Lochman's AMBROTYP AND DAGUERREOTYPE GALLERY, No. 9 West Hamilton street, Allentown, Pa.

B. LOCHMAN respectfully informs the citizens of and to take AMBROTYPES in connection with ed to take AMBROTYPIES in connection with Daguerreotypes. His Ambrotypes are far superior to those of any other operator in town—however much may be talked of the "Patent" Ambrotype, to the contrary notwithstanding. The Ambrotype is a new and boautiful style of nicture taken on glass, and unequalled by any other style. They are without the glare of the Daguerreotype, and therefore can be seen in any view. They can be seen on either side of the plate, are not reversed, and show everything in its true position. Their cost is but a trifle more than a daguerthe Daguerreotype, and therefore can no settler side of the plate, are not reversed, and show everything in its true position. Their cost is but a trille more than a daguer reotype, and they are indestructable to the action of the atmosphere, and cannot be injured by rubbing or washing. WARREN'S MR. BRECKINRIDGE, IMPROVED FIRE AND WATER PROOF COMPOSITION ROOFING.

Joseph Clowell, Allentown, Agent for Lehigh Co. Your attention is respectfully solicited to the above method of Roofing, now much used in Philadelphia and vicinity, and which has been extensively in use in many of the cities of the West, during rainatolphia and vicinity, and which has been extensively in use in many of the cities of the West, during more than eleven years past, during which time it has been tested under every variety of circumstances, and we confidently offer it to the public as a mode of Roofing unobjectionable in every important particular, while it combines, in a greater degree than any other roof in use, the valuable requisites of cheapness, durindity; and security against both fire and water.—This is rapidly superseding the use of all other kinds of roofs, wherever it has been introduced, giving general satisfaction, and is highly recommended by all who have tested its utility. These roofs require an inclination of not more than one inch to the foot. which is of great advantage in case of fire, and for drying purposes. They are offered at a price considerably less than any other roof in use, while the amount of material saved, which would otherwise be used in extending up the walls and framing for a steep roof, often makes a still further important reduction in the cost of building. Gutters may be formed of the same material as the roof, at much less expense than any other. In case of defect or injury, from any cause, there is no roof so easily repaired.

The materials being mostly non-conductors of heat, no roof is so cool in summer, or so warm in winter.

AYER'S PILLS,

A NEW and singularly successful remedy for the
A cure of all Bilious diseases—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers,
Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back,
anu Limbs, Female Complaints, &c. &c. Indeed,
very few are the diseases in which a Purgative Medicine is not more or less required, and much sikness and suffering might be prevented, if a harmless but effecteal Cathartic were more freely used.
No person can feel well while a costive habit of
body prevails; besides it soon generates serious and
often fatal diseases, which might have been avoided
by the timely and judicious use of a good purgative.
This is alike true of Colds, Feverish symptoms, and
Bilious derangements. They all tend to become or
produce the deep seated and formidable distempers
which load the hearses all over the land. Hence a
reliable family physic is of the first importance to
the public health, and this Fill has been perfected
with consummate skill to meet that demand. An
extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing
any thing hitherto known of any medicine. Cures
have been effected beyond belief, were they not substantiated by persons of such exalted position and
character as to forbid the suspicion of untruth.

Among the many eminent gentlemen who have
testified in favor of these Pills, we may mention:

Dr. A. A. HAYER, Annalytical Chemist, of Boston,
and State Assayer of Massachusetts, whose high
professional character is endorsed by the
HON. EDWARD EVERLETT, Senator of the U. S.
ROBERT C. WINTHROP, Ex-Speaker of the House
of Representatives.

Annort LAWRENCE, Minister Plen. to England.
† John B. Fitzpatratek, Cath. Bishop of Boston.
Also, Dr. J. R. CHILTON, Practical Chemist, of
New York City, endorsed by
HON. W. L. MARCY, Secretary of State.

S. LEAND & Co., Propr's of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates, from all parts where the Fils have been used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial.

These Fills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obin the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly options. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition. I have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If, however, there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their-composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid onen

mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their offects unon trial.

ing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

GREAT RAIL ROAD ACCIDENT! \$50,000 LOST AT EASTON.—Great Fall of the Railroad Bridge—two lo-

comotives precipitated into the Canal-One man killed and several wounded. Accompanying this terrible disaster there still was a strick ing this terrible disaster there still was a strick of luck to the Lehigh Valley Railroad Company for its occurring at the time it did—on Tuesday afternoon, because on the following morning some 30 or 40 cars were about being loaded by merchants in New York and Philadelphia with new style Fall and Winter Code. lelphia with new style Fall and Winter Goods, all of which were to pass over the Bridge the same afternoon, directly to Allentown, and there to be unloaded at Joseph Stopp's Chear Cash Store, No. 35 West Hamilton street. It is Through evident that if these cars, with their heavy o skin, is freight, had been shipped in time to get on the Bridge, that their immense weight would have broken down the entire structure, and precipitated their contents into the Delaware, and thus would have incurred a loss to the Company of between \$300,000 and \$400,000; and not this alone, but the citizens of Allentown and vicinity would also have felt the loss, because if this inmense quantity of cheap goods would have been lost, it would certainly have caused a scarcity, and a rise of 20 per cent. But by the aid of luck and the telegraph the intelligence of the accident was communicated to Philadelphia and Stopp consequently had high Philadelphia, and Stopp consequently had his goods loaded during the three successive days, on steamboats, canal boats, wagons, carts, wheelbarrows, backs of niggers, &c., and now they have commenced to land at his new Store House. His clerks are now engaged both day House. His clerks are now engaged both day and night in unpacking and selling goods. As I passed by there last night between 11 and 12 o'clock, I stopped in, and to my astonishment found perfect mountains of goods piled from floor to ceiling. I passed back through the Store and saw a pile of about 500 Shawls, of all colors and prices—from \$25 down to 371 all colors and prices—from \$25 down to 37½ cts. a piece. On the other side I saw about 4000 yards fancy De Laines; and a little further along about 6000 yds. of twilled Persian Cloth : on the other side I hit my elbow against 14 or 15 cart loads of Calico, and a little further along there was a pile of 8 or 10,000 yds. shirting and sheeting from \$\frac{1}{2}\$ to \$2\frac{1}{2}\$ yds. wide. I then looked for men and boys' wear, and on one side of the store saw many thousand yards of cloths. of cloths, cassimeres, sattinetts, Kentucky jeans, tweeds, &c., of all colors and prices .-Sugar, coffee, molasses, cheese, and mackerel I sugar, coffee, molasses, cheese, and mackerel I every disorder are affixed to each Pot.

Now York, Jan. 16, 1856. disgusted on reflecting that I had so long been a fool by paying double prices for my goods clse-It was almost daytime now, and I determined after breakfast to send you these facts for publication in the Register. In conclusion THE opposition say that in a short time the ground will be ready to sow Onts, Barley, &c. How they know this we are not able to say, but this much was will say, that whenever it gets ready, you had
