From this statement it will seen that the balance of trade against us, at the port of New York alone, amounts to \$163,138,373 FOR THE PAST TEN MONTHS!

Such is the effect of the free trade policy of the Democratic party. In this connection it would be well to look at statistics, referring to the Iron Works of the United States.

From a table, compiled by the American Iron Association, exhibiting the number of iron works, idle and in operation, in the United States, it appears that there are furnaces, rolling mills, or forges, in twenty-five States of the Union, leaving but eight States destitute of iron works; these are Mississipp, Louisiana, Florida, Texas, Iowa, Minnesota, California, and Oregon, all upon the boundary or frontier The following are the totale.

These produce annually about 850,000 tons of iron the value of which, in an ordinary year, is fifty millions of dollars. Of this amount the portion expended for labor alone importations, and the £ price of iron in Liverpool each year since 1840, it appears that under the tariff of 1846 the increase in the import of iron is more than ten times the increase in the population, and more than thirty-eight times the increase in the domestic production. In view of the facts disclosed above, the necessity of a repeal of the present tariff of 1857

New York State Election. How Democrats can have the effrontery to consider the result of the York State election at the Republicans have elected six, five of whom received a majority of some fifty thousand .-The Democrats with the assistance of Know Nothings elected three candidates by majorities ranging from three hundred to one thoufourths of the county officers, and have a greater ascendency in the Legislature, than ed gun. they have had for some time. State Convention.

The Chairman of the Executive Committee of the People's Party of this State, has issued a call, requesting the opponents of the Democratic party to elect delegates to a State Convention to be held at Harrisburg on Wednesday, the 22nd of February, 1860 "to indite their choice for the Presidency, nominate a candidate for Governor, form an Electral ticket, appoint Senatorial, and designate the time and mode of electing district Delegates to the National Convention.

How will our Democratic foreigners fancy a Democratic rejoicing over a meagre partial Democratic victory, secured in York State by a co-alition of Democrats with Know Nothings?

The result of the York State election has proven, that leaving the Know Nothing vote out of the question, the Republicans have a majority of over twenty thousand over the

THE DEMOCRAT.

The course pursued by the learned ediors of the Democrat shows how exceedingly difficult it is to learn new principles in politics. The editors have certainly forgotten or abandoned all their "Republicanism"that went with the sale of one newspaper and the purchase of the other. Perhaps it was in the agreement with Mr. Hannum.

"democratic sentiment in 1856," we publish by the Americans received a majority of over the following extracts from speeches of men who certainly called themselves democrats in arduous and perilous duties, and that he felt who certainly called themselves democrats in who certainly called themselves democrats in nine, (a curious way of cyphering,) while they that campaign. How much they are like the have but three elected from 300 up to 1400 the editorials of the Democrat any one who reads can judge for himself. The doctrines of the Republican party are not more unlike these opinions of 1856, than are the new editorials of the Allenton Democrat

> Population of Kansas.—According to the nost accurate returns yet received of the recent constitutional election in Kansas, the whole vote polled was from sixteen to eighteen thousand. Judging from these figures, and from a probability that the full vote was not polled, we afely conclude that Kansas has now a population sufficiently large to entitle her to come into the Union as a State, under the provisions of the "English" bill, that is, equal to the ratio of a Representative in Congress, which is a little over 93,000. We have but little doubt of her admission under the Wyandotte Constitution.

It seems that Richards had gone and collected money of complainants on pretense, that it was intended for the relief of a certain individual living near Bethlhem, who was said to have lost his barn by fire. The pretense was a fabrication. The defondant had been practicing this new plan of "raising the wind" in Northampton county and in several townships of our County.

The visitors arrived here in the morning train and were received at the depot by the Jordan Artillerists and Allen Rifles. After parading through the streets of first ward, the assembled military were served to a collation at the Armory of the Jordan Artillerists. After marching through the principal streets of the Borough the Artillerists partock of an xcellent dinner at the Allen House gotten up by Messrs. Yohe & Newhard. The firing for the prises took place at the Crystal Springs in the afternoon The first, a handsome revolver, was won by A Adams, and the second, a medallion, by David Seigfried. After the firing, the visitors were again favored with a collation at the Eagle Hotel. The Artillerists number 32 muskets. The company is composed of able-bodied men, presents a fine appearance, and under the command of its able Command er, Captain Dachradt, has won an enviable reputation among the military of our vicinity. Pomp's Cornet Band has won a reputation that has made the Band known far and wide, and the music discoursed on Thanksgiving day was such as can be seldom heard and highly delighted our citizens. The Band was dressed in their new uniform, red pantaloons and large army over-coats. The visitors were escorted to the depot by our military and left for home in the evening accommodation train. We trust that the visit of the Citizen Artillerists may have the effect of comenting a friendship between the 1614 a second colony was established along the neighboring boroughs of Easton and Allentown, and Hudson.
