How Agricultural Settlements. TO ALL WANTING FARMS.

Rare Opportunity in a Delighiful and Healthy Climate, 25 miles Southest of Philadelphia, on the Camden and Atlantic Bailroad,

New Jorsey. A N old estate consisting of several thousands of acros of productive soil, has been divided into Farms of various sizes to suit the purchaser. A population of some Fifteen Hundred, from various population of some Filteen Hundred, from various parts of the Middle States and New England, have settled there the past year, improved their places and raised excellent crops. The price of the land is at the low sum of from \$15 to \$20 per acro, the soli sof the best quality for the production of Wheat, Clovers Penches, Grapes and Vegetables. IT Is CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The place is perfect secure from frosts—the destructive enemy of the farmer.—Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are made easy to secure a ra-pld improvement of the land, which is only sold for actual improvement. The result has been that within the past year, some three hundred houses cted, two mills, one steam, four store some forty vinyards and peach or chards planted, and a large number of other improvements, making it desirable and active place of business.

THE MARKET, as the reader may perceive from its location, is THE BEST IN THE UNION. Produce bringing double the price brought in lecations away from the city, and more than double the price in the West. It is known that the carliest and best fruits and vogitables in this latitude come from New Jersey, and are annually exported to the exten

of millions.

In locating here the settler has many advantages. He is within a few hours ride of the great cities of New England and Middlo States, he is near his old friends and associations, he is in a settled country where every improvement and comfort is at hand He can buy every article he wants at the choapest price; and sell his produce for the article he wants at the cheapest price, and sell his produce for the highest; (in west this is reversed,) he has school for his children, divine services, and will enjoy an open winter; and delightful climate, where fevers are utterly unknown. The result of the change upon those from the north has generally been to restore them to

om the north has generally been to restore them to a sixellent state of health.

In the way of building and improving, lumber can sobtained at the mills at the rate of \$10 to \$15 be obtained at the mills at the rate of \$10 to \$10 per thousand. Bricks from the brick yark opened in the place, every article can be procured in the place, good carpenters are at hand, and there is no place in the Union where buildings and improve-

place in the Union where buildings and improvements can be made cheaper.

The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these stafements were correct, no one would be invited to examine the land before purchasing. This all are accounted to the They will see aland under cultivation. examine the land before purchasing. This all are expected to do. They will see land under cultivation, such is the extent of the settlement that they will no doubt meet persons from their own neighborhood; they will witness the improvements, and can judge the character of the population. If they come with a view to settle, they should come prepared to stay a day or two and be ready to purchase, as locations cann t be held on refusal.

 κ_{s} the town of hammonton. In connection with the agriculsural settlement, a new and thriving town has naturely arison, which presents inducements for any kind of business, par-ticularly stores and manufactories. The shoe business could be carried on in this place and market to good sdvantage, also cotton business, and manufacgood savantage, and octool business, and manufacturies of agricultural impliments, or foundries for casting small articles. The improvement has been so rapid as to insure a constant and permanent increase of business. Town lots of a good size, we do not sell small ones as it would affect the improvement of the place, can be had at from \$100 and up

Saraparilla is reputed to one. It is believed that such a remedy is wanted by those who suffer from Strumous compleints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted follow-citiseas: How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:— Scropula and Scropulous Complaints,

that can be made. It is a concentrated extraot of Para Sarsaparilla, so combined with other

substances of still greater alterative power as to afford an effective antidote for the diseases

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the time-ly expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been mis-led by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment

rilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete ed to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on

HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than nes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bit-ters for the last year amounted to over a halfmillion bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the prepara-tion, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its officacy in all cases of stomachic derangements and the diseases resulting therefron

This is not a temporary popularity, obtained by extraordinary efforts in the way of trum-peting the qualities of the Ditters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of un-alloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as

per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate. declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this proparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all eleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if the be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recupe-rate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase

well as certain to give a perinanent increase of hodily strength.

All those persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhoea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary securation and nursing rechoes, will consult occupation, and nursing mothers, will consult their own physical welfare by giving to Hos-tetter's Celebrated Stomach Bitters a trial. CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for Hostetter's Celebrated Stomach Bitters, and see that each bottle has the words "Dr. J. Hestetter's Stomach Bitters'

blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the #9- Prepared and sold by HOSTETTER & SMITH, Pittsburgh, Pa., and sold by all druggists, grocers, and dealers generally throughout the United States, South America, and Germany.
