From the New York Herald.

...rtant Letter from Washington.

...GTON, Jan. 17, 1857.

WASHING...

Terrible Fright of the Iron Men—Conspiracy of Englishmen to Control Mr. Buchanan's Cabinet—Eight Americans in the plot—Look to the Senate—The Bogus Fraud—British Gold and American Iron.

I have just been informed of one of the most gigantic and far-reaching schemes of public spoilation and plunder which has yet been conceived even by the lobby of the Thirty-fourth Congress. It was by the merest accident that I am enabled to sketch its main features. The parties to it are said to be men of character and position, wielding a power which will make itself felt, for good or for evil. The discoveries made go to implicate certain British manufacturers, if not the British government, in a conspiracy against the integrity of Mr. Buchanan's administration, which for boldness and originality, is perhaps without a parallel in the history of the world.

It appears that the British iron masters, becoming thoroughly alarmed at the recent development of the iron industry of this country, have combined to "crush it out" by securing the appointment of a Secretary of the Treasury to the incoming administration who is in favor of the immediate reduction, if not the total abolition, of import duties on iron; and with this view, have despatched agents to this country, with a plentiful supply of gold, it is said, with the control of a contingent fund of $1,000,000, to be expended in the corruption of our politicians. These modern Harpaluses are now in our midst, and have almost or quite succeeded in organizing a vast secret movement against one of the most important industrial interests of this country. The American accomplices to this gigantic plot are said to be among the Southern democratic leaders, and the representatives of the great railroad interests of the North, who are so clamorous for the reduction of duties on railroad iron, and who are now beseeching Congress to accomplish that object.—The proper successor, I understand, of the present Secretary of the Treasury, is already provided, and the operators but await his official action in the premises, and the passage of the Pacific Railroad bill, now before Congress, to strike the decisive blow, the suddenness and violence of which, it is confidently predicted by these foreign emissaries, will finally close every furnace in America in less than twelve month, and thus precipitate a financial crisis upon the country which must shake our industrial and commercial systems to their foundation.

This startling scheme, it will be perceived, has not been organized without a due reference to the elements of permanent success. It is said to have been conceived by an Englishman who has recently obtained much celebrity by the boldness, originality and success of his commercial projects. The free trade movement in Belgium, which is getting up such a tremendous excitement in that country, is but an adjunct of the one I have just unfolded, and is also the production of the same brain. The American branch of this British conspiracy against the commercial policy or independence of surrounding governments, has hitherto been veiled in the most impenetrable mystery, and has not been imparted to any except to those deemed absolutely essential to its success. The number of Americans engaged in it is not as yet, I am informed, a half dozen all told; but they are the virtual representatives of the interests which naturally ally themselves with the proposed measures, and in various ways are preparing the public mind for the denouement. The anti-tariff resolutions introduced in the Southern Commercial Convention was but the fore-shadowing of coming events.

The Senate Post Office Committee bill, recently reported, is also supposed to be one of the feelers thrown out by the arch conspirators. This bill empowers the Postmaster General to enter into contracts with railroads now or hereafter to be completed, the contractors to have the privilege to import iron free of duty. It is not expected that this bill will pass, but it will accomplish its object. It conclusively shows a combination of the railroad interests with the free trade politicians against one of the most important branches of Northern industry.

The facts which establish the foregoing revelations, shall in due time be given to the Herald, and they must implicate high public functionaries, both in this country and England.

THE GREAT IRON STEAMER.—The following are some of the main particulars of the enormous iron steamship now in course of construction on the Thames. Her whole length is 684 feet; breadth of beam 86 feet; diameter of paddle wheels 121 feet; depth of hold 70 feet; depth of paddle wheel 58 feet; diameter of screw 41 feet. There will be five funnels and seven masts, two of the latter being square rigged. The nominal horse power will be 2,600, but it will work up from 6,000 to 10,000. Her measurement will be 23,640 tons. It is expected that her crew will number from 750 to 800 men, including twelve chief officers. She will have accommodations for 20,000 persons, including 4,000 first class passengers: or, if used as a transport, she can carry 15,000 troops and 5,000 horses. She is expected to run at the rate of sixteen miles an hour. Surely this is one of the wonders of mechanic power in the nineteenth century.

ICE ON VESSELS.—But few people, excepting those accustomed to the sea have any adequate idea of the difficulties encountered by navigators on reaching our coast in the Winter season. The brig Andrew Peters, of Ellsworth, which arrived at New York, on Saturday, from Cienfuegoes, was so covered with ice on the 9th inst., that she settled by the head fifteen inches, requiring all hands since that time to clear her, in doing which Capt. McFarland estimates that he threw overboard *one hundred tons of ice.*

SALE OF NEGROES.—A sale of negroes, ranging in age from 10 to 70 years, was made in Liberty, Bedford co., Va., on New Year's day, for the aggregate sum of $7,037. The highest price obtained was $1,225; the lowest $130—average $763,70. This is doing pretty well, considering the almost superannuated condition of several of the negroes. At Charlottesville, Va., on January court day, a hundred negroes changed hands at $1000 to $1300 for men, and $800 to $900 for women.

NEW COUNTERFEIT.—A new counterfeit $10 on the Harrisburg Bank, is in circulation. It has portraits of Washington and Rittenhouse in the centre—canal boat on one end, and male and female on the other—with a train of cars at the bottom of the note. The genuine $10 has the State Capital in the centre, with the Goddess of Liberty in the foreground, seated. The vignettes on the end are both alike—two females.

☞The greatest objection to smart children is, that when they commence having whiskers, they leave off having brains. Boys that are philosophers at six years of age, are generally blockheads at twenty one. By forcing children along, you get so much in their heads that they become cracked in order to hold it.

NEW YORK SIXTY-EIGHT YEARS AGO.—Governor Page, of Virginia, in a letter from the city of New York to his son, dated March 16, 1789, says:

"This town is not half so large as Philadelphia, nor in any manner to be compared to it for beauty and elegance. Philadelphia, I am well assured, has more inhabitants than Boston and New York together. The streets here are badly paved, very dirty and narrow, as well as crooked, and filled up with a strange variety of wooden, stone, and brick buildings, and full of hogs and mud. The college, St. Paul's church, and the hospital are elegant buildings. The Federal Hall, also, in which Congress is to sit, is elegant. What is very remarkable here is that there is but one well of water which furnishes the inhabitants with drink, so that water is bought here by every one that drinks it, except the owner of this well. Four carts are continually going about selling it at three gallons for a copper—that is, a penny for every three gallons of water. The other wells and pumps serve for washing, and nothing else. I have not time to say more about this place and the other towns through which I passed, but will by some other opportunity write you whatever may be worth your knowledge."

A NOBLE FELLOW.—On the morning of Dec. 1st, four little boys broke through the ice on the lake near their school house, in Waterville, Wis. The villagers hastened to the spot, but the ice was so thin that none dared venture to their aid. At this moment, just as the boys were sinking, a young man, eighteen years of age, named John Adams, sprang forward, seized a fishing spear, and leaving most of his clothes on the bank plunged into the lake and saved two of the boys. He then made another dash, and saved the third. Adams was now almost exhausted, but the mother of the fourth boy was standing near, in horrible agony, and Adams said to her, "I will save your boy or die." Tying a rope around his waist, he told those on shore to pull him in if he sank, and cried out "Stand by the rope, I am going to him." He then plunged in, swam out some ten rods, breaking the ice with his hands, seized the boy who was sinking for the third time, carried him ashore, and restored him to his mother's arms.

THE TWO NAVIES.—The tonnage of the British Navy is not far from 650,000—that of our own little Navy about 85,000. They mount about 16,000 guns afloat—and we about 1,500. If we abolish privateering we must change our policy, and largely increase our Navy, or be most ingloriously defeated at sea in the event of a naval war.

A SLIGHT INCREASE.—Eight years ago, Chas. C. Van located five hundred acres south of Fort Des Moines, not far from the city. It cost $1.25 an acre, or $625. He has recently been offered $220 an acre, or $100,000 for the tract.

REASON AND COMMON SENSE.

Our readers may remember we have on several occasions spoken in very eulogistic terms of a preparation which Dr. SETH S. HANCE, of 108 Baltimore street, Baltimore, Md., has discovered for the cure of Epileptic Fits. Now, in doing so, we have been actuated by the very best motives, viz: the alleviation of human suffering. From circumstances which have lately come to our knowledge, we fear there is a certain class of persons who are not disposed to try this remedy in a common sense manner. We allude to the fact of selecting a particular case in a town where perhaps there are six or eight cases, and trying it on one case. Now, perhaps the case selected might be only the one of the whole number that it would not cure. This is neither doing themselves nor the medicine justice. If a dozen persons were striken down with cholera in one town or neighborhood, would they all send for a physician, or would only one employ him, and wait and see if he cured the first patient? That plan of procedure would be most absurd. So in the case of Dr. Hance's remedy, every one who has Fits should try it for a reasonable length of time. It will not cure in a day or week; nothing worth doing can be accomplished at once. What is easily done, is as easily undone. The growth of time is enduring.—From the most respectable testimony we have examined, we feel assured that by a proper perseverance in this remedy, nine cases of Epilepsy out of ten may be cured. The Pills are sent by mail free of postage to any part of the world. Price: one box $3; two $5; twelve $24. You will find the address above.

WHISKERS, BEARD AND MUSTACHIOS.—Forced to grow in six weeks by DR. LAFONT'S CAPILARY COMPOUND. Warranted not to stain or injure the skin. Price $1 per Package, or 3 for $2 50.

Sent to any part of the country, by mail, on receipt of a remittance. Address SWEETSER & CO., Box 739 Post Office, Baltimore, Md.

DIED.

On Thursday morning last, in Bethlehem, widow SALOME RICE, aged 73 years.

On the 17th inst., in Millerstown, MARIA, consort of Peter Haas, aged 42 years.

On the 16th inst., in Millerstown, ELIZABETH MERTZ, aged 67 years.

On the 16th inst., in South Whitehall, of fever, JAMES W. HOFFMAN, aged 27 years.

THE TEETH.

G. C. HAND, DENTIST, has the pleasure to state that he has so far recovered his health as to be able to resume the practice of his profession. OFFICE in the "BREINIG BUILDING."

The honor of referring to the following gentlemen, for whom and their families he has operated, has been kindly granted.

The number of years which has elapsed, since their operations were performed (and whose teeth still remain preserved,) is attached to their respective signatures: Garrick Mallery, 24 years; John Romig, M. D., 25 years; Christian Pretz, 25 do; Benjamin J. Hagenbuch, 14 do.; Charles Saeger, 17 do.; C. M. Runk, 11 do.; Evan W. Eckert, 16 do.; Owen Saeger, 16 do.; H. C. Longnecker, 13 do.; R. E. Wright, 25 do.

These are a few of the hundreds of cases in which the chemical preparation of Dr. Hand, as a remedial agent for decayed teeth, has been used, in no one of which has it failed to restore to "pristine health."

Artificial Teeth, from one to a full set, of the best quality, inserted in the most scientific manner, at feasible prices.

Allentown, January 28. —6m

Jan. 28—Jul. 4. —tf

CARTER'S SPANISH MIXTURE.

THE GREAT PURIFIER OF THE BLOOD!

THE BEST ALTERATIVE KNOWN!

Not a Particle of Mercury in it!

An infallible remedy for Scrofula, King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Postules on the Face, Blotches, Boils, Ague and Fever, Chronic Sore Eyes, Ringworm, or Tetter, Scald head, Enlargement and pain of the Bones and Joints, Salt Rheum, Stubborn Ulcers, Syphilitic Disorders, and all diseases arising from an injudicious use of Mercury, Imprudence in Life, or Impurity of the Blood.

This great remedy, which has become so rapidly and so justly celebrated for its extraordinary efficacy in relieving and curing many of the most obstinate and terrible forms of disease with which mankind is afflicted, is now offered to the public, with the confident assurance that no MEDICAL DISCOVERY ever made has been so eminently successful in curing SCROFULA, and ALL DISEASES OF THE BLOOD, as Carter's Spanish Mixture.

The proprietors are receiving by every mail most flattering and astonishing details of cures made in all parts of the country, and in most cases where the ill of the best Physicians had been tried in vain. Its power over the BLOOD is truly remarkable, and all diseases arising from impurity of that great SEAT OF LIFE, have been relieved and cured without a single failure out of the thousands who have used it.—Carter's Spanish Mixture contains no Mercury, Opium, Arsenic, or any dangerous drugs, but is composed of Roots and Herbs, combined with other ingredients of known virtue, and may be given to the young est infant or most debilitated invalid, without the least possible hesitation.

WM. S. BEERS & CO., Proprietors, No. 304 Broadway, New York.

☞Price $1 per bottle, or six bottles for $5. For sale by J. B. Moser, Allentown, S. Rau, Bethlehem and druggists and merchants generally.

New York, February 13, 1856. —1y

We the undersigned Auditors of the County of Lehigh and State of Pennsylvania, do certify that we have met and did audit the foregoing account of Charles S. Bush, Esq., Treasurer of the Directors of the Poor and House of Employment of said County, from January 1st, A. D. 1856, to January 1st, 1857, that said account as stated is correct and that we find a balance in the hands of the said Treasurer, of one thousand five hundred and twenty-five dollars and eighty-one cents. Witness our hands this thirteenth day of January, 1857.

SAMUEL J. KISTLER,
JOHN R. SCHALL,
DANIEL H. CREITZ, } Auditors.
