FORNEY ON THE PRESIDENCY .- The Phila delphia Press states that the position of Col. Forney in the next Presidential struggle is correctly stated in the following extract from a letter of the Washington Correspondent of the New York Tribune of the 3rd inst.

"Mr. Forney rendered valuable services to believe his well-understood present political position is this: If Mr. Douglas should be nominated for the Presidency on a popular sovereignty platform, and should avowedly accept that nomination on such a platform, and ald declare to the country that he adhered to the principles he proclaimed in the Lecompton contest, then Mr. Forney would support him, provided he believed that the platform was shed in good faith, and Mr. D. was sincere in his avowals. If either of these contingencies fails, then throughout the coming Presidential struggle he will be found doing battle with the friends of the Constitution and the Union against the enemies of both."
