in the Cherry Prectoral and Pills anth, to produce a more efficient remedy than had hitherto been ob-tained by any process. The renson is perfectly op-vious. While by the old mode of composition, every medicine is burdenied with more or less of acri-monious and injurious qualities, by this each indi-vidual withe only that is desired for the curative effect is present. All the inert and obnoxious qual-ities of each substance employed are left behind, the curative virtues only being retained. Hence, it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world. As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition. I have supplied the accurate Formulae by which both my Prectoral and Pills are made to the whole body of Practitioners in the United States and British Amer-ican Provinces. If, however, there should be any one who has not received them, they will be promptly forwarded by mail to his address. Of all the Patent Medicines that are offered, how few would be taken if their composition was known ! Their life consists in their mystery. I have no mysteries.

Their life consists in their mystery. I have no mysteries. The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely neknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many em-inent Physicians have declared the same thing of my Fills, and even more confidently, and are will-ing to certify that their anticipations were more than realized by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—rymove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derange-ments as are the first origin of disease. Being sugar wrapped they are pleasant to take. and being purely vegetable, no harm can arise from their use in any quantity. FREPARED BY
