GREAT RAIL ROAD ACCIDENT!

$50,000 LOST AT EASTON.—Great Fall of the Railroad Bridge—two locomotives precipitated into the Canal—One man killed and several wounded. Accompanying this terrible disaster there still was a strick of luck to the Lehigh Valley Railroad Company for its occurring at the time it did—on Tuesday afternoon, because on the following morning some 30 or 40 cars were about being loaded by merchants in New York and Philadelphia with new style Fall and Winter Goods, all of which were to pass over the Bridge the same afternoon, directly to Allentown, and there to be unloaded at Joseph Stopp's Cheap Cash Store, No. 35 West Hamilton street. It is evident that if these cars, with their heavy freight, had been shipped in time to get on the Bridge, that their immense weight would have broken down the entire structure, and precipitated their contents into the Delaware, and thus would have incurred a loss to the Company of between $300,000 and $400,000; and not this alone, but the citizens of Allentown and vicinity would also have felt the loss, because if this immense quantity of cheap goods would have been lost, it would certainly have caused a scarcity, and a rise of 20 per cent. But by the aid of luck and the telegraph the intelligence of the accident was communicated to Philadelphia, and Stopp consequently had his goods loaded during the three successive days, on steamboats, canal boats, wagons, carts, wheelbarrows, backs of niggers, &c., and now they have commenced to land at his new Store House. His clerks are now engaged both day and night in unpacking and selling goods. As I passed by there last night between 11 and 12 o'clock, I stepped in, and to my astonishment found perfect mountains of goods piled from floor to ceiling. I passed back through the Store and saw a pile of about 500 Shawls, of all colors and prices—from $25 down to 37½ cts. a piece. On the other side I saw about 4000 yards fancy De Laines; and a little further along about 6000 yds. of twilled Persian Cloth: on the other side I hit my elbow against 14 or 15 cart loads of Calico, and a little further along there was a pile of 8 or 10,000 yds shirting and sheeting from ¾ to 2¼ yds. wide. I then looked for men and boys' wear, and on one side of the store saw many thousand yards of cloths, cassimeres, sattinetts, Kentucky jeans, tweeds, &c., of all colors and prices.—I then began to get towards the rear end of the store, and my eyes fell on carpets, oil cloths, looking glasses, window shades, glass and queensware. By this time I began to get pretty tired and sleepy, and as I turned around at the end of the store I made a mis step and down I went, head over heels, into the cellar. When I opened my eyes and my senses were restored I saw a stack of salt in one corner from floor to ceiling; on the other side there was the nicest sugar, coffee, molasses, cheese, and mackerel I ever laid eyes on. I asked one of the clerks some of the prices, and after I was told, I felt disgusted on reflecting that I had so long been a fool by paying double prices for my goods else where. It was almost daytime now, and I determined after breakfast to send you these facts for publication in the Register. In conclusion I will say, both one all, great and small, go to Stopp's Cheap Cash Store, No. 35 West Hamilton street.

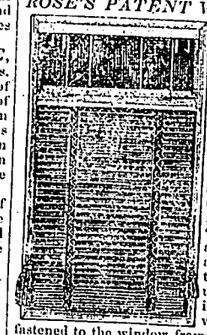
ROSE'S PATENT WINDOW BLINDS.



THE subscribers invite the attention of the public to their new patent VENETIAN WINDOW BLINDS, which they are now manufacturing, and selling wholesale and retail, at their Factory, No. 125 West Hamilton St., Allentown, Penn. These Blinds are far superior to any other ever manufactured, and are secured by Letters Patent, known as "Rose's Patent." They are greatly superior to all others in the fact that they are constructed with upper and lower heads, in such a manner that when the upper head is fastened to the window-frame, the lower part may be separated or connected with ease. A little child can take the Blind down, clean and replace it. This is a great advantage when it is remembered that with the old style of Blinds, a mechanic was always necessary to take them down or put them up. In other particulars, too, they exceed for beauty and convenience all others. This improvement will be attached to the old-fashioned Blinds on reasonable terms.

Orders are respectfully solicited. Persons wishing to secure Patent Rights of the above in any part of the Union, can do so by addressing the undersigned at Allentown, Lehigh Co., Pa.

☞ SHOCKING.—The *Marion (Ill.) Intelligencer* reports that a *runaway* negro from Kentucky, one night recently outraged the person of a white woman in the vicinity of Golconda, Pope Co., in the absence of her husband, and afterwards attempted a similar crime upon another married woman, but was foiled. The negro was captured and a crowd of people rescued him from the sheriff took him four miles back into the country, and there tied him up to a tree. An old sword was then placed in the hands of the injured woman who thereupon began to slash, cut and stab him in the most terrible manner. After this woman had fully sated her vengeance, the brothers and husband of the second lady shot the negro six or seven times in different parts of his body—one of her brothers finally putting an end to his torments by shooting him through the head. The brutal exhibition was finally wound up by actually scalping him, and his remains were thrown into a gully a few rods from the place of execution.
