In CONSIDERED THEREBEST FRUIT_SOIL IN WHIDELED NOT CONSIDERED THE BUST FRUIT SOIL IN THERMON. The place is perfect secure from frosts -the: destructive eneany of the farmer.-Crops of grain, grass and fruit are now growing and can be sech. By examining the place itself, a cor-rect judgment can be formed of the preductiveness of the land. The terms are made easy to secure a ra-pid improvement of the land, which is only sold for actual improvement. The result has been that within the past year, some three hundred houses have been erected, two mills, one steam, four stores, some forty vibyards and peach occhards planted, and a large number of other improvements, making it a desirable and active place of business.

THE MARKET, as the reader may perceive from its location, is

THE BEST IN THE UNION:

Produce bringing double the price brought in sections away from the city, and more than double the price in the West. It is known that the carliest and besi fruits and regitables in this latitude come from New Jarsey, and are annually exported to the extent

of millions. In locating here the sottler has many advantages. He is within a few hours ride of the great cities of New England and Middle States, he is near his old friends and associations, he is in a settled coun-try whare avery improvement and comfort is at hand. He can buy every article he wants at the cheapest price, and sell his produce for the article he wants at the cheapest price, and solt his produce for the highest, (in west this is reversed,) he has school for his children, divine services, and will enjoy an open winter and delinbil a divants where the services are the set of the services. his children, divine services, and will enjoy an open winter and delightful climate, where forers are ut-terly unknown. In the way of building and improving, lumber can be obtained at the mills at the rate of \$10 to \$15 be obtained at the mills at the rate of \$16 to \$16 per thousand. Bricks from the brick yark opened in the place, every article can be procured in the place, good carponters are at hand, and there is no place in the Union where buildings and improve-ments can be made cheever.

monts can be made cheaper. The reader will at once be struck with the advan ages have prosented, and ask himself why the prop-erty has not been taken up before. The reason is, it was nover thrown in the market; and unloss these statements were correct, no one would be invited to examine the land before purchasing. This all are expected to do. They will see land under cultivation, such is the extent of the settlement that they will no doubt meet persons from their own neighborhood; they will witness the improvements, and can judge the character of the pepulation. If they come with a view to settle, they should come prepared to stay a day or two and be ready to purchase, as locations cannot the held on reformal cann.t be held on refusal.

THE TOWN OF HAMMONTON. In a rown of manner to man and a rown of manner, a new and thriving town has naturely arisen, which presents inducements for any kind of business, par-ticularly stores and manufactories. The shoe busi-ness could be carried on in this place and market to good advantage, also cotton business, and manufac-turies of agricultural impliments, or foundries for casting small articles. The improvement has been as a raid as to have a constant and permanent in so rapid as to insure a constant and permanent in-crease of business. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous comstitu-tions not only suffer from scrofulous com-

HOSTETTER'S STOMACH BITTERS.

The propriators and manufactorers of FOS TETTER'S CELEBRATED STOMACH BIT-TERS and appent with perfect confidence to TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a repu-tation hereitofore unknown. A few facts upon; this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of llosiettor's Stomach Bit-ters for the last year amounted to over a half-million bottles, and from its manifest steady increase in times past, it is evident (hat during increase in times past, it is evident that during the coming year the consumption will-reach near one million bettles. This immense amount near one million bettles. This immense another could never have been sold but for the rare medicinal properties contained in the preparation, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom.

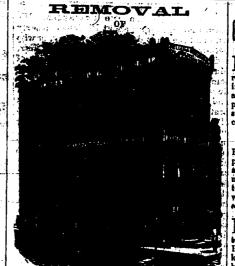

This is not a temporary popularity, obtained by extraordinary efforts in the way of trum-peting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is

destined to be as enduring as time itself. Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other billous complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like discress is to the warning of me diseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the storach, purifies the blood, and imparts renoved vitality to the nervous system, giving it that tone and energy indispensable for the restoration of kealth. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy dischargo of the functions. of the functions of nature. Elderly persons may use the Bitters daily as

per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palato, akill of our times can devise for this every where prevailing and fatal malady. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it ahould be employed for the cure of not only scrofula, but also those other affec-tions which arise from it, such as ERUFIVE and SXIN DISEASES, ST. ANTHONYS FIRE, Rosz, or ENYSIPELAS, PINFLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, REBUMATISM, STRIBTICS and MIRCURIAL DIS-EASES, DROPSY, DYSPEPSIA, DEBILITY, and, deciming years, as it is pleasant to the painto, invigorating to the bowels, excellent as a tonie, and rejuvenating generally. We have the evi-dence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach de-rangements and general debility; acting under the advice of physicians, they have abandoned all coloterious drugs and faily tested the all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and ability is as a percent of the trial to the and child is so absorbingly tender, that the mother, especially if she be young is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, thou, is a necessity for a stimulant to recupe-rate the energies of the system, and enable the mother to hear up under her exhausting trials and responsibilities. Nursing mothers gene-rally prefer the Bitters to all other invigorators that receive the endorsement of physi-cians, because it is agreeable to the taste as well as certain to give a permanent increase

of bodily strength. All those persons, to whom we have particu-All those persons, to whom we have particu-larly roferred above, to wit: sufferers from fevor and ague, caused by malaria, diarrhea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hos-tetter's Celebrated Stomach Bitters a trial.
