For Sale,

THE MARIA FARM AND FURNACE.

THIS very valuable property and splendid Farm is now offered for sale on very reasonable terms. It is situated two miles from Watsport, Carbon county, and consists of 1300 acres of the very best land and a small Farming and manufacturing town. There is also a good forge, mill, &c. The water power is one of the best in the State, and amply sufficient not only for the furnace and forge, but also for mills or other factories. The rapid improvement of the neighborhood makes it a very desirable location for a mill. There are also a Blacksmith Shop, a Tenant house, and a fine Stone Store house.

The farm is a very excellent one, being considered by many to be the finest in Carbon county. The whole 1300 acres are under cultivation, and particularly adapted to grain and grass. For a dairy Farm, it is peculiarly adapted from its proximity to one of the best markets in the State. The Mansion is a large double two story stone one, of about 10 feet square with basement kitchen. In one room in the basement is a large and fine spring of the very best water. As a residence this Maria property is seldom surpassed in point of health or beauty. The market in Mauch Chunk is equal if not better than in Philadelphia. The property is now offered for sale on very liberal terms by the owner residing in Philadelphia. A speculation can be made out of it by any one purchasing it at this time. Application can be made either personally or by letter to either of the following persons.

New Agricultural Settlements.

TO ALL WANTING FARMS.

A Rare Opportunity in a Delightful and Healthy Climate, 25 miles South of Philadelphia, on the Camden and Atlantic Railroad, New Jersey.

AN old estate consisting of several thousands of acres of productive soil, has been divided into Farms of various sizes to suit the purchaser. A population of some Fifteen Hundred, from various parts of the Middle States and New England, have settled there the past year, improved their places and raised excellent crops. The price of the land is at the low sum of \$15 to \$20 per acre, the soil is of the best quality for the production of Wheat, Clover, &c. The terms are made easy to secure a rapid improvement of the land, which is only sold for actual improvement. The result has been that within the brief space of one year, several hundred acres have been cleared, two mills, one steam, four stores, some forty vineyards and peach orchards planted, and a number of other improvements, making it a desirable and active place of business.

THE MARKET.

as the reader may perceive from its location, is THE BEST IN THE UNION.

Produce bringing double the price brought in localities away from the city, and more than double the price in the West. It is known that the earliest and best wheat and rye crops in this latitude come from New Jersey, and are annually exported to the extent of millions.

In looking here the reader has many advantages. He is within a few hours ride of the great cities of New England and Middle States, he is near his old friends and associations, he is in a settled country where every thing is quiet and comfortable, and he can buy every article he wants at the cheapest price, and sell his produce for the articles he wants at the highest price. He has a school for his children, divine services, and will enjoy an open market for his produce for any kind of business, which is very unknown. The result of the changes upon the north has generally been to restore them to the condition of health.

In the way of building and improving, lumber can be obtained at the mill at the rate of \$10 to \$15 per thousand. Bricks from the brick yard opened in the place, every article can be procured in the place, good carpenters are at hand, and there is no place in the Union where buildings and improvements can be made so cheap.

The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never known in the market, and these statements were correct, no one would be invited to examine the land before purchasing. The title is all expected to be. The title will be made good, such is the extent of the settlement that they will not doubt meet persons from their own neighborhood, who will come and see the property, and judge for themselves of the character of the population. If they come with a view to settle, they should come prepared to stay a year or two, and be ready to purchase, as locations in the West are not to be had so readily.

There are two daily trains to Philadelphia and to all other places that improve the Railroad Company gives a FREE TICKET FOR THREE YEARS.

THE TOWN OF HAMMONONT.

In connection with the agricultural settlement, a town has been laid out, which presents inducements for any kind of business, particularly stores and manufactures. The soil here is so good that it will produce more than any other soil in the place, and the water is so pure that it will be a great advantage to any one who settles there. The town is situated on the Camden and Atlantic Railroad, at 25 miles from Philadelphia, and is a most desirable place of business.

THE HUSKERS.

Heap high the farmer's wintry hoard! Heap high the golden corn! No richer gift has Autumn poured From out her lavish hoard.

Let other lands exulting gleam The apple from the pine, The orange from the glossy green, The cluster from the vine—

We better love the hardy gift Our rugged rales bestow; To cheer us when the storm shall drift Our harvest fields with snow.

When spring-time came with flower and bud, And grassy green, and young And merry bob-links in the wood, Like mad musicians sung.

We dropped the seed o'er hill and plain, Beneath the sun of May, And frightened from our sprouting grain The robber crows away.

All through the long bright days of June, Its leaves grew thin and fair, And waved in hot mid-summer's noon Its soft and yellow hair.

And now, when Autumn's moonlit eve, Its harvest time has come, We pluck away the frosted leaves, And bear the treasures home.

There, richer than the faded gift Of golden showers of old, Fair hands the golden grain shall sift And knead its meal of gold.

Let rapid idlers toll in silk Around their costly loom— Give us the bowl of mush and milk, By homespun beauty doomed.

Where'er the wide old kitchen hearth Sends up its smoky curls, Who will not thank the kindly earth, And bless our corn-fed girls.

Let earth withhold her goodly root, Let mellow bright the rye, Give to the worm the orchard's fruit, The wheat field to the fly.

But let the good old crow adorn The hills our fathers trod; Still let us for his golden corn Send up our thanks to God!

PLANT FRUIT TREES.
