol-lowing:

Section 4. In the year one thousand eight hun dred and sixty-four, and in every seventh year there after, representatives to the number of one hundred shall be apportioned and distributed equally, through out the state, by districts, in proportion to the num ber of taxable inhabitants in the several parts there ber of taxable inhabitants in the several parts thereof; except that any county containing at least three
thousand five hundred taxables, may be allowed a
separate representation; but no more than three
counties shall be joined, and no county shall be divided, in the formation of a district. Any city containing a sufficient number of taxables to entitle it to at
least two representatives, shall have a separate representation assigned it, and shall be divided into conversiont districts of continuous territory, of causal tax-

ritory as nearly equal in taxable population as possi-ble; but no ward shall be divided in the formation

The legislature, at its first session, after the adoption of this amendment, shall divide the city of Phil adolphia into senutorial and representative districts. in the manner above provided; such districts to remain unchanged until the apportionment in the year one thousand eight hundred and sixty-four. FOURTH AMENDMENT.

To be section XXVI, Article 1.

The legislature shall have the power to alter, re voke, or annul, any charter of incorporation hereafte conferred by, or under, any special, or general law, whonever in their opinion it may be injurious to the citizens of the commonwealth; in such manner, however, that no injustice shall be done to the incorpo-IN SENATE, April 21, 1856.
